The data must include the name, date of birth, court identification number and, if available, the driver's license or state identification card number and, if an individual has completed the sentence, the date of discharge.

The secretary of state must determine if that data newly indicates that:

- (2) an individual with an active voter registration in the statewide voter registration system who is currently serving a felony sentence appears to have registered to vote or to have voted during a period when the individual's civil rights were revoked; and

The secretary of state shall prepare a list of the registrants included under clause (1), (2), or (3) for each county auditor. clause (2) for the county attorney's investigation. For individuals under clause (3), the
county auditor must determine if the challenge status should be removed from the voter
record for the individual and, if so, must remove the challenge.

The secretary of state must make the required determinations and provide the required lists to the county auditors at least monthly.

For each state general election that occurs prior to the statewide voter registration system being programmed to generate lists as required by this section, the secretary of state must make the determination and provide lists to the county auditors between 30 and 60 days before the election and again between six and ten weeks after the election. In the year following that state election, the secretary of state must make this determination and provide lists to the county auditors again as part of the annual list maintenance.
