Subpart 1. **Characters.** The characters displayed upon a plate may be only:

- A. the following uppercase letters: A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, and Z;
- B. the following numbers: 0, 1, 2, 3, 4, 5, 6, 7, 8, and 9; and
- C. the naval zero.

Subp. 2. **Statutory specifications.** The plates must be manufactured with the paint color, character size, character type style, reflective material, and other specifications used by the division for vehicles registered under Minnesota Statutes, section 168.017, for the appropriate plate year.

Subp. 3. [Repealed, 17 SR 1892]

Subp. 4. **Characters limited.** Plates must have all of the following character limitations:

- A. Plates must have at least one full-size letter or number.
- B. Stacked characters must count as one full-size character. Stacked characters are two letters or numbers that occupy one space in which one letter or number is placed directly above the second letter or number.
- C. No characters other than those specified in subpart 1, items A and B, will be permitted on a personalized plate. Stacked characters are not permitted on a personalized plate. The naval zero will be restricted for use on amateur radio operator (ARO) special license plates exclusively.

Subp. 5. **Duplication.** No plate may be a duplicate of any current plate or a duplicate of any plate in a numbering system used by the division. The number one (1) and the letter I, or the naval zero, the number zero (0), and the letter O are deemed to be the same character and may not be duplicated to create new combinations. For example, TIM and T1M would be considered duplicates.

Subp. 6. **Division plate combinations.** No plate used or reserved by the division for a specific type of vehicle may be recalled from storage and destroyed in order that the combination may be issued again as a plate for another type of vehicle.

Subp. 7. **Spacing and hyphenation.** An applicant may elect to group characters by spacing or hyphenation on a personalized plate. Hyphens must not be used consecutively. A space or hyphen is not a character. However, hyphens and spaces must count toward the total number of characters allowed on a plate. Combinations of characters, spaces, or hyphens totaling more than seven will be rejected. Motorcycle plates are limited to six characters. If the total of characters, spaces, or hyphens is less than these limits, the division shall have the right to center the characters, spaces, or hyphens on the plate.

Subp. 8. **Unique symbols and weight designation stickers.** Unique symbols, determined by the department, and weight designation stickers may be required on a plate. A unique symbol or weight designation sticker is not a character. Unique symbols or weight designation stickers, when required, must count toward the total number of characters.

Subp. 9. **Multiple owners; special plates.** If the original application for a special plate is for a vehicle owned or leased by more than one person, at least one owner or lessee must sign the application.

If the applicant's first choice

7403.0900 SPECIAL PLATES ASSIGNMENT, RETENTION, TRANSFER.

Subpart 1. **In general.** Special plates, as specified in Minnesota Statutes, chapter 168, are assigned by the division to an owner for the exclusive use on the vehicle described in the application.

Subp. 2. **Transfer.** Special plates may be transferred to another vehicle owned by the applicant upon:

- A. written notification, on a form prescribed by the registrar, to the registrar;
- B. payment of the prescribed transfer fee as provided by Minnesota Statutes, chapter 168; and
- C. registration of the vehicle in Minnesota.

Subp. 3. **Election to transfer plates.** If an owner sells a vehicle to which special plates have been issued, the owner may elect to transfer the special plates with the vehicle to an eligible buyer or vehicle. Eligibility is determined by the particular provision in Minnesota Statutes, chapter 168, governing the issuance of the particular special plate. The buyer of the special plates shall submit the necessary information, on a form prescribed by the registrar, to verify eligibility for the special plates.

Upon transferring the special plates to an eligible buyer, the owner automatically assigns to the buyer the right to reserve that combination of characters and the right to any refund of the personalized plate fees.

Special plates are considered assigned to the buyer of the vehicle unless the owner elects to retain the plates according to the procedures in subpart 4.

Subp. 4. **Election to retain plates.** If an owner sells a vehicle to which special plates have been issued and elects to retain the special plates, it is the responsibility of the owner or the owner's agent to apply for regular plates before the vehicle is sold. However, the owner is not required to obtain regular plates before the vehicle is sold if the owner notifies the department, in writing:

- A. of the disposition of the special plates;
 - B. whether the owner will retain the rights to the plate combination; and
 - C. if the vehicle will be sold to:
 - (1) a junk yard, scrap yard, insurance company, or salvage pool because the vehicle was severely damaged or because the vehicle will be dismantled or destroyed;
 - (2) an out-of-state buyer and plates will be secured in the buyer's home state;
- or
- (3) a buyer who holds special plates for the buyer's own use.

At any time during this year, the owner may

waive the right to the combination. The division may accept an application at any time, but will not reissue a combination until the full 12-month registration period has lapsed.
