

1545.1190 WATER SUPPLY.

The water supply shall be ample, clean, and potable with adequate pressure and facilities for its distribution in the plant and its protection against contamination and pollution. The provisions of parts 1545.1190 to 1545.1220 shall be considered as having been met if the water supply complies with the specifications set forth in section VII of the Manual of Water Supply Sanitation of the Minnesota Department of Health, which standards have been adopted by the commissioner of agriculture.
