

4717.7860 HEALTH RISK LIMITS TABLE.

Subpart 1. **Generally.** This table lists the health risk limits derived from methods specified in parts 4717.7830, 4717.7840, and 4717.7850. For each chemical, this table specifies:

- A. the chemical name;
- B. the CAS number;
- C. the year the HRL was adopted;
- D. the volatility classification;
- E. any noncancer HRL;
- F. any cancer HRL;
- G. the RfD and RSC used in the derivation of any noncancer HRL;
- H. the slope factor and any ADAF or AF_{lifetime} used in the derivation of any cancer HRL;
- I. the intake rate used in the derivation of any noncancer or cancer HRL; and
- J. the health endpoints.

Subp. 2. Explanation of table in this part.

- A. "--" symbol means not relevant.
- B. "NA" means not applicable.
- C. "ND" means not derived due to absence or paucity of toxicity information.
- D. "None" means not applicable for inclusion in the health risk index.
- E. The following explanations in subitems (1) to (3) apply where noted:
 - (1) The acute HRL value is less than the calculated HRL. To be protective of acute exposures, the HRL is set equal to the acute HRL value.
 - (2) The short-term HRL value is less than the calculated HRL. To be protective of short-term exposures, the HRL is set equal to the short-term HRL value.
 - (3) The subchronic HRL value is less than the calculated HRL. To be protective of subchronic exposures, the HRL is set equal to the subchronic HRL value.

Subp. 2a. Acenaphthene.

CAS number: 83-32-9

Year Adopted: 2018

Volatility: Moderate
