

3801.3831 POWER LIMITED TECHNICIAN PROGRAM.

To qualify for approval, a power limited technician program must either be a two-year electrical program described in part 3801.3830 or other program that has at least 500 hours of student and instructor contact time meeting the program content described in part 3801.3880. Approval for experience credit for programs other than a two-year electrical program is based on increments of 100 hours, or major fraction thereof, of student and instructor contact time up to a maximum of 2,000 hours.
