

**1550.2850 CONTAMINATION.**

Distressed food which shows evidence of contamination shall not be acceptable as human food. For the purposes of parts 1550.2490 to 1550.2930, "contamination" shall mean the presence of foreign material, insect-infestation, filth, microorganisms, or products of microorganisms of public health significance, or any other condition which from a public health or aesthetic standpoint shall render said distressed food unfit for human consumption.

**Statutory Authority:** *MS s 31.101*

**Published Electronically:** *September 23, 2013*
