Subp. 4. **Permit conditions.**

A. When necessary to protect fish and fish habitat, restrict activities during high-use periods, restrict activities that affect research or management work, restrict the number of boats, ensure the safety of contest participants, or decontaminate boats participating in fishing contests on infested waters, one or more of the following conditions or restrictions shall be specified in the permit:

(6) whether contest activities during high-use periods are anticipated to cause unacceptable safety risks;

(7) whether contest activities during high-use periods are anticipated to cause user conflicts;

(8) whether the water body is infested and what invasive species are present;

(10) whether the applicants are coming from an area known to be infested with invasive species.

Subp. 5. **Restrictions on off-site weigh-ins.** The commissioner shall not issue fishing contest permits to conduct an off-site weigh-in if the contest organizer cannot prevent the transport of invasive species or pathogens from activities associated with the contest. To prevent the transport of invasive species or pathogens associated with conducting the contest, the permit shall require, at a minimum, draining and refilling water holding equipment with groundwater or treated water, as specified by the commissioner:

A. at the access site before leaving to go to another water body;

B. at the access site before going to the weigh-in location; and

C. at the weigh-in location.
