

**4725.1845 DENIAL OF PERMIT APPLICATION.**

Subpart 1. **Grounds for denial of application.** The commissioner may deny a permit application or revoke a permit for construction of a monitoring well, bored geothermal heat exchanger, or elevator boring, or installation of a groundwater thermal exchange device or SCLHE system if:

A. the person constructing the well or boring, or installing the SCLHE or groundwater thermal exchange device, is not licensed according to this chapter;

B. information submitted in the permit application is determined to be incomplete, incorrect, omitted, false, or misrepresented;

C. the construction of the well or boring would not be in conformance with this chapter;

D. issuance of the permit conflicts with statute or rule;

E. a provision of the permit is violated;

F. the well or boring would be constructed into or through contaminated soil or groundwater, and construction or use of the well or boring would result in contamination of a well or boring, allow contamination to spread, or would adversely affect groundwater remediation; or

G. pumping from the well or boring would intercept groundwater contamination and construction or use of the well or boring would result in contamination of a well or boring, allow contamination to spread, or would adversely affect groundwater remediation.

Subp. 2. **Notice requirement.** The commissioner shall give the applicant or permit holder written notice of the permit application denial or permit revocation. The notice shall state the reason for denial or revocation. A denied permit application or revoked permit may be revised or corrected and resubmitted to the commissioner for reconsideration.
