

7002.0425 COMPUTING DOLLAR PER POINT VALUE.

The agency computes the dollar per point value for each year as follows:

$$\text{\$ per point} = T/B$$

where:

\$ per point is the dollar amount applied to each point;

T is the fee target calculated according to part 7002.0415, item C; and

B is the sum of all points for participating laboratories during the previous calendar year.
