(1) ¹Or the total hourly cost to the jurisdiction, whichever is the greatest. This cost includes supervision, overhead, equipment, hourly wages, and fringe benefits of the employees involved.

(2) ²A reinspection fee may be assessed for each inspection or rem-

spection when a portion of work for which inspection is called is not complete or when corrections called for are not made.

This item is not to be interpreted as requiring reinspection fees the first time a job is rejected for failure to comply with the requirements of this code, but as controlling the practice of calling for inspections before the job is ready for inspection or reinspection.

Reinspection fees may be assessed when the permit card is not properly posted on the work site, the approved plans are not readily available to the inspector, for failure to provide access on the date for which inspection is requested, or for deviating from plans requiring the approval of the building official.

To obtain a reinspection, the applicant shall file an application in writing upon a form furnished for that purpose and pay the reinspection fee in accordance with Table No. 3-A or as set forth in the fee schedule adopted by the jurisdiction.

In instances where reinspection fees have been assessed, no additional inspection of the work will be performed until the required fees have been paid.

Subp. 2. Plan review fee. The plan review fee is based on 65 percent of the permit fee determined from the fee schedule. The plan review fee is a separate fee and is in addition to the permit fee. If plans are incomplete or changed so as to require additional plan review, an additional plan review fee must be charged according to the fee schedule.

Subp. 3. Surcharges. Surcharge fees are required for public buildings as required by Minnesota Statutes, section 16B.70 when administration is by a municipality other than the state.
