

1550.1760 DOORS AND WINDOWS.

Subpart 1. **General.** Effective means shall be provided to prevent entrance of flies into syrup room or container filling area. Exterior hinged doors as well as door into syrup room and toilet room shall be outward opening and self-closing. Windows shall be glazed. Windows in syrup room and container filling area if opened are effectively screened unless other effective means are provided to prevent the entrance of flies.

Subp. 2. **Satisfactory compliance.** This item is deemed to be satisfied when:

A. Windows in syrup room and container filling area used for natural ventilation are effectively screened by screening, effective electric screen panels, fans, or air curtains which provide sufficient air velocity as to prevent the entrance of flies, any effective combination of these, or by any other method which prevents the entrance of flies.

B. All exterior hinged doors, syrup room door, toilet room doors are tight and self-closing and shall open outward.
