

4761.2665 STORAGE OF LEAD-CONTAMINATED DEBRIS.

All lead-contaminated debris generated by regulated lead work must be stored as it is generated in a closed container or in sealed plastic bags or sheeting of at least six-mil or equivalent thickness. Containers for lead-contaminated debris that are left on site overnight may not be stored in the residence if occupied. Debris must be stored in a locked and covered dumpster where the cover is securely fastened or stored in a secure area at the end of each working day.
