1.9

Section 1. Minnesota Statutes 2010, section 245A.11, subdivision 8, is amended to read:

1.10

Subd. 8. **Community residential setting license.** (a) The commissioner shall

1.11

establish provider standards for residential support services that integrate service standards

1.12

and the residential setting under one license. The commissioner shall propose statutory

1.13

language and an implementation plan for licensing requirements for residential support

1.14

services to the legislature by January 15, 2011.

1.15

(b) Providers licensed under chapter 245B, and providing, contracting, or arranging

1.16

for services in settings licensed as adult foster care under Minnesota Rules, parts

1.17

9555.5105 to 9555.6265, or child foster care under Minnesota Rules, parts 2960.3000 to

1.18

2960.3340; and meeting the provisions of section 256B.092, subdivision 11, paragraph

1.19

(b), must be required to obtain a community residential setting license.

1.20

(c) Individuals receiving services under the community residential setting license

1.21

shall have a team to support them in making decisions regarding services. These teams

1.22

shall be called "support teams" and be composed of the person; the case manager or

1.23

services coordinator; the person's legal representative; the person's advocate, if any; other

1.24

people chosen by the person receiving services; and the representatives of providers of

service areas relevant to the needs of the person as described in the coordinated service and support plan.

(d) The support team shall have access to information or data included in the assessment conducted under section 256B.0911, subdivision 10, that is needed to complete treatment and risk assessment plans.

(e) Support teams shall have the final decision regarding plans to mitigate vulnerabilities identified for an individual. Based on an assessment, the individual and support team can choose not to create a plan for identified vulnerabilities that do not rise to the level of self neglect, maltreatment, or violations of the law, if the team accepts the vulnerability as part of a person's quality of life. Any licensing review or other oversight shall review that the team has gone through the process of an assessment and has come to an agreement on whether a plan will be developed for any individual vulnerability. The licensing review shall not include authority to challenge the decision of the team.

(f) Support teams shall be included in any formal or informal evaluation of the quality of services provided to an individual.

(g) Region 10 staff shall be consulted regarding establishing a system for evaluating the quality of services provided under the community residential setting license.

Sec. 2. Minnesota Statutes 2010, section 256B.0911, is amended by adding a subdivision to read:

Subd. 10. **Disability waived services assessment requirements.** The commissioner of human services shall establish an assessment methodology to determine reimbursement classifications based upon each individual's assessed needs for services reimbursed under section 256B.4913.

(a) For purposes of this subdivision, the following terms have the meanings given them:

(1) "high medical needs" means complex health-related needs that require on-site medical attention and are specified in the coordinated service and support plan;

(2) "high behavioral needs" means a history of observable behavior that deviates from social norms as defined and counted in the assessment that require comprehensive training in behavior management, behavior programming, de-escalation techniques, or medication management training for behavior medications. Examples of participant needs include, but are not limited to, a participant at risk of or with a history of:

(i) elopement, defined as when a patient or resident who is cognitively, physically, mentally, emotionally, or chemically impaired wanders away, walks away, runs away,

escapes, or otherwise leaves a caregiving facility or environment unsupervised, unnoticed, or prior to their scheduled discharge; or

(ii) serious harm to self or others;

(3) "high mental health needs" means a history of a mental disorder, diagnosed by a physician and confirmed in the assessment, that requires constant staff oversight without which the consequences of the participant's behaviors are severe. The management of these needs requires comprehensive training in mental health issues, dual diagnosis, and medication management training. This means a current diagnosis of severe and persistent mental illness or severe emotional disturbance that manifests itself through one of the following:

(i) serious harm to self or others; or

(ii) other extreme behaviors that interfere with major life activities; and

(4) "deaf or hard-of-hearing" means a loss of hearing diagnosed by a physician and confirmed in the assessment that requires staff proficient in one or more of the following to communicate:

(i) American sign language;

(ii) tactile interpretation; or

(iii) other sign language.

(b) The commissioner shall ensure that:

(1) the assessment includes a full and accurate accounting of each individual's need for supports;

(2) the results of the methodology for each individual are statistically valid and reliable, and for each individual's result, there is a statistically significant level of interrater reliability; and

(3) the assessment determines if an individual fits the definitions of high medical needs, high behavioral needs, high mental health needs, or deaf or hard-of-hearing.

(c) The assessment methodology must be completed prior to the implementation of any changes to rates determined under section 246B.4913.

(d) Any individual may appeal the results of the individual's assessment as outlined in section 256.045.

(e) The commissioner shall adopt rules under section 14.05 to implement this methodology.

Sec. 3. Minnesota Statutes 2010, section 256B.0916, subdivision 2, is amended to read:

Subd. 2. **Distribution of funds; partnerships.** (a) Beginning with fiscal year 2000, the commissioner shall distribute all funding available for home and community-based

waiver services for persons with developmental disabilities to individual counties or to groups of counties that form partnerships to jointly plan, administer, and authorize funding for eligible individuals. The commissioner shall encourage counties to form partnerships that have a sufficient number of recipients and funding to adequately manage the risk and maximize use of available resources.

(b) Counties must submit a request for funds and a plan for administering the program as required by the commissioner. The plan must identify the number of clients to be served, their ages, and their priority listing based on:

(1) requirements in Minnesota Rules, part 9525.1880; and

(2) statewide priorities identified in section 256B.092, subdivision 12.

The plan must also identify changes made to improve services to eligible persons and to improve program management.

(c) In allocating resources to counties, priority must be given to groups of counties that form partnerships to jointly plan, administer, and authorize funding for eligible individuals and to counties determined by the commissioner to have sufficient waiver capacity to maximize resource use.

(d) Within 30 days after receiving the county request for funds and plans, the commissioner shall provide a written response to the plan that includes the level of resources available to serve additional persons.

(e) Counties are eligible to receive medical assistance administrative reimbursement for administrative costs under criteria established by the commissioner.

(f) Upon implementation of rate methodologies developed under section 256B.4913, the commissioner shall adjust allocations to local agencies for home and community-based waived service allocations to reflect the total amount of spending for all recipients with disabilities in their respective counties in need of the level of care provided in an intermediate care facility for individuals with developmental disabilities, a nursing facility, or a hospital as determined by the methodology in section 256B.4913.

Sec. 4. Minnesota Statutes 2010, section 256B.092, subdivision 4, is amended to read:

**Subd. 4. Home and community-based services for developmental disabilities.**

(a) The commissioner shall make payments to approved vendors participating in the medical assistance program to pay costs of providing home and community-based services, including case management service activities provided as an approved home and community-based service, to medical assistance eligible persons with developmental disabilities who have been screened under subdivision 7 and according to federal requirements. Federal requirements include those services and limitations included in the

federally approved application for home and community-based services for persons with developmental disabilities and subsequent amendments.

(b) Effective July 1, 1995, contingent upon federal approval and state appropriations made available for this purpose, and in conjunction with Laws 1995, chapter 207, article 8, section 40, the commissioner of human services shall allocate resources to county agencies for home and community-based waived services for persons with developmental disabilities authorized but not receiving those services as of June 30, 1995, based upon the average resource need of persons with similar functional characteristics. To ensure service continuity for service recipients receiving home and community-based waived services for persons with developmental disabilities prior to July 1, 1995, the commissioner shall make available to the county of financial responsibility home and community-based waived services resources based upon fiscal year 1995 authorized levels.

(c) Home and community-based resources for all recipients shall be managed by ~~the county of financial responsibility within an allowable reimbursement average established for each county.~~ Payments for home and community-based services provided to individual recipients shall not exceed amounts authorized by the county of financial responsibility. For specifically identified former residents of nursing facilities, the commissioner shall be responsible for authorizing payments and payment limits under the appropriate home and community-based service program. Payment is available under this subdivision only for persons who, if not provided these services, would require the level of care provided in an intermediate care facility for persons with developmental disabilities.

(d) Resources and payment rates for all recipients of home and community-based services shall remain as negotiated by each county of fiscal responsibility as of January 1, 2012.

(e) Resources and payment rates for recipients of home and community-based services enrolled prior to January 1, 2012, may be adjusted for changes in needs using processes by county agencies established as of January 1, 2012.

(f) Any new recipients of home and community-based services after January 1, 2012, shall have resources managed by the county using the process in place in each county as of January 1, 2012.

(g) Counties may not implement changes to resources for individuals under section 256B.4913, until the implementation of a statistically valid and reliable process for assessing each individual's needs under section 256B.0911, subdivision 10.

Sec. 5. Minnesota Statutes 2010, section 256B.49, subdivision 17, is amended to read:

Subd. 17. **Cost of services and supports.** (a) The commissioner shall ensure that the average per capita expenditures estimated in any fiscal year for home and community-based waiver recipients does not exceed the average per capita expenditures that would have been made to provide institutional services for recipients in the absence of the waiver.

~~(b) The commissioner shall implement on January 1, 2002, one or more aggregate, need-based methods for allocating to local agencies the home and community-based waived service resources available to support recipients with disabilities in need of the level of care provided in a nursing facility or a hospital. Upon implementation of rate methodologies developed under section 256B.4913, the commissioner shall adjust allocations to local agencies for home and community-based waived service allocations to reflect the total amount of spending for all recipients with disabilities in their respective counties in need of the level of care provided in an intermediate care facility for individuals with developmental disabilities, a nursing facility, or a hospital as determined by the methodology in section 256B.4913:~~

(1) the commissioner shall set each county's allocation to include resources for the total amount of spending for each respective county based on the total number of individuals estimated to be served multiplied by each individual's service rate determined under section 256B.4913; and

(2) if an individual relocates from one county to another within a calendar year, the commissioner shall adjust county allocations to reflect where the individual is receiving services.

(c) Until the allocation method described in paragraph (b) is implemented, the commissioner shall allocate resources to single counties and county partnerships in a manner that reflects consideration of:

- (1) an incentive-based payment process for achieving outcomes;
- (2) the need for a state-level risk pool;
- (3) the need for retention of management responsibility at the state agency level; and
- (4) a phase-in strategy as appropriate.

~~(e) Until the allocation methods described in paragraph (b) are implemented, the annual allowable reimbursement level of home and community-based waiver services shall be the greater of:~~

~~(1) the statewide average payment amount which the recipient is assigned under the waiver reimbursement system in place on June 30, 2001, modified by the percentage of any provider rate increase appropriated for home and community-based services; or~~

~~(2) an amount approved by the commissioner based on the recipient's extraordinary needs that cannot be met within the current allowable reimbursement level. The increased reimbursement level must be necessary to allow the recipient to be discharged from an institution or to prevent imminent placement in an institution. The additional reimbursement may be used to secure environmental modifications; assistive technology and equipment; and increased costs for supervision, training, and support services necessary to address the recipient's extraordinary needs. The commissioner may approve an increased reimbursement level for up to one year of the recipient's relocation from an institution or up to six months of a determination that a current waiver recipient is at imminent risk of being placed in an institution.~~

(d) Beginning July 1, 2001, medically necessary private duty nursing services will be authorized under this section as complex and regular care according to sections 256B.0651 to 256B.0656 and 256B.0659. The rate established by the commissioner for registered nurse or licensed practical nurse services under any home and community-based waiver as of January 1, 2001, shall not be reduced.

(e) Notwithstanding section 252.28, subdivision 3, paragraph (d), if the 2009 legislature adopts a rate reduction that impacts payment to providers of adult foster care services, the commissioner may issue adult foster care licenses that permit a capacity of five adults. The application for a five-bed license must meet the requirements of section 245A.11, subdivision 2a. Prior to admission of the fifth recipient of adult foster care services, the county must negotiate a revised per diem rate for room and board and waiver services that reflects the legislated rate reduction and results in an overall average per diem reduction for all foster care recipients in that home. The revised per diem must allow the provider to maintain, as much as possible, the level of services or enhanced services provided in the residence, while mitigating the losses of the legislated rate reduction.

Sec. 6. Minnesota Statutes 2010, section 256B.4912, is amended to read:

**256B.4912 HOME AND COMMUNITY-BASED WAIVERS; PROVIDERS AND PAYMENT.**

Subdivision 1. **Provider qualifications.** (a) For the home and community-based waivers providing services to seniors and individuals with disabilities, the commissioner shall establish:

(1) agreements with enrolled waiver service providers to ensure providers meet ~~qualifications defined in the waiver plans~~ Minnesota health care program requirements;

(2) regular reviews of provider qualifications, including requests of proof of documentation; and

(3) processes to gather the necessary information to determine provider qualifications.

~~By July 2010~~ (b) Beginning July 2011, staff that provide direct contact, as defined in section 245C.02, subdivision 11, that are employees of waiver service providers for services specified in the federally approved waiver plans must meet the requirements of chapter 245C prior to providing waiver services and as part of ongoing enrollment. Upon federal approval, this requirement must also apply to consumer-directed community supports.

(c) Upon enactment of section 256B.4913, providers of waiver services must reenroll with the state. County and tribal agency contracts existing prior to January 1, 2013, are not effective beginning January 1, 2013.

Subd. 2. **Rate-setting methodologies.** (a) The commissioner shall establish statewide prospective rate-setting methodologies that meet federal waiver requirements for home and community-based waiver services for individuals with disabilities. The rate-setting methodologies must abide by the principles of transparency and equitability across the state. The methodologies must involve a uniform process of structuring rates for each service and must promote quality and participant choice.

(b) No changes in existing provider rates are effective until the development and implementation of an assessment methodology for individuals assessed under section 256B.0911, subdivision 10, that provides a statistically reliable and valid means for assessing each individual's support needs.

Subd. 3. **Payment rate criteria.** (a) The payment structures and methodologies under this section shall reflect the payment rate criteria in paragraphs (b) and (c).

(b) Payment rates shall be determined according to reasonable, ordinary, and necessary costs that accurately reflect the actual cost of service delivery.

(c) Payment rates shall be sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that care and services are available to the general population in the geographic area as required by section 1902(a)(30)(A) of the Social Security Act.

(d) The commissioner must not reimburse:

(1) unauthorized service delivery;

(2) services provided under a receipt of a special grant;

(3) services provided under contract to a local school district;

(4) extended employment services under Minnesota Rules, parts 3300.2005 to 3300.3100; or vocational rehabilitation services provided under the federal Rehabilitation

Act, United States Code, title I, section 110, as amended; or United States Code, title VI, part C, and not through use of medical assistance or county social service funds; or

(5) services provided to a client by a licensed medical, therapeutic, or rehabilitation practitioner, or any other vendor of medical care that are billed separately on a fee-for-service basis.

(e) Payment rates are set prospectively and may not be enforced retroactively.

**RATE-SETTING METHODOLOGIES.**

12.1           (e) The commissioner shall determine the staffing component of each individual's

12.17 each individual's support team;

12.18           (B) for individuals that qualify for a customization under subdivision 6, add the  
12.19 customization rate provided in subdivision 6 to the base wage amount determined in

12.22           (D) multiply the result of the previous calculation by one plus 9.4 percent;

12.23           (ii) for supervision technology cost:

12.28 customization rate provided in subdivision 6 to the base wage amount determined in  
12.29 the supervision technology cost;

12.30           (C) multiply the number of supervision technology hours by the staff wage; and

12.31           (D) add the amounts under subitems (B) and (C) to obtain the direct staffing cost;

12.35 taxes and workers' compensation;

13.1           (ii) the commissioner shall include an adjustment of 16.2 percent for the cost of  
13.2 other benefits, including health insurance, dental insurance, life insurance, short-term

13.14 shall be determined by each individual's support team under section 245A.11, subdivision  
13.15 8; and

13.16           (iii) the total under items (i) and (ii) is the total for transportation;

13.17           (4) for client programming and supports:

13.18           (i) the commissioner shall add \$2,179 for the cost of client programming and  
13.19 supports; and

13.20           (ii) for individuals that had previously received an adjustment to rates under section  
13.21 256B.501, subdivision 4, the commissioner shall add an amount to reflect the costs of  
13.22 providing services allowable under title XIX of the Social Security Act to obtain the  
13.23 total for client programming and supports;

13.24           (5) for support costs:

13.25           (i) the commissioner shall include an adjustment of 16.5 percent for standard and  
13.26 general administrative support;

13.29           (iii) the total of the adjustments under items (i) and (ii) is the total percentage for  
13.30 support costs; and

13.31           (6) for administrative overhead:

13.32           (i) the commissioner shall include an adjustment of 6.58 percent for costs associated
