Section 1. LEGISLATIVE FINDINGS.

1.12

The legislature finds that:

1.13

(1) seven out of ten MFIP recipients are children;

1.14

(2) children receiving MFIP assistance are living in poverty;

1.15

(3) current MFIP policies are pushing children and their families deeper into poverty;

1.16

(4) almost half of Minnesota children receiving MFIP assistance are under the

1.17

age of six;

1.18

(5) 90 percent of brain development occurs during the first five years of a child's life;

1.19

(6) research demonstrates that experiences affect the way a child's brain develops,

1.20

and that adverse childhood experiences can produce toxic levels of stress and disrupt the

architecture of a child's developing brain; and

1.22

(7) 85 percent of teenage mothers currently receiving MFIP assistance received

MFIP assistance as children.
