

1550.2170 MARKING AND IDENTIFICATION OF ARTICLES OF FOOD.

When articles of food are placed in cold storage, the lot number placed in each package shall be identified by a corresponding lot card or number in the office which will show the month, date, and year received in storage, with room and location numbers and name and address of owner. Articles of food may be required to be so placed or piled in a cold storage warehouse that the lot numbers and markings can be plainly seen and read while passing through the alleys. When tags are used on which to mark lot numbers, they must be securely fastened to the articles to which they are affixed, so that they cannot readily become detached.
