Subp. 4. Waiver of property as a resource. The department shall waive consideration of property in excess of the exemptions when the patient's or resident's equity cannot be liquidated, the offered price is less than 80 percent of the market value given by two appraisers agreeable to both parties, or the cost of repairs necessary to meet the conditions of sale exceeds 35 percent of the offered price.

Each case shall be referred to the department's reimbursement division central office and decided on the merits of the facts recorded in the patient's or resident's financial file to substantiate the circumstances.

The decision to waive the consideration shall be examined at least annually for changes in market value, opportunity for sale or mortgage, and other pertinent factors.

Subp. 5. Transfer of property. The market value of any property transferred, less any value received, shall be treated as an available resource if the property is valued at more than \$1,000 and if the transfer is for less than the market value and if the transfer is made:

A. during or after hospitalization in a state facility; or

B. prior to hospitalization in a state facility, but with intent to avoid the use of the property to pay for facility care or in determining ability to pay for care; or

C. prior to hospitalization in a state facility but within 24 months of admission.

Subp. 6. Documentation required. When property described in subpart 5 is transferred during the period between two years prior to admission to a state facility and six years following discharge, the patient, resident, or the representative shall provide documentation of the circumstances of the transfer.

Subp. 7. Exemption. The provisions of subparts 5 and 6 do not apply when the patient or resident is not continuing to accrue charges and the full cost of care has been paid. The provisions of subparts 5 and 6 do not apply to property excluded from consideration under other provisions of parts 9515.1000 to 9515.2600.

9515.2600 RESPONSIBLE RELATIVE'S ABILITY TO PAY.

Subpart 1. In general. When the patient or resident is determined not to be able to pay the full cost of care, the department shall determine the ability of each responsible relative of the patient or resident to pay the amount permitted by statute.

Subp. 2. Interview. The responsible relative shall be contacted to obtain and verify financial information.

Subp. 3. Insurance benefits. The responsible relative shall inform the department about dependent benefits from hospital and medical insurance carried by the relative.

Dependent benefits to a patient or resident shall be considered the same as the patient's or resident's insurance.

Any difference between benefits to a patient or resident and others covered by the responsible relative's policy shall be verified.

The responsible relative shall complete and sign the forms necessary to verify eligibility for benefits and assign benefits to pay the cost of care of the patient or resident.

The amount of the premium paid by the responsible relative may be deducted from the responsible relative's total obligation to pay.

Subp. 4. Liability of responsible relatives. When the sum of the benefits described in subpart 3 and the patient's or resident's other resources pay less than the full cost of care, the ability of each responsible relative to pay shall be determined in the statutory order of liability for cost of care. When two responsible relatives have the same order of liability for cost of care, a determination shall be made for each one except that a joint determination shall be made for parents who reside in the same household.

Subp. 5. Limitations on relative's ability to pay. The ability of a responsible relative to pay shall be determined from the annual gross earnings of the responsible relative subject to the following limitations:

A. A responsible relative who verifies annual gross earnings of less than \$11,000 shall be determined not able to pay the cost of care.

B. No responsible relative who is a resident of Minnesota shall be ordered to pay more than ten percent of the cost of care for each patient except that the responsible relative who has failed to provide the information, documents, and proofs which are necessary to determine ability to pay as required by part 9515.1500, items F and G may be ordered to pay the full per capita cost of care until such time as they are provided.

C. The department may require full payment of the full per capita cost of care for a patient or resident whose parents or parent, spouse, guardian, or conservator do not reside in Minnesota and are financially able to pay as determined by the department.

D. Only the annual gross earnings of the spouse of a patient or resident shall be used to determine the spouse's ability to pay.

E. When a responsible relative is married to a person who is not a responsible relative, only the annual gross earnings of the responsible relative shall be used to determine the responsible relative's ability to pay.

F. The department may accept from the responsible relatives voluntary payments in excess of ten percent.

G. The liability of parents for cost of care provided to minor children shall be determined according to Minnesota Statutes, section 252.27, subdivision 2, and rules adopted under that section.

Subp. 6. Determination of relative's ability to pay. A responsible relative who provides the department the information, documents, and proofs necessary to determine ability to pay as provided in part 9515.1500, items F and G shall have his or her ability to pay determined from the table in subpart 8. For purposes of this table, household size consists of the responsible relative and the responsible relative's dependents living in the responsible relative's household, other than the patient or resident.

A responsible relative who chooses not to provide the department the information, documents, and proofs necessary to determine ability to pay as provided in part 9515.1500, items F and G may be determined liable for the full per capita cost of care.

Subp. 7. Purpose of table. The table in subpart 8 shall be used to determine a relative's ability to pay, as described in subpart 6. When there is a change in the per capita cost of care, the department shall revise subpart 8. Adjustments shall be made according to the following formula: at each level of annual gross earnings, daily payments equal to ten percent of the per diem for the previous year shall be adjusted to equal either the daily payment at the next lower level of earnings plus 25 percent, or ten percent of the per diem for the current year, whichever is less; successive levels of earnings shall be added to subpart 8 if needed to incorporate daily payments up to ten percent of the per diem for the current year; the daily payment of a responsible relative whose earnings are above these levels shall be at ten percent of the current per diem.
