Subd. 4. **Amount and length of grants.** (a) The amount of a child care grant must be based on:

(1) the income of the applicant and the applicant's spouse;

(2) the number in the applicant's family, as defined by the office; and

(3) the number of eligible children in the applicant's family.

(b) The maximum award to the applicant shall be ~~\$2,800~~ \$3,000 for each eligible child per academic year, except that the campus financial aid officer may apply to the office for approval to increase grants by up to ten percent to compensate for higher market charges for infant care in a community. The office shall develop policies to determine community market costs and review institutional requests for compensatory grant increases to ensure need and equal treatment. The office shall prepare a chart to show the amount of a grant that will be awarded per child based on the factors in this subdivision. The chart shall include a range of income and family size.

(c) Applicants with family incomes at or below a percentage of the federal poverty level, as determined by the commissioner, will qualify for the maximum award. The commissioner shall attempt to set the percentage at a level estimated to fully expend the available appropriation for child care grants. Applicants with family incomes exceeding that threshold will receive the maximum award minus ten percent of their income exceeding that threshold. If the result is less than zero, the grant is zero.
