

1550.2640 WATER SUPPLY.

A potable water supply from an approved source which produces water of a safe, sanitary quality shall be provided for use in all salvage food processing establishments. Water from a water supply constructed and located in accordance with the provisions of section VII, Manual of Water Supply Sanitation, dated 1965 and adopted by the Minnesota Department of Health, shall be deemed to be an approved source. There shall be no cross-connection between the approved potable water supply and any other water supply or any source of possible contamination. Such water supply shall be connected to conveniently located faucets or taps and properly plumbed to all rooms or areas where products are processed.
