- subdivision 26d. When a social services agency does not have responsibility for a child's placement and the child is enrolled in a prepaid health program under section 256B.69, the enrolled child's contracted health plan must determine the appropriate level of care <u>for the child</u>. When Indian Health Services funds or funds of a tribally owned facility funded under the Indian Self-Determination and Education Assistance Act, Public Law 93-638, are to be used <u>for a child</u>, the Indian Health Services or 638 tribal health facility must determine the appropriate level of care <u>for the child</u>. When more than one entity bears responsibility for <u>a child's</u> coverage, the entities shall coordinate level of care determination activities <u>for the child</u> to the extent possible.
- (c) The responsible social services agency must make the <u>child's</u> level of care determination available to the <u>child's</u> juvenile treatment screening team, as permitted under chapter 13. The level of care determination shall inform the juvenile treatment screening team process and the assessment in section 260C.704 when considering whether to place the child in a qualified residential treatment program. When the responsible social services agency is not involved in determining a child's placement, the child's level of care determination shall determine whether the proposed treatment:
- 2.17 (1) is necessary;
- 2.18 (2) is appropriate to the child's individual treatment needs;
  - (3) cannot be effectively provided in the child's home; and
  - (4) provides a length of stay as short as possible consistent with the individual child's need needs.
  - (d) When a level of care determination is conducted, the responsible social services agency or other entity may not determine that a screening of a child under section 260C.157 or referral or admission to a treatment foster care setting or residential treatment facility is not appropriate solely because services were not first provided to the child in a less restrictive setting and the child failed to make progress toward or meet treatment goals in the less restrictive setting. The level of care determination must be based on a diagnostic assessment of a child that includes a functional assessment which evaluates the child's family, school, and community living situations; and an assessment of the child's need for care out of the home using a validated tool which assesses a child's functional status and assigns an appropriate level of care to the child. The validated tool must be approved by the commissioner of human services and may be the validated tool approved for the child's assessment under section 260C.704 if the juvenile treatment screening team recommended placement of the child in a qualified residential treatment program. - including a functional assessment has been completed by a mental health professional within the past 180 days, a new diagnostic assessment need not be completed unless in the opinion of the current treating mental health professional the child's mental health status has changed markedly since the assessment was completed. The child's parent shall be notified if an assessment will not be completed and of the reasons. A copy of the notice shall be placed in the child's file. Recommendations developed as part of the level of care determination process shall include specific community services needed by the child and, if appropriate, the child's family, and shall indicate whether or not these services are available and accessible to the child and the child's family.
- (e) During the level of care determination process, the child, child's family, or child's legal representative, as appropriate, must be informed of the child's eligibility for case management services and family community support services and that an individual family community support plan is being developed by the case manager, if assigned.
- (f) When the responsible social services agency has authority, the agency must engage the child's parents in case planning under sections 260C.212 and 260C.708 and chapter 260D unless a court terminates the parent's rights or court orders restrict the parent from participating in case planning, visitation, or parental responsibilities.
- (g) The level of care determination, and placement decision, and recommendations for mental health services must be documented in the child's record, as required in chapter chapters 260C and 260D.
  - **EFFECTIVE DATE.** This section is effective September 30, 2021.
- Sec. 2. Minnesota Statutes 2020, section 256.01, subdivision 14b, is amended to read: 3.22

The commissioner shall only authorize

- 4.22 (6) have a tribal-state title IV-E agreement in effect.; and
- 4.23 (7) enter into host tribal contracts pursuant to section 256.0112, subdivision 6.

- (5) other activities and services approved by the commissioner that further the goals of providing safety, permanency, and well-being of American Indian children.
- (e) When a tribe has initiated a project and has been approved by the commissioner to assume child welfare responsibilities for American Indian children of that tribe under this section, the affected county social service agency is relieved of responsibility for responding to reports of abuse and neglect under chapter 260E for those children during the time within which the tribal project is in effect and funded. The commissioner shall work with tribes and affected counties to develop procedures for data collection, evaluation, and clarification of ongoing role and financial responsibilities of the county and tribe for child welfare services prior to initiation of the project. Children who have not been identified by the tribe as participating in the project shall remain the responsibility of the county. Nothing in this section shall alter responsibilities of the county for law enforcement or court services.

Tribes with established child mortality review panels shall have access to nonpublic data and shall protect nonpublic data under subdivision 12, paragraphs (c) to (e). The tribe shall provide written notice to the commissioner and affected counties when a local child mortality review panel has been established and shall provide data upon request of the commissioner for purposes of sharing nonpublic data with members of the state child mortality review panel in connection to an individual case.
  - (h) The commissioner shall collect information on outcomes relating to child safety, permanency, and well-being of American Indian children who are served in the projects.

- Sec. 3. Minnesota Statutes 2020, section 256.0112, subdivision 6, is amended to read:
- Subd. 6. Contracting within and across county lines; lead county contracts; lead tribal contracts. Paragraphs (a) to (e) govern contracting within and across county lines and lead county contracts. Paragraphs (a) to (e) govern contracting within and across reservation boundaries and lead tribal contracts for initiative tribes under section 256.01, subdivision 14b. For purposes of this subdivision, "local agency" includes a tribe or a county agency.
- (a) Once a local agency and an approved vendor execute a contract that meets the requirements of this subdivision, the contract governs all other purchases of service from the vendor by all other local agencies for the term of the contract. The local agency that negotiated and entered into the contract becomes the lead tribe or county for the contract.
- (b) When the local agency in the county <u>or reservation</u> where a vendor is located wants to purchase services from that vendor and the vendor has no contract with the local agency or any other <u>tribe or</u> county, the local agency must negotiate and execute a contract with the vendor.
- (c) When a local agency in one county wants to purchase services from a vendor located in another county or reservation, it must notify the local agency in the county or reservation where the vendor is located. Within 30 days of being notified, the local agency in the vendor's county or reservation must:
  - (1) if it has a contract with the vendor, send a copy to the inquiring local agency;

Prior to forming the team, the responsible social services agency must consult with the child's parents, the child if the child is age 14 or older, the child's parents, and, if applicable, the child's tribe to obtain recommendations regarding which individuals to include on the team and to ensure that the team is family-centered and will act in the child's best interest interests. If the team recommends treating the child in a qualified residential treatment program, the agency must follow the requirements of sections 260C.70 to 260C.714.

The court shall ascertain whether the child is an Indian child and shall notify the responsible social services agency and, if the child is an Indian child, shall notify the Indian child's tribe as paragraph (c) requires.

- (e) When the responsible social services agency is responsible for placing and caring for the child and the screening team recommends placing a child in a qualified residential treatment program as defined in section 260C.007, subdivision 26d, the agency must: (1) begin the assessment and processes required in section 260C.704 without delay; and (2) conduct a relative search according to section 260C.221 to assemble the child's family and permanency team under section 260C.706. Prior to notifying relatives regarding the family and permanency team, the responsible social services agency must consult with the child's parent or legal guardian, the child if the child is age 14 or older, the child's parents and, if applicable, the child's tribe to ensure that the agency is providing notice to individuals who will act in the child's best interest interests. The child and the child's parents may identify a culturally competent qualified individual to complete the child's assessment. The agency shall make efforts to refer the assessment to the identified qualified individual. The assessment may not be delayed for the purpose of having the assessment completed by a specific qualified individual.

24.28	(1) consider the qualified individual's assessment of whether it is necessary and
24.29	appropriate to place the child in a qualified residential treatment program under section

24.31	(2) (1) determine whether a family foster home can meet the child's needs, whether it is

25.13	a qualified residential treatment program, the court is not required to hold a hearing and the
25.14	court is not required to issue an order. Pursuant to section 260C.704, paragraph (f), the
25.15	responsible social services agency shall make a plan for the child's placement consistent
25.16	with the child's best interests under section 260C.212, subdivision 2. The agency must file

(3) establishes the ongoing responsibility of the parent as legal custodian to visit the
child, to plan together with the agency for the child's treatment needs, to be available and
accessible to the agency to make treatment decisions, and to obtain necessary medical,
dental, and other care for the child; and

- (4) applies to voluntary foster care when the child's parent and the agency agree that the child's treatment needs require foster care either:
- (i) due to a level of care determination by the agency's screening team informed by the child's diagnostic and functional assessment under section 245.4885; or
- (ii) due to a determination regarding the level of services needed by the child by the responsible social services' services agency's screening team under section 256B.092, and Minnesota Rules, parts 9525.0004 to 9525.0016-; and
- (5) includes the requirements for a child's placement in sections 260C.70 to 260C.714, when the juvenile treatment screening team recommends placing a child in a qualified residential treatment program, except as modified under this chapter.
- (d) This chapter does not apply when there is a current determination under chapter 260E that the child requires child protective services or when the child is in foster care for any reason other than treatment for the child's emotional disturbance or developmental disability or related condition. When there is a determination under chapter 260E that the child requires child protective services based on an assessment that there are safety and risk issues for the child that have not been mitigated through the parent's engagement in services or otherwise, or when the child is in foster care for any reason other than the child's emotional disturbance or developmental disability or related condition, the provisions of chapter 260C apply.
- (e) The paramount consideration in all proceedings concerning a child in voluntary foster care for treatment is the safety, health, and the best interests of the child. The purpose of this chapter is:
- (1) to ensure that a child with a disability is provided the services necessary to treat or ameliorate the symptoms of the child's disability;
- (2) to preserve and strengthen the child's family ties whenever possible and in the child's best interests, approving the child's placement away from the child's parents only when the child's need for care or treatment requires it out-of-home placement and the child cannot be maintained in the home of the parent; and

(3) to ensure that the child's parent retains legal custody of the child and associated
decision-making authority unless the child's parent willfully fails or is unable to make
decisions that meet the child's safety, health, and best interests. The court may not find that
the parent willfully fails or is unable to make decisions that meet the child's needs solely
because the parent disagrees with the agency's choice of foster care facility, unless the
agency files a petition under chapter 260C, and establishes by clear and convincing evidence
that the child is in need of protection or services.

- (f) The legal parent-child relationship shall be supported under this chapter by maintaining the parent's legal authority and responsibility for ongoing planning for the child and by the agency's assisting the parent, where when necessary, to exercise the parent's ongoing right and obligation to visit or to have reasonable contact with the child. Ongoing planning means:
- (1) actively participating in the planning and provision of educational services, medical, and dental care for the child;
- (2) actively planning and participating with the agency and the foster care facility for the child's treatment needs; and
- (3) planning to meet the child's need for safety, stability, and permanency, and the child's need to stay connected to the child's family and community-; and
- (4) engaging with the responsible social services agency to ensure that the family and permanency team under section 260C.706 consists of appropriate family members. 48.29	correction order that the license holder alleges are in error. To submit a request for
48.30	reconsideration, the license holder must send a written request for reconsideration by United
48.31	States mail to the commissioner of human services. The request for reconsideration must

49.6	final and not subject to appeal under chapter 14.
49.7	(d) Nothing in this subdivision prohibits the commissioner of human services from

49.10	certification issued under this section if a license holder fails to comply with the certification
49.11	requirements in this section.
49.12	(b) The license holder may request reconsideration of a decertification by notifying the
49.13	commissioner of human services by certified mail or personal service. The license holder
49.14	must request reconsideration of a decertification in writing. If the license holder sends the
49.15	request for reconsideration of a decertification by certified mail, the license holder must
49.16	send the request by United States mail to the commissioner of human services and the
49.17	request must be postmarked within 20 calendar days after the license holder received the
49.18	notice of decertification. If the license holder requests reconsideration of a decertification
49.19	by personal service, the request for reconsideration must be received by the commissioner
49.20	of human services within 20 calendar days after the license holder received the notice of
49.21	decertification. When submitting a request for reconsideration of a decertification, the license
49.22	holder must submit a written argument or evidence in support of the request for
49.23	reconsideration.

# Sec. 10. <u>DIRECTION TO THE COMMISSIONER</u>; <u>QUALIFIED RESIDENTIAL</u> <u>TREATMENT TRANSITION SUPPORTS.</u>

The commissioner of human services shall consult with stakeholders to develop policies
regarding aftercare supports for the transition of a child from a qualified residential treatment
program, as defined in Minnesota Statutes, section 260C.007, subdivision 26d, to
reunification with the child's parent or legal guardian, including potential placement in a
less restrictive setting prior to reunification that aligns with the child's permanency plan and
person-centered support plan, when applicable. The policies must be consistent with
Minnesota Rules, part 2960.0190, and Minnesota Statutes, section 245A.25, subdivision 4,
paragraph (i), and address the coordination of the qualified residential treatment program
discharge planning and aftercare supports where needed, the county social services case
plan, and services from community-based providers, to maintain the child's progress with
behavioral health goals in the child's treatment plan. The commissioner must complete
development of the policy guidance by December 31, 2022.
