

6800.8004 DRUG DISTRIBUTION AND CONTROL.

Subpart 1. **General.** This part governs the mechanism by which a practitioner's prescription drug order is executed, from the time the drug is ordered and received in the pharmacy to the time the prescribed drug is dispensed to the patient.

Subp. 2. **Prescription.** The pharmacist, or pharmacist-intern acting under the immediate supervision of a pharmacist, must receive a prescription drug order from a practitioner before dispensing any compounded, sterile parenteral product. Prescriptions must be filed as required by law or rules of the board.

Subp. 3. **Labeling.** Each compounded intravenous admixture product must be labeled in accordance with part 6800.3450.

Subp. 4. **Delivery.** The pharmacist-in-charge shall ensure the environmental control of all products shipped as follows:

A. compounded, sterile pharmaceuticals must be shipped or delivered as required in part 6800.3000 and stored appropriately in the patient's home; and

B. chain of possession for the delivery of Schedule II controlled substances via courier must be documented, and a receipt obtained.
