| 7514.1100 | EMERGENCY PREPLANNING.                           |           |   |

#### 7514.0100 DEFINITIONS.

Subpart 1. **Scope.** The terms used in this chapter have the meanings given them in this part.

Subp. 2. **Activated by the state.** "Activated by the state" means dispatched via the Minnesota duty officer system for purposes of emergency response or authorized in writing by the commissioner in advance of training exercises.

Subp. 3. **Chemical assessment team.** "Chemical assessment team" has the meaning given it in Minnesota Statutes, section 299A.49, subdivision 2.

Subp. 4. **Commissioner.** "Commissioner" means the Commissioner of the Minnesota Department of Public Safety acting directly or through an authorized agent.

Subp. 5. **Deployment time.** "Deployment time" means the period of time beginning when the decision is made to dispatch a team and ending at the time the complete team begins its response to the scene of the incident.

Subp. 6. **Emergency response team.** "Emergency response team" means a regional hazardous materials response team, as defined in Minnesota Statutes, section 299A.49, subdivision 7.

Subp. 7. **Employer.** "Employer" has the meaning given it in Minnesota Statutes, section 182.651, subdivision 7.

Subp. 8. **Facility.** "Facility" has the meaning given it in Minnesota Statutes, section 115E.01.

Subp. 9. **Local authority.** "Local authority" means the local unit of government's public safety agency in overall command at the scene of a hazardous materials incident.

Subp. 10. **Minnesota duty officer system.** "Minnesota duty officer system" means the single answering point system established under Minnesota Statutes, section 115E.09.

Subp. 11. **Minnesota emergency operations plan.** "Minnesota emergency operations plan" means the document that guides state agencies in their response to emergencies and disasters, in accordance with their general responsibilities as assigned in Governor's Executive Order 93-27, and any subsequent revisions to that order.

Subp. 12. **Minnesota incident management system.** "Minnesota incident management system" means a combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure with responsibility for management of assigned resources to effectively accomplish stated objectives at the scene of an incident.

Subp. 13. **Mitigation.** "Mitigation" means those actions necessary to alleviate the immediate threat from a hazardous materials release.

Subp. 14. **Operations authorized by the state.** "Operations authorized by the state" means activities listed in this chapter and the "Minnesota Hazardous Materials Incident

Response Act,” Minnesota Statutes, sections 299A.48 to 299A.52, and suggested operating guidelines, including authorized training exercises when a team is operating outside its geographic jurisdiction.

Subp. 15. **Primary response area.** “Primary response area” means the geographic portion of the state to which a team has been assigned to provide the principal response to an incident.

Subp. 16. **Regional response team program.** “Regional response team program” means the system of regionally located hazardous materials emergency response teams and hazardous materials chemical assessment teams.

Subp. 17. **Regional team.** “Regional team” means an emergency response team or chemical assessment team that is part of the regional response team program as defined in subpart 16.

Subp. 18. **Response area.** “Response area” means primary or secondary response area as defined in subpart 15 or 21.

Subp. 19. **Response time.** “Response time” means the period of time beginning when the decision is made to dispatch a team and ending when the complete team arrives at the scene of the incident.

Subp. 20. **Responsible person.** “Responsible person” has the meaning given it in Minnesota Statutes, section 299A.52, subdivision 1.

Subp. 21. **Secondary response area.** “Secondary response area” means the geographic portion of the state to which a team has been assigned to provide the alternate response to an incident.

Subp. 22. **Suggested operating guidelines.** “Suggested operating guidelines” means the written guidance covering those aspects of an emergency response that lend themselves to a general direction, yet require flexibility in their application so as to meet the unique circumstances of each individual emergency.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

#### 7514.0200 PURPOSE.

The purpose of parts 7514.0100 to 7514.2000 is to implement a statewide plan and system for responding to hazardous materials incidents.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

#### 7514.0300 SCOPE.

Parts 7514.0100 to 7514.2000 are intended to provide direction to state and local government and business and industry regarding the implementation of a statewide system of regional hazardous materials emergency response teams and hazardous materials chemical assessment teams. Provisions of this chapter include, but are not limited to, factors to be considered in establishing the response area locations of hazardous materials emergency response teams and hazardous materials chemical assessment teams; requirements for designating teams in each established response area; number and qualifications of team members; procedures for establishing equipment requirements for each team; procedures for selecting and contracting for establishing teams; procedures for dispatching teams at the request of local governments; categories of costs to be used to establish fee schedules for reimbursing teams for costs arising from hazardous materials emergencies and for state recovery of response costs from the person responsible for causing a hazardous materials emergency; and methods of coordinating team response with other state departments and agencies, local units of government, other states, Indian tribes, the federal government, and other nonpublic persons.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

**7514.0400 AUTHORITY.**

This chapter is adopted pursuant to Minnesota Statutes, section 299A.50, subdivision 1.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

**7514.0500 TEAM RESPONSE AREAS.**

Subpart 1. **Establishing response areas.** The commissioner shall establish up to five response areas for hazardous materials emergency response based on the factors identified in subpart 2.

Subp. 2. **Factors for establishing response areas.** The commissioner shall consider the following factors in establishing response areas:

A. the number and geographic location of fixed facilities that manufacture, use, or store hazardous materials, the accidental release of which may pose a threat to public safety or the environment;

B. the number of miles of primary transportation routes including highways, rail lines, commercially navigable waterways, pipelines, and airports;

C. the population of each county as reported by the most recently available United States Census Bureau information;

D. any special conditions that may be present in a given area of the state, and the need for specialized equipment unique to those conditions that might impact emergency response capability; and

E. other factors the commissioner considers appropriate, to the extent they may contribute to the potential for a hazardous materials release that could threaten the public safety or the environment and thus merit an emergency response.

Subp. 3. **Maximum acceptable response time.** After considering the factors listed in subpart 2, items A to E, the commissioner shall establish a maximum acceptable response time for 90 percent of each primary response area when a team is responding in the primary response area under favorable weather conditions.

Subp. 4. **Assigning primary response areas.** Following completion of the team selection process identified in part 7514.1500, the commissioner shall select a primary emergency response team for each primary response area.

Subp. 5. **Serving as chemical assessment team.** Each emergency response team shall also serve as a chemical assessment team for all or a portion of its primary response area, as assigned by the commissioner.

Subp. 6. **Designating additional chemical assessment teams.** The commissioner may select additional chemical assessment teams for a response area, as necessary to provide appropriate emergency response capability, in keeping with maximum acceptable response time considerations.

Subp. 7. **Assigning secondary response areas.** The commissioner shall assign a secondary response area to each emergency response team and each chemical assessment team. A team may have more than one secondary response area.

Subp. 8. **Reviewing response area designations.** At least once every two years from August 29, 1994, the commissioner shall review response area boundaries and primary and secondary response area designations. Following the review, the commissioner shall adjust response area boundaries and primary and secondary response area designations as necessary to ensure that the most appropriate response is provided statewide.

Subp. 9. **Statewide response.** An emergency response team or chemical assessment team shall respond to any response area in the state when directed to do so by the commissioner.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

**7514.0600 QUALIFICATIONS OF TEAM MEMBERS.**

Subpart 1. **Qualifications of all members.** Each emergency response team member and chemical assessment team member must be in compliance with the requirements of Code of Federal Regulations, title 29, section 1910.120, and in substantial compliance with NFPA 472, "Standard for Professional Competence of Responders to Hazardous Materials Incidents," published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts (1992). NFPA 472 is incorporated by reference, is located at the state law library, is conveniently available to the public, and is not subject to frequent change.

Subp. 2. **Medical support team member.** Emergency response team members assigned to provide on-scene emergency medical support to the team must be in compliance with the requirements of Code of Federal Regulations, title 29, section 1910.120, and in substantial compliance with NFPA 473, "Standard for Professional Competencies for EMS Personnel Responding to Hazardous Materials Incidents," published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts (1992), as an Emergency Medical Service/Hazardous Materials Level II Responder. NFPA 473 is incorporated by reference, is located at the state law library, is conveniently available to the public, and is not subject to frequent change.

Subp. 3. **Continuing education requirements.** Each emergency response team member and chemical assessment team member shall successfully complete annual refresher training that meets or exceeds the continuing education requirements of Code of Federal Regulations, title 29, section 1910.120.

Subp. 4. **Team training.** Each emergency response team member and chemical assessment team member shall successfully complete the course of instruction designed to familiarize each team member with the suggested operating guidelines and other administrative and operational policies and procedures of the regional response team program identified in part 7514.0700, subpart 2. A team member must complete this training before being assigned to duty as an emergency response team member or chemical assessment team member.

Subp. 5. **Reviewing training and continuing education records.** Upon request by the commissioner, the employer of emergency response team members and chemical assessment team members shall make available the hazardous materials training and continuing education records of all team members.

Subp. 6. **Certifying compliance with qualification requirements.** The employer of each emergency response team member and chemical assessment team member shall annually certify to the commissioner that the team member has received training that meets the requirements set out in subparts 1 to 4.

Subp. 7. **Certifying compliance with medical requirements.** The employer of each emergency response team member and chemical assessment team member shall annually certify to the commissioner that the team member has met the medical requirements of Code of Federal Regulations, title 29, section 1910.120.

Subp. 8. **Substitution of training requirements.** Upon the request of the employer of emergency response team members and chemical assessment team members, the commissioner shall waive a training requirement specified in this part and replace it with a requirement or standard issued by the Occupational Safety and Health Administration or the National Fire Protection Association when the new requirement or standard replaces, meets, or exceeds the requirement to be replaced.

Subp. 9. **Reviewing training requirements.** At least once every two years from August 29, 1994, the commissioner shall review the most current Occupational Safety and Health Administration and National Fire Protection Association hazardous materials training requirements and standards. The commissioner shall inform the employer of any modifications from previous requirements and standards to ensure that training provided to team members meets the most current requirements and standards.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

**7514.0700 TRAINING PROGRAMS.**

Subpart 1. **Training provided by employer.** The employer of emergency response team members and chemical assessment team members shall select training programs and instructional staff that are in compliance with the requirements of this chapter and shall provide that training to team members.

Subp. 2. **Training provided by commissioner.** The commissioner shall develop and provide each emergency response team and chemical assessment team with a course of instruction in applying the suggested operating guidelines of the regional response team program developed under part 7514.1000, subpart 1, and other administrative and operational policies and procedures of the regional response team program.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

**7514.0800 COMPOSITION OF TEAMS.**

Subpart 1. **Composition of emergency response team.** Except as permitted under subpart 2, a hazardous materials emergency response team must be composed of at least 30 qualified members. Twelve members of the team must be available for response at all times. Nine of the 12 members must be available as an emergency response team. Three of the 12 members must be available as a chemical assessment team.

Subp. 2. **Waiver of minimum composition.** The commissioner shall permit an emergency response team to be composed of fewer than 30 qualified members when the team's employer can prove to the commissioner's satisfaction that 12 members of the team will be available for response at all times.

Subp. 3. **Composition of chemical assessment team.** Except as permitted under subpart 4, a team designated solely as a chemical assessment team must be composed of at least nine qualified members. Three members of the team must be available for response at all times.

Subp. 4. **Waiver of minimum composition.** The commissioner shall permit a chemical assessment team to be composed of fewer than nine qualified members when the team's employer can prove to the commissioner's satisfaction that three members of the team will be available for response at all times.

Subp. 5. **Training required to respond as emergency response team.** The nine members of an emergency response team available to respond as an emergency response team must have the levels of training certification described in items A to C:

A. At least four members must be certified by the employer at the highest level of hazardous materials training as defined by Code of Federal Regulations, title 29, section 1910.120.

B. The member assigned to provide emergency medical support to the team must be certified by the employer at a minimum of the operations level as defined by Code of Federal Regulations, title 29, section 1910.120, and currently certified or registered as an emergency medical technician by the commissioner of the Minnesota Department of Health, in compliance with Minnesota Statutes, sections 144E.001 to 144E.25 and 144E.30, and rules adopted pursuant to those sections.

C. The remaining members must be certified by the employer at a minimum of the technician level as defined by Code of Federal Regulations, title 29, section 1910.120.

Subp. 6. **Training required to respond as chemical assessment team.** The three members of a chemical assessment team, or of an emergency response team available for response as a chemical assessment team must have the levels of training certification described in items A and B:

A. At least one member must be certified by the employer at the highest level of hazardous materials training as defined by Code of Federal Regulations, title 29, section 1910.120.

B. The remaining members must be certified by the employer at a minimum of the technician level as defined by Code of Federal Regulations, title 29, section 1910.120.

**Subp. 7. Composition of team membership.** Emergency response teams and chemical assessment teams may be composed of personnel from one or more public or nonpublic entities. Teams must designate a single point of contact for purposes of emergency dispatch, a single authority for contract administration, and the employer responsible for the employer requirements of this chapter.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450; L 1997 c 199 s 14*

#### 7514.0900 RESPONSIBILITIES OF TEAMS.

**Subpart 1. Response at commissioner's direction.** An emergency response team and a chemical assessment team shall respond when directed by the commissioner to do so.

**Subp. 2. Primary responsibilities of emergency response team.** As its primary responsibility, an emergency response team shall assist local authorities by taking emergency actions necessary to protect life, property, and the environment from the effects of a release of a hazardous material. These emergency actions include, but are not limited to, preventing the release, mitigating the effects of the release, and stabilizing the emergency situation.

**Subp. 3. Primary responsibilities of chemical assessment team.** As its primary responsibility, a chemical assessment team shall assist local authorities by providing technical advice to local incident commanders, and recommending mitigation actions necessary to protect life, property, and the environment that are in keeping with locally available levels of hazardous materials training and response capability.

**Subp. 4. Additional responsibilities of chemical assessment teams.** A chemical assessment team shall assist an emergency response team by responding, in conjunction with the emergency response team, to assess an incident, develop and recommend mitigation strategies, and assist with response operations.

**Subp. 5. Support of clean-up operations.** Subject to subpart 6, item A, and when requested by the incident commander, an emergency response team and a chemical assessment team may remain at the scene of a hazardous materials incident to provide support to local authorities monitoring clean-up activities conducted by local, state, or federal agencies or the responsible person, for the purpose of ensuring public safety. The team leader will decide whether the team will remain. A team is not obligated to remain. If a team does remain, its costs are recoverable costs.

**Subp. 6. Prohibited actions.** An emergency response team and a chemical assessment team shall not:

A. transport, store, dispose of, or perform remedial clean-up of hazardous materials, except as may be incidentally necessary to mitigate an emergency;

B. assume overall command of the hazardous materials emergency; or

C. mitigate incidents involving explosives, explosive devices, incendiary devices, shock-sensitive explosive chemicals, or clandestine drug labs, except to respond to the effects of a hazardous materials release that might occur as a consequence of these incidents or to provide technical assistance in support of the local authority.

**Subp. 7. Reporting and documentation.** An emergency response team and a chemical assessment team shall submit to the commissioner a detailed report of its response to an incident. The report must be prepared in a manner and form prescribed by the commissioner and, at the minimum, must include:

A. a list of all equipment used and personnel who responded;

B. a description of all emergency actions taken;

C. a copy of the site safety plans developed during the response; and

D. completed cost recovery forms.

Subp. 8. **Notification upon completion of response.** When an emergency response team or chemical assessment team has completed its response to an incident, the team leader, acting on behalf of the commissioner, shall notify the commissioner of the Pollution Control Agency as required under Minnesota Statutes, section 299A.50, subdivision 3. The commissioner of agriculture must also be notified for incidents where the Department of Agriculture has jurisdiction.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

#### **7514.1000 ESTABLISHMENT OF SUGGESTED OPERATING GUIDELINES.**

Subpart 1. **Initial guidelines.** Before implementing the team program, the commissioner shall establish suggested operating guidelines that will guide the response actions of emergency response teams and chemical assessment teams. The guidelines must comply with the requirements of Code of Federal Regulations, title 29, section 1910.120, and substantially comply with the requirements of NFPA 471, "Recommended Practice for Responding to Hazardous Materials Incidents," published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts (1992). NFPA 471 is incorporated by reference, is located at the state law library, is conveniently available to the public, and is not subject to frequent change.

Subp. 2. **Review and revision.** At least annually, the commissioner shall review and, when necessary, revise the suggested operating guidelines established under subpart 1.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

#### **7514.1100 EMERGENCY PREPLANNING.**

Subpart 1. **State agency.** Upon a request by the commissioner, a state agency shall give the commissioner hazardous materials storage information that the agency has collected from regulated facilities. The commissioner shall make a request under this subpart when the request is initiated by a team. The commissioner may direct the agency to give the information directly to the appropriate team or teams. This subpart does not apply if the agency is prohibited from disclosing this information by federal or state law.

Subp. 2. **Local government.** Upon a request by the commissioner, a local emergency response agency shall give the commissioner information necessary to support a team response to an incident within the agency's jurisdiction. The commissioner shall make a request under this subpart when the request is initiated by a team. The commissioner may direct the agency to give the information directly to the appropriate team or teams. Information that may be requested by the team includes:

- A. copies of any facility preplans prepared at the discretion of the agency;
  - B. a copy of the agency's hazardous materials emergency response plan prepared in accordance with Code of Federal Regulations, title 29, section 1910.120;
  - C. a statement describing the agency's level of hazardous materials training;
  - D. resources available locally to support hazardous materials response actions;
- and
- E. any other information reasonably needed by the teams.

Subp. 3. **Facility.** Upon a request by the commissioner, a facility required to prepare a spill prevention and response plan under Minnesota Statutes, section 115E.04, shall give a copy of the plan to the commissioner. The commissioner shall make a request under this subpart when the request is initiated by a team. The commissioner may direct the facility to give the information directly to the appropriate team or teams.

Subp. 4. **Disseminating information to teams.** The commissioner shall give information collected under subparts 1 to 3 to any team that requests the information. When the commissioner gives the information collected under subpart 3 to a team, the

commissioner shall provide the facility with the name and address of each team the information has been given to. A team may not distribute the information collected under subpart 3 without informing the facility from which the information was obtained.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

### 7514.1200 EMERGENCY RESPONSE ASSISTANCE.

Emergency response teams and chemical assessment teams are authorized to secure for use during an emergency response any technical assistance or specialized equipment necessary to safely and properly respond to an incident. When the incident involves explosives, explosive devices, incendiary devices, or shock-sensitive explosive chemicals, the teams must first request assistance from a Minnesota Department of Public Safety-authorized bomb squad. The cost of this assistance and equipment will be considered an actual cost of the team's response, recoverable from the responsible party.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

### 7514.1300 REVIEW AND EVALUATION OF RESPONSE.

An emergency response team or chemical assessment team shall conduct an evaluation of a response to an incident within 30 days after termination of the team's response. The team shall give all public and private agencies involved in the response the opportunity to participate in the evaluation. The team shall prepare a written report following completion of the evaluation, a copy of which must be provided to the commissioner within 15 days of the date the evaluation is completed.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

### 7514.1400 SUPPLIES, EQUIPMENT, AND VEHICLES.

Subpart 1. **Equipment for emergency response teams.** An emergency response team must have immediate access to the following general categories of supplies and equipment in suitable quantities to respond to anticipated hazardous materials incidents:

- A. chemical reference and emergency response manuals;
- B. personal protective equipment;
- C. leak-control supplies and equipment;
- D. radio and other forms of communications equipment;
- E. computer equipment and supporting software;
- F. monitoring and detection equipment;
- G. basic suppression equipment;
- H. spill containment supplies and equipment,
- I. assorted nonsparking hand tools;
- J. basic first aid supplies; and
- K. miscellaneous incident management and administrative supplies and equipment.

Subp. 2. **Equipment for chemical assessment teams.** A chemical assessment team must have immediate access to the following general categories of supplies and equipment in suitable quantities to respond to anticipated hazardous materials incidents:

- A. chemical reference and emergency response manuals;
- B. decontamination equipment;
- C. personal protective equipment;

- D. radio and other forms of communications equipment;
- E. computer equipment and supporting software;
- F. monitoring and detection equipment; and
- G. miscellaneous incident management and administrative supplies and equipment.

Subp. 3. **Emergency response vehicle requirements.** Hazardous materials emergency response vehicles used by a team must be of sufficient size and capacity to safely transport team personnel with properly stowed equipment and supplies to the scene of a hazardous materials incident under reasonably anticipated travel conditions.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

#### **7514.1500 SELECTION OF TEAMS.**

Subpart 1. **Request for proposal to provide contract services.** The commissioner shall issue a request for proposal in the form and manner established by the Minnesota Department of Administration to provide contract service as an emergency response team or chemical assessment team. Requests for proposal shall be issued as necessary to provide for the needs of the team program.

Subp. 2. **Proposal evaluation.** The commissioner shall establish an evaluation committee consisting of at least five technically qualified individuals. The committee shall evaluate all proposals received on the basis of the criteria set out in subpart 4, with emphasis placed on the quality of the proposer's response capability. After the evaluation, the committee shall recommend proposals to the commissioner for designation as service providers.

Subp. 3. **Conflict of interest.** Members of the evaluation committee must not have any direct financial interest between any aspect of the team program and any respondent to the request for proposals.

Subp. 4. **Proposal evaluation criteria.** Proposals received in response to the request for proposal must be evaluated based upon, but not limited to, the following criteria:

- A. the number and qualifications of each member of the team;
- B. a plan for maintenance of minimum required levels of staffing;
- C. the location of the proposed team within the designated primary response area, including response time considerations such as access to major transportation routes, and geographic and other physical barriers to a response;
- D. hazardous materials emergency response supplies and equipment, including vehicles, and personnel resources immediately available to the team, whether owned, leased, or available by arrangement;
- E. hazardous materials emergency response experience, including the length of time the team has been in existence and the number and variety of actual responses made;
- F. existing and proposed training and exercise programs;
- G. the length of time necessary for further development to bring the team to the point where it will be ready to respond;
- H. the estimated actual costs of team response; and
- I. the estimated period of time necessary for the deployment of the team.

Subp. 5. **Award of contracts for provision of service.** Emergency response teams and chemical assessment teams will operate under contract with the state of Minnesota, in accordance with Minnesota Statutes, sections 15.061 and 299A.50, subdivisions 1 and 2.

Subp. 6. **Term of contract for services.** A contract for service may be executed for a period of up to five years.

Subp. 7. **Contractor compensation.** Contractor compensation must include an annual amount for the term of the contract, subject to negotiations between the contractor and the state and budget appropriations by the state legislature. The contractor's proposal, submitted in response to the commissioner's request for proposal described in subpart 1, must identify the amount of compensation requested for each of the following:

- A. the cost of capital equipment including vehicles;
- B. the annual cost of training team personnel;
- C. the cost of annual medical examinations for team personnel;
- D. the initial cost of consumable supplies;
- E. program administration costs; and
- F. equipment maintenance costs.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

#### **7514.1600 EMERGENCY RESPONSE CRITERIA AND DISPATCHING.**

Subpart 1. **Emergency response.** An emergency response authorized by the commissioner may include technical assistance provided by a team via telephone and other means of communication or the deployment of team personnel and equipment to the scene of a hazardous materials incident.

Subp. 2. **Criteria for authorizing emergency response.** Except as provided in subparts 3 and 4, the commissioner shall use the provisions of this subpart to determine whether to authorize a team response. The commissioner shall authorize a team response when all the following criteria are met:

- A. there is a release or potential release from a transportation incident or fixed facility;
- B. the release presents an actual or potential threat to public safety or the environment;
- C. local emergency response personnel have been dispatched, are on the scene, and have made an initial assessment of the incident;
- D. local authorities have determined that the response needs of the incident exceed local capabilities; and
- E. local authorities have requested a team response.

Subp. 3. **Alternate response criteria.** The commissioner shall authorize a team response when the commissioner considers the response to be necessary to protect life, property, and the environment from the effects or potential effects of a hazardous materials release.

Subp. 4. **Special response criteria.** The commissioner shall authorize an emergency response team or a chemical assessment team response to provide standby technical assistance in support of a bomb squad response when the commissioner considers it necessary. A response under this subpart is limited to incidents involving explosives, explosive devices, incendiary devices, shock-sensitive explosive chemicals, or a law enforcement agency response to clandestine drug lab incidents. When a team responds, its costs are recoverable costs.

Subp. 5. **Authority to request team response.** Authority to request the response of an emergency response team and a chemical assessment team resides with local authorities whose jurisdiction includes the scene of the hazardous materials incident.

Subp. 6. **Procedure for requesting team.** The Minnesota duty officer system is the point of contact for requesting a response by an emergency response team or a chemical assessment team.

Subp. 7. **Canceling response en route to incident.** Team response may be canceled en route to an incident only by the local authority that initially requested the response.

Subp. 8. **Terminating team response actions for safety reasons.** The team may terminate response actions at an incident without direction from the incident commander when the team leader or safety officer determines that the ordered response actions would place team personnel in imminent danger.

Subp. 9. **Terminating team response at conclusion of incident.** Team response may be terminated at an incident upon the direction of the local incident commander, or as provided in subpart 8 or part 7514.0900, subpart 5.

Subp. 10. **Deployment time.** The average deployment time for emergency response teams and chemical assessment teams must not exceed 15 minutes.

#### **7514.1700 COST RECOVERY.**

Subpart 1. **Submitting claim for team response costs.** Regional teams shall submit to the commissioner claims for reimbursement of reasonable and necessary costs incurred as a result of a response in the manner and form identified in part 7514.0900, subpart 7.

Subp. 2. **Team response costs; payment and recovery.** The state shall reimburse regional teams for reasonable and necessary costs of a response after receipt of a properly filed claim. The state shall recover the team's costs, and the state's legal and additional court costs, from the responsible person.

Subp. 3. **Team response costs eligible for recovery.** Reasonable and necessary team response costs associated with an actual response by a team may be recovered by the team from the state and by the state from the responsible person. Costs eligible for recovery include:

- A. team personnel costs;
- B. additional wage costs for local callback personnel;
- C. vehicle operating costs;
- D. cost of consumable supplies used;
- E. repair or replacement of damaged or destroyed capital equipment;
- F. communications costs, including long distance and cellular telephone charges;
- G. administrative costs;
- H. cost incurred in the use of specialized equipment as provided in part 7514.1200;
- I. cost incurred in the use of special technical assistance as provided in part 7514.1200;
- J. costs associated with providing support to clean-up operations when requested in accordance with part 7514.0900, subpart 5;
- K. costs associated with providing standby technical assistance when requested in accordance with part 7514.1600, subpart 4; and
- L. other direct costs incurred by the team as a result of the response.

Subp. 4. **Billing responsible person for costs.** The commissioner shall bill the responsible person for eligible response costs after receipt of a properly filed claim. If the responsible person fails to pay the bill in full within 30 days of its issuance, the commissioner shall issue subsequent billings. Billings must include interest, at the judgment rate currently charged by the state, per month on the unpaid balance. If payment in full is not made within 60 days of the issuance of the first bill, the commissioner:

- A. shall contact the responsible person in an attempt to resolve the claim; and
- B. may bring legal action to recover any unpaid balance.

Subp. 5. **Right to appeal costs billed.** A responsible person that disagrees with a billing for response costs may file a written appeal with the commissioner. The appeal

must be filed within 30 days of the billing. The written appeal must clearly state what portions of the billing are being appealed and the basis of the appeal. The commissioner shall review each appeal and issue a written determination within a reasonable time affirming, amending, or rescinding the disputed costs. A responsible person may withhold the amount of the billing in dispute while an appeal is pending. The responsible person must not be assessed interest on the disputed amount while the appeal is in process, unless the commissioner determines that the appeal is solely for the purpose of delay. Any person aggrieved by a decision made by the commissioner under this subpart may proceed before the commissioner as with a contested case in accordance with the administrative procedure act.

**Subp. 6. Costs not eligible for payment or recovery by commissioner.** The commissioner shall not pay or recover from the responsible person response costs incurred by the local jurisdiction that requested the response of a regional team.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

#### **7514.1800 COORDINATING RESPONSE ACTIVITIES.**

**Subpart 1. Incident management system.** The team leader shall coordinate the on-scene emergency response operations of the teams with local, state, and federal agencies, Indian tribes, and private response organizations through the Minnesota incident management system.

**Subp. 2. Coordination with local authorities.** A local authority shall provide assistance to team operations in the authority's jurisdiction, which are necessary to the response and in keeping with local emergency operations plans, local emergency response plans, and the level of hazardous materials training required of the authority by the Occupational Safety and Health Administration.

**Subp. 3. Coordination with state agencies.** A state agency shall provide assistance to team operations that is necessary to the response and is in keeping with the agency's role as identified in Governor's Executive Order 93-27, "Assigning Emergency Responsibilities to State Agencies," and any future orders replacing or revising this order, and implemented by the Minnesota emergency operations plan.

**Subp. 4. Coordination with responsible person.** A responsible person shall provide assistance to team operations that is necessary to the response, upon a request by the incident commander or team leader, in keeping with the responsible person's level of training and emergency response plans.

**Subp. 5. Coordination with other states and federal government.** The emergency response actions of the teams must be coordinated with those of federal agencies and other states in accordance with the emergency response plans authorized by United States Code, title 42, section 9605, National Contingency Plan, as amended; United States Code, title 33, section 311(c)(2), Clean Water Act, as amended; and United States Code, title 33, section 2701, Oil Pollution Act of 1990.

**Subp. 6. Coordination with Indian tribes.** Subject to negotiations with Indian tribes located in the state of Minnesota, the commissioner shall enter into agreements with the tribes as necessary and appropriate to establish procedures for team response to incidents occurring on tribal lands.

**Subp. 7. Coordination of team operations.** The commissioner, in consultation with the State Fire Marshal and director of the Division of Emergency Management, shall develop and implement a management plan that identifies the primary and support responsibilities of each, and clear lines of accountability.

# MINNESOTA RULES 1999

447

HAZARDOUS MATERIALS INCIDENT RESPONSE 7514.2000

## 7514.1900 MUTUAL AID AGREEMENTS.

The commissioner may enter into mutual aid agreements with federal agencies, other states, and Indian tribes for the purpose of supporting the hazardous materials response of either jurisdiction, as provided in Minnesota Statutes, section 299A.50, subdivision 2.

**Statutory Authority:** *MS s 299A.50*

**History:** *19 SR 450*

## 7514.2000 LIABILITY AND WORKERS' COMPENSATION COVERAGE.

For the purposes of Minnesota Statutes, chapter 176, and section 3.736, coverage is initiated once a team is activated by the state, for operations authorized by the state, and the team is outside its geographic jurisdiction.
