

4350.3050 NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT REVIEW.

Whenever the Minnesota Pollution Control Agency responds under part 4350.3030, subparts 5 to 9, that a NPDES permit is required for a master application, within 110 days after it has received a completed NPDES application under part 4350.3040, subpart 2, the Minnesota Pollution Control Agency shall complete all permit review procedures necessary to determine the necessity or appropriateness of a hearing on the NPDES requirements for the project, and shall within the 110 days notify the coordination unit whether a hearing is required or necessary. When conditions prevail that do not require the full 110 day processing period, the MPCA will notify the coordination unit as soon as possible as to whether a hearing is required.
