65.1 Sec. 2. Minnesota Statutes 2016, section 85.34, subdivision 1, is amended to read:

65.2 Subdivision 1. **Upper bluff; lease terms.** The commissioner of natural resources with
65.3 the approval of the Executive Council may lease for purposes of restoration, preservation,
65.4 historical, recreational, educational, and commercial use and development, that portion of
65.5 Fort Snelling State Park known as the upper bluff consisting of officer's row, area J, the
65.6 polo grounds, the adjacent golf course, and all buildings and improvements located thereon,
65.7 all lying within an area bounded by Minneapolis-St. Paul International Airport, Trunk
65.8 Highways numbered 5 and 55, and Bloomington Road. The lease or leases shall be in a
65.9 form approved by the attorney general and for a term of not to exceed 99 years. The lease
65.10 or leases may provide for the provision of capital improvements or other performance by
65.11 the tenant or tenants in lieu of all or some of the payments of rent that would otherwise be
65.12 required. Notwithstanding the continuing ownership of the upper bluff by the state, any
65.13 lease of one or more buildings improved with state general obligation bond proceeds that
65.14 exceeds 50 years shall be treated as a sale of the buildings for purposes of section 16A.695,
65.15 subdivision 3. Any disposition proceeds payable to the commissioner upon execution of
65.16 any lease relating to state bond financed buildings at the upper bluff shall be applied in
65.17 accordance with the requirements of section 16A.695, subdivision 3, and used to pay,
65.18 redeem, or defease state general obligation bonds issued for purposes of improving those
65.19 buildings. Any lease revenues paid to the commissioner subsequent to the payment,
65.20 redemption, or defeasance of state general obligation bonds shall be used by the commissioner
65.21 as further described in this section.

65.22 Sec. 3. Minnesota Statutes 2016, section 174.52, subdivision 2, is amended to read:

65.23 Subd. 2. ~~Trunk highway corridor projects~~ Local cost-share assistance account. A
65.24 ~~trunk highway corridor projects~~ local cost-share assistance account is established in the
65.25 local road improvement fund. Money in the account is annually appropriated to the
65.26 commissioner of transportation for expenditure as specified in this section. Money in the
65.27 account must be used as grants or loans to statutory or home rule charter cities, towns, and
65.28 counties to assist in paying the local share of trunk highway projects that have local costs
65.29 that are directly or partially related to the trunk highway improvement and that are not
65.30 funded or are only partially funded with other state and federal funds. ~~The commissioner~~
65.31 ~~shall determine the amount of the local share of costs eligible for assistance from the account.~~

66.1 Sec. 4. [219.016] HAZARDOUS MATERIALS RAIL SAFETY ACCOUNT AND
66.2 GRANT PROGRAM.

66.3 Subdivision 1. Purpose. A hazardous materials rail safety program is established for
66.4 the purpose of reducing the risks associated with transporting hazardous material by rail.

66.5 Subd. 2. Creation of account. A hazardous materials rail safety program account is
66.6 established in the bond proceeds fund. Money in the account may only be used for capital
66.7 costs associated with planning, engineering, administration, and construction of public
66.8 highway-rail grade crossing improvements on rail corridors transporting crude oil and other
66.9 hazardous materials. Improvements may include upgrades to existing protection systems,
66.10 the closing of crossings and necessary roadwork, and reconstruction of at-grade crossings
66.11 to full grade separations.

66.12 Subd. 3. Grants. The commissioner may approve grants for financial assistance to
66.13 eligible applicants for capital costs associated with hazardous materials rail safety projects
66.14 on public highway-rail grade crossings. Qualifying capital costs include, but are not limited
66.15 to, upgrades to existing protection systems, the closing of crossings and necessary roadwork,
66.16 and reconstruction of at-grade crossings to full grade separations.

66.17 Subd. 4. Eligible applicants. Counties, statutory or home rule charter cities, or towns
66.18 that are responsible for establishing and maintaining public highway-rail grade crossings
66.19 on rail corridors transporting crude oil and other hazardous materials may apply to the
66.20 commissioner for financial assistance for the purposes in this section.

66.21 Subd. 5. Criteria for grant award. The commissioner shall consider the following
66.22 criteria to evaluate applications for a grant award for a hazardous materials rail safety project:

66.23 (1) whether the crossing was identified as a potential candidate for grade separation in
66.24 MnDOT's crude by rail grade crossing study (Improvements to Highway Grade Crossings
66.25 and Rail Safety, December 2014);

66.26 (2) roadway traffic volumes and speeds;

66.27 (3) train volumes and speeds;

66.28 (4) adjacent land use;

66.29 (5) crash history;

66.30 (6) use of the crossing by emergency vehicles;

66.31 (7) use of the crossing by vehicles carrying hazardous materials;

66.32 (8) local financial contributions to the project; and

67.1 (9) private financial contributions to the project.

67.2 Sec. 5. Minnesota Statutes 2016, section 446A.072, is amended to read:

67.3 **446A.072 ~~WASTEWATER~~ WATER INFRASTRUCTURE FUNDING PROGRAM.**

67.4 Subdivision 1. **Establishment of program.** The authority will establish a ~~wastewater~~
 67.5 water infrastructure funding program to provide supplemental assistance to governmental
 67.6 units receiving funding through the clean water revolving fund program, the drinking water
 67.7 revolving fund program, or the United States Department of Agriculture Rural Economic
 67.8 and Community Development's (USDA/RECD) Water and Waste Disposal Loans and
 67.9 Grants program for the predesign, design, and construction of municipal wastewater ~~treatment~~
 67.10 and drinking water systems, including purchase of land and easements. The purpose of the
 67.11 program is to assist governmental units demonstrating financial need to build cost-effective
 67.12 projects to address existing environmental or public health problems. To implement the
 67.13 program, the authority shall establish a ~~wastewater~~ water infrastructure fund to provide
 67.14 grants ~~and loans~~ for the purposes authorized under title VI of the Federal Water Pollution
 67.15 Control Act and the federal Safe Drinking Water Act. The fund shall be credited with all
 67.16 investment income from the fund and all repayments of loans, grants, and penalties.

67.17 Subd. 3. **Program administration.** (a) The authority shall provide supplemental
 67.18 assistance, as provided in subdivision 5a to governmental units:

67.19 (1) whose projects are listed on the Pollution Control Agency's project priority list or
 67.20 the commissioner of health's project priority list;

67.21 (2) that demonstrate their projects are a cost-effective solution to an existing
 67.22 environmental or public health problem; and

67.23 (3) whose projects are approved by the USDA/RECD or certified by the commissioner
 67.24 of the Pollution Control Agency or the commissioner of health.

67.25 (b) For a governmental unit receiving grant funding from the USDA/RECD, applications
 67.26 must be made to the USDA/RECD with additional information submitted to the authority
 67.27 as required by the authority. Eligible project costs and affordability criteria shall be
 67.28 determined by the USDA/RECD.

67.29 (c) For a governmental unit not receiving grant funding from the USDA/RECD,
 67.30 application must be made to the authority on forms prescribed by the authority for the clean
 67.31 water revolving fund program or the drinking water revolving fund program with additional
 67.32 information as required by the authority. In accordance with section 116.182, the Pollution
 67.33 Control Agency or the commissioner of health shall:

68.1 (1) calculate the essential project component percentage, based on the portion of project
68.2 costs necessary to convey or treat the existing wastewater flows and loadings or, for drinking
68.3 water projects, to provide safe drinking water to meet existing needs, which must be
68.4 multiplied by the total project cost to determine the eligible project cost for the program
68.5 under this section; and

68.6 (2) review and certify approved projects to the authority.

68.7 (d) Each fiscal year the authority shall make funds available for projects based on their
68.8 ranking on the Pollution Control Agency's project priority list or the commissioner of health's
68.9 project priority list. The authority shall reserve funds for a project when the applicant receives
68.10 a funding commitment from the United States Department of Agriculture Rural Development
68.11 (USDA/RECD) or ~~submits plans and specifications to the project is certified by the Pollution~~
68.12 Control Agency or the commissioner of health. Funds must be reserved in an amount based
68.13 on the project cost estimate submitted to the authority ~~prior to the appropriation of the funds~~
68.14 ~~and awarded based on the lesser of that amount or the as-bid cost~~ when the project is certified
68.15 or the as-bid cost, whichever is less.

68.16 Subd. 5a. **Type and amount of assistance.** (a) For a governmental unit receiving grant
68.17 funding from the USDA/RECD, the authority may provide assistance in the form of a grant
68.18 of up to 65 percent of the eligible grant need determined by USDA/RECD. A governmental
68.19 unit may not receive a grant under this paragraph for more than ~~\$4,000,000~~ \$5,000,000 per
68.20 project or ~~\$15,000~~ \$20,000 per existing connection, whichever is less, unless specifically
68.21 approved by law.

68.22 (b) For a governmental unit receiving a loan from the clean water revolving fund under
68.23 section 446A.07, the authority may provide assistance under this section in the form of a
68.24 grant if the average annual residential wastewater system cost after completion of the project
68.25 would otherwise exceed 1.4 percent of the median household income of the project service
68.26 area. In determining whether the average annual residential wastewater system cost would
68.27 exceed 1.4 percent, the authority must consider the total costs associated with building,
68.28 operating, and maintaining the wastewater system, including existing wastewater debt
68.29 service, debt service on the eligible project cost, and operation and maintenance costs. Debt
68.30 service costs for the proposed project are calculated based on the maximum loan term
68.31 permitted for the clean water revolving fund loan under section 446A.07, subdivision 7.
68.32 The amount of the grant is equal to 80 percent of the amount needed to reduce the average
68.33 annual residential wastewater system cost to 1.4 percent of median household income in
68.34 the project service area, to a maximum of ~~\$4,000,000~~ \$5,000,000 per project or ~~\$15,000~~
68.35 \$20,000 per existing connection, whichever is less, unless specifically approved by law.

69.1 The eligible project cost is determined by multiplying the total project costs minus any other
 69.2 grants by the essential project component percentage calculated under subdivision 3,
 69.3 paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the
 69.4 eligible project cost.

69.5 (c) For a governmental unit receiving a loan from the drinking water revolving fund
 69.6 under section 446A.081, the authority may provide assistance under this section in the form
 69.7 of a grant if the average annual residential drinking water system cost after completion of
 69.8 the project would otherwise exceed 1.2 percent of the median household income of the
 69.9 project service area. In determining whether the average annual residential drinking water
 69.10 system cost would exceed 1.2 percent, the authority must consider the total costs associated
 69.11 with building, operating, and maintaining the drinking water system, including existing
 69.12 drinking water debt service, debt service on the eligible project cost, and operation and
 69.13 maintenance costs. Debt service costs for the proposed project are calculated based on the
 69.14 maximum loan term permitted for the drinking water revolving fund loan under section
 69.15 446A.081, subdivision 8, paragraph (c). The amount of the grant is equal to 80 percent of
 69.16 the amount needed to reduce the average annual residential drinking water system cost to
 69.17 1.2 percent of median household income in the project service area, to a maximum of
 69.18 \$5,000,000 per project or \$20,000 per existing connection, whichever is less, unless
 69.19 specifically approved by law. The eligible project cost is determined by multiplying the
 69.20 total project costs minus any other grants by the essential project component percentage
 69.21 calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the
 69.22 grant exceed 80 percent of the eligible project cost.

69.23 ~~(e)~~ (d) Notwithstanding the limits in paragraphs (a) ~~and~~, (b), and (c), for a governmental
 69.24 unit receiving supplemental assistance under this section after January 1, 2002, if the authority
 69.25 determines that the governmental unit's construction and installation costs are significantly
 69.26 increased due to geological conditions of crystalline bedrock or karst areas and discharge
 69.27 limits that are more stringent than secondary treatment, the maximum award under this
 69.28 section shall not be more than \$25,000 per existing connection.

69.29 ~~Subd. 5b. Special assessment deferral. A governmental unit receiving a loan under~~
 69.30 ~~subdivision 5a that levies special assessments to repay the loan under subdivision 5a or~~
 69.31 ~~section 446A.07 may defer payment of such assessments under the provisions of sections~~
 69.32 ~~435.193 to 435.195.~~

69.33 Subd. 6. **Disbursements.** Disbursements of grants ~~or loans~~ awarded under this section
 69.34 by the authority to recipients must be made for eligible project costs as incurred by the

70.1 recipients, and must be made by the authority in accordance with the project financing
70.2 agreement and applicable state and federal laws and rules governing the payments.

70.3 ~~Subd. 7. **Loan repayments.** Notwithstanding the limitations set forth in section 475.54,~~
70.4 ~~subdivision 1, this subdivision shall govern the maturities and mandatory sinking fund~~
70.5 ~~redemptions of the loans under this section. A governmental unit receiving a loan under~~
70.6 ~~this section shall repay the loan in semiannual payment amounts determined by the authority.~~
70.7 ~~The payment amount must be based on the average payments on the governmental unit's~~
70.8 ~~clean water revolving fund loan or, if greater, the minimum amount required to fully repay~~
70.9 ~~the loan by the maturity date. Payments must begin within one year of the date of the~~
70.10 ~~governmental unit's final payment on the clean water revolving fund loan. The final maturity~~
70.11 ~~date of the loan under this section must be no later than 20 years from the date of the first~~
70.12 ~~payment on the loan under this section and no later than 40 years from the date of the first~~
70.13 ~~payment on the clean water revolving fund loan.~~

70.14 Subd. 8. **Eligibility.** A governmental unit is eligible for assistance under this section
70.15 only after applying for grant funding from other sources and funding has been obtained,
70.16 rejected, or the authority has determined that the potential funding is unlikely.

70.17 Subd. 9. **Funding limitation.** Supplemental assistance may not be used to reduce the
70.18 ~~sewer~~ service charges of a significant ~~wastewater contributor~~ industrial user that has a
70.19 separate service charge agreement with the recipient, or a single user that has caused the
70.20 need for the project or whose current or projected ~~flow and load exceed~~ usage exceeds
70.21 one-half of the current wastewater ~~treatment plant's~~ or drinking water system capacity.

70.22 Subd. 11. **Report on needs.** By February 1 of each even-numbered year, the authority,
70.23 in conjunction with the Pollution Control Agency and the commissioner of health, shall
70.24 prepare a report to the Finance Division of the senate Environment and Natural Resources
70.25 Committee and the house of representatives Environment and Natural Resources Finance
70.26 Committee on wastewater and drinking water funding assistance needs of governmental
70.27 units under this section.

70.28 Subd. 12. **System replacement fund.** Each governmental unit receiving a ~~loan or~~ grant
70.29 under this section shall establish a system replacement fund and shall annually deposit a
70.30 minimum of \$.50 per 1,000 gallons of flow for major rehabilitation ~~or~~ expansion, or
70.31 replacement of the treatment wastewater or drinking water system, ~~or replacement of the~~
70.32 ~~treatment system at the end of its useful life.~~ Money must remain in the account for the life
70.33 of the corresponding project loan from the authority or USDA/RECD, unless use of the
70.34 fund is approved in writing by the authority for major rehabilitation, expansion, or

71.1 replacement of the ~~treatment~~ wastewater or drinking water system. By March 1 each year
 71.2 during the life of the loan, each recipient shall submit a report to the authority regarding the
 71.3 amount deposited and the fund balance for the prior calendar year. A recipient is not required
 71.4 to maintain a fund balance greater than the amount of the grant received. Failure to comply
 71.5 with the requirements of this subdivision shall result in the authority assessing a penalty
 71.6 fee to the recipient equal to one percent of the supplemental assistance amount for each
 71.7 year of noncompliance. ~~Failure to make the required deposit or pay the penalty fee as~~
 71.8 ~~required constitutes a default on the loan.~~

71.9 Subd. 14. **Consistency with land use plans.** A governmental unit applying for a project
 71.10 in an unsewered area shall include in its application to the authority a certification from the
 71.11 county in which the project is located that:

71.12 (1) the project is consistent with the county comprehensive land use plan, if the county
 71.13 has adopted one;

71.14 (2) the project is consistent with the county water plan, if the county has adopted one;
 71.15 and

71.16 (3) the county has adopted specific land use ordinances or controls so as to meet or
 71.17 exceed the requirements of Minnesota Rules, part 7082.0050.

71.18 Sec. 6. Minnesota Statutes 2016, section 446A.073, is amended to read:

71.19 **446A.073 POINT SOURCE IMPLEMENTATION GRANTS.**

71.20 Subdivision 1. **Program established.** When money is appropriated for grants under this
 71.21 program, the authority shall award grants up to a maximum of ~~\$3,000,000~~ \$7,000,000 to
 71.22 governmental units to cover ~~up to one-half~~ 80 percent of the cost of water infrastructure
 71.23 projects made necessary by:

71.24 (1) a wasteload reduction prescribed under a total maximum daily load plan required by
 71.25 section 303(d) of the federal Clean Water Act, United States Code, title 33, section 1313(d);

71.26 (2) a phosphorus concentration or mass limit which requires discharging one milligram
 71.27 per liter or less at permitted design flow which is incorporated into a permit issued by the
 71.28 Pollution Control Agency;

71.29 (3) any other water quality-based effluent limit established under section 115.03,
 71.30 subdivision 1, paragraph (e), clause (8), and incorporated into a permit issued by the Pollution
 71.31 Control Agency that exceeds secondary treatment limits; or

72.1 (4) a total nitrogen concentration or mass limit ~~of that requires discharging~~ ten milligrams
 72.2 per liter or less ~~for a land-based treatment system~~ at permitted design flow.

72.3 Subd. 2. **Grant application.** Application for a grant must be made to the authority on
 72.4 forms prescribed by the authority ~~for the total maximum daily load grant program, with~~
 72.5 ~~additional information as required by the authority~~, including a project schedule and cost
 72.6 estimate for the work necessary to comply with the ~~point source wasteload allocation~~
 72.7 requirements listed in subdivision 1. The Pollution Control Agency shall:

72.8 ~~(1) in accordance with section 116.182, calculate the essential project component~~
 72.9 ~~percentage, which must be multiplied by the total project cost to determine the eligible~~
 72.10 ~~project cost; and~~

72.11 ~~(2)~~ review and certify to the authority those projects that have plans and specifications
 72.12 approved under section 115.03, subdivision 1, paragraph (f).

72.13 Subd. 3. **Project priorities.** ~~When money is appropriated for grants under this program,~~
 72.14 The authority shall accept applications under this program during the month of July and
 72.15 reserve money for projects expected to proceed with construction by the end of the fiscal
 72.16 year in the order listed on the Pollution Control Agency's project priority list and in an
 72.17 amount based on the cost estimate submitted to the authority in the grant application or the
 72.18 as-bid costs, whichever is less. Notwithstanding Minnesota Rules, chapter 7077, the Pollution
 72.19 Control Agency may rank a drinking water infrastructure project on the agency's project
 72.20 priority list if the project is necessary to meet an applicable requirement in subdivision 1.

72.21 Subd. 4. **Grant approval.** The authority must make a grant for an eligible project only
 72.22 after:

72.23 (1) the applicant has submitted the as-bid cost for the water infrastructure project;

72.24 (2) the Pollution Control Agency has approved the as-bid costs and certified the grant
 72.25 eligible portion of the project; and

72.26 (3) the authority has determined that the additional financing necessary to complete the
 72.27 project has been committed from other sources.

72.28 Subd. 5. **Grant disbursement.** Disbursement of a grant must be made for eligible project
 72.29 costs as incurred by the governmental unit and in accordance with a project financing
 72.30 agreement and applicable state and federal laws and rules governing the payments.

73.1 Sec. 7. Minnesota Statutes 2016, section 446A.081, subdivision 9, is amended to read:

73.2 Subd. 9. **Other uses of fund.** (a) The drinking water revolving loan fund may be used
73.3 as provided in the act, including the following uses:

73.4 (1) to buy or refinance the debt obligations, at or below market rates, of public water
73.5 systems for drinking water systems, where the debt was incurred after the date of enactment
73.6 of the act, for the purposes of construction of the necessary improvements to comply with
73.7 the national primary drinking water regulations under the federal Safe Drinking Water Act;

73.8 (2) to purchase or guarantee insurance for local obligations to improve credit market
73.9 access or reduce interest rates;

73.10 (3) to provide a source of revenue or security for the payment of principal and interest
73.11 on revenue or general obligation bonds issued by the authority if the bond proceeds are
73.12 deposited in the fund;

73.13 (4) to provide loans or loan guarantees for similar revolving funds established by a
73.14 governmental unit or state agency;

73.15 (5) to earn interest on fund accounts;

73.16 (6) to pay the reasonable costs incurred by the authority, the Department of Employment
73.17 and Economic Development, and the Department of Health for conducting activities as
73.18 authorized and required under the act up to the limits authorized under the act;

73.19 (7) to develop and administer programs for water system supervision, source water
73.20 protection, and related programs required under the act;

73.21 (8) notwithstanding Minnesota Rules, part 7380.0280, to provide principal forgiveness
73.22 or grants to the extent permitted under the federal Safe Drinking Water Act and other federal
73.23 law, based on the criteria and requirements established for drinking water projects under
73.24 the water infrastructure funding program under section 446A.072;

73.25 (9) to provide loans, principal forgiveness or grants to the extent permitted under the
73.26 federal Safe Drinking Water Act and other federal law to address green infrastructure, water
73.27 or energy efficiency improvements, or other environmentally innovative activities; and

73.28 (10) to provide principal forgiveness, or grants for 50 percent of the project cost up to
73.29 a maximum of \$10,000 for projects needed to comply with national primary drinking water
73.30 standards for an existing community or noncommunity public water system.

73.31 ~~(b) Principal forgiveness or grants under paragraph (a), clause (8), must only be provided~~
73.32 ~~if the average annual residential drinking water system cost after completion of the project~~

74.1 ~~would otherwise exceed 1.2 percent of the median household income in the project service~~
 74.2 ~~area. In determining whether the average annual residential drinking water system cost~~
 74.3 ~~would exceed 1.2 percent, the authority must consider the total costs associated with building,~~
 74.4 ~~operating, and maintaining the drinking water system, including debt service and operation~~
 74.5 ~~and maintenance costs. Debt service costs for the proposed project must be calculated based~~
 74.6 ~~on the maximum loan term permitted for the drinking water revolving fund loan under this~~
 74.7 ~~section. The amount of the principal forgiveness or grant must be equal to 80 percent of the~~
 74.8 ~~amount needed to reduce the average annual residential drinking water system cost to 1.2~~
 74.9 ~~percent of median household income in the project service area, to a maximum of \$4,000,000~~
 74.10 ~~or \$15,000 per connection, whichever is less, and not to exceed 80 percent of the total project~~
 74.11 ~~cost.~~

74.12 ~~(e)~~ (b) Principal forgiveness or grants provided under paragraph (a), clause (9), may not
 74.13 exceed 25 percent of the eligible project costs as determined by the Department of Health
 74.14 for project components directly related to green infrastructure, water or energy efficiency
 74.15 improvements, or other environmentally innovative activities, up to a maximum of
 74.16 \$1,000,000.

74.17 ~~(d) The authority may reduce the percentage of median household income at which a~~
 74.18 ~~loan term could extend to 30 years under subdivision 8, paragraph (e), and at which principal~~
 74.19 ~~forgiveness or grants could be provided under paragraph (b) if it determines that the federal~~
 74.20 ~~money allotted to the state cannot be fully utilized without the reduction. If it determines~~
 74.21 ~~that the reduction is necessary to fully utilize the federal money, the authority must effect~~
 74.22 ~~the change through its approval of the annual intended use plan.~~

74.23 Sec. 8. Minnesota Statutes 2016, section 446A.12, subdivision 1, is amended to read:

74.24 Subdivision 1. **Bonding authority.** The authority may issue negotiable bonds in a
 74.25 principal amount that the authority determines necessary to provide sufficient funds for
 74.26 achieving its purposes, including the making of loans and purchase of securities, the payment
 74.27 of interest on bonds of the authority, the establishment of reserves to secure its bonds, the
 74.28 payment of fees to a third party providing credit enhancement, and the payment of all other
 74.29 expenditures of the authority incident to and necessary or convenient to carry out its corporate
 74.30 purposes and powers, but not including the making of grants. Bonds of the authority may
 74.31 be issued as bonds or notes or in any other form authorized by law. The principal amount
 74.32 of bonds issued and outstanding under this section at any time may not exceed
 74.33 ~~\$1,500,000,000~~ \$2,000,000,000, excluding bonds for which refunding bonds or crossover
 74.34 refunding bonds have been issued, and excluding any bonds issued for the credit enhanced

75.1 bond program or refunding or crossover refunding bonds issued under the program. The
75.2 principal amount of bonds issued and outstanding under section 446A.087, may not exceed
75.3 \$500,000,000, excluding bonds for which refunding bonds or crossover refunding bonds
75.4 have been issued.

75.5 Sec. 9. Minnesota Statutes 2016, section 462A.37, is amended by adding a subdivision to
