The purpose of these rules is to regulate the construction and enlargement of dams, as well as the repair, alteration, maintenance, operation, transfer of ownership, and abandonment, in such a manner as to best provide for public health, safety, and welfare. In the application of these parts, the department shall be guided by the policies and requirements declared in Minnesota Statutes, section 84.083, and chapters 103A, 103B, 103E to 103G, and 116D.

The rules are pursuant to Laws of Minnesota 1978, chapter 779, section 8, and are intended to be consistent with the goals and objectives of applicable federal and state environmental quality programs and policies including, but not limited to, mineland reclamation, and the management of: shorelands, floodplains, water surface use, boat and water safety, wild and scenic rivers, critical areas, recreational or wilderness areas, scientific and natural areas, and protected vegetative species.

To achieve this purpose, the commissioner hereby sets forth minimum standards and criteria for dam classification and identification of hazards to health, safety, and welfare and for permits for dam projects for water and waste impoundments and for ordering repairs.
