## **USER'S GUIDE FOR RULE CONCORDANCE TABLE**

The Rule Concordance Table lists agency names in alphabetical order. Under each agency name the rules administered by that agency are listed in numerical order by the MCAR or agency rule number, followed by the appropriate Minnesota Rules number assigned to it. This table contains only those rules that were adopted with an MCAR or agency rule number that are included in Minnesota Rules 1984 Supplement.

These numbers appear in two columns. The left column contains the MCAR or agency rule number and the right column contains the Minnesota Rules citation.

To find the Minnesota Rules citation corresponding to each MCAR or agency number, scan the left column until you find the MCAR or agency rule number you are looking for. Look at the right column directly across from the number to find the corresponding Minnesota Rules citation.

## **USER'S GUIDE FOR RULE REVERSE CONCORDANCE TABLE**

The Rule Reverse Concordance Table lists Minnesota Rules numbers in decimal order, followed by the MCAR or agency number formerly assigned to it. This table contains only those rules that were adopted with an MCAR or agency rule number that are included in Minnesota Rules 1984 Supplement.

The table is comprised of two columns. The left column contains the Minnesota Rules citation and the right column contains the corresponding MCAR or agency rule number.

To find out where the text assigned to a Minnesota Rules citation came from, scan the left column until you find the Minnesota Rules citation you are looking for. Look at the right column directly across from that number to find the MCAR or agency rule number under which the text of that rule was formerly located.

## USER'S GUIDE FOR TABLE OF AMENDMENTS OF RULES

The table of amendments lists all rules that are contained in Minnesota Rules 1984 Supplement, the action taken on each part, and the State Register cite where the notice of adoption of the action taken was published.

The table is comprised of three columns. The first column lists the rules in decimal order. The second column tells the action taken, whether the part was repealed, amended, or is new. The third column gives the State Register cite where the notice of adoption of the action taken was published.

**Example:**

1410.1000	Repealed	9 SR 333
-----------	----------	----------

This example shows that Minnesota Rules, part 1410.1000 was repealed, and that the notice of adoption appeared on page 333 of volume 9 of the State Register.

## **USER'S GUIDE FOR RULE INCORPORATION BY REFERENCE TABLE**

The Rule Incorporation by Reference Table lists publications or documents the revisor has approved as conveniently available and the place each can be found.

The first portion of this table contains the names of the publications or documents listed alphabetically in the left column. The right column contains a number or numbers. This is a code which tells where the publication or document can be found.

The second portion of this table contains the location codes. The number in the first column corresponds to the code listed in the second column of the alphabetical listing of publications or documents. To the right of that number is the name, address, and telephone number where each publication can be found. Use the table of location codes in volume 6 of Minnesota Rules 1983 in conjunction with the table in Minnesota Rules 1984 Supplement.

To find out the location of an incorporated reference, scan the alphabetical listing of publications or documents until you find the one you are looking for. Look at the right column to find its location code number. Turn to the location code listing and find the location code number you have. Look to the right of that number to find the information you need to obtain that publication or document.

## INCORPORATION BY REFERENCE TABLE

Name of publication or document incorporated	Code for location of publication or document
American Chemical Society's Chemical Abstract Service	3
American Institute of Certified Public Accountants Professional Standards	3, 13
American Ornithologists Union Checklist	25
Annual Book of ASTM Standards	11
