Subpart 1. **Technical support document.** For part 70 permits, the agency shall develop a statement that sets forth the legal and factual basis for the draft permit conditions, including references to the applicable statutory or regulatory provisions. The agency shall send this statement to the EPA and to any other person who requests it.

Subp. 2. **Public notice and comment.**

A. The agency must comply with the following procedures before issuing, reissuing, or making a major amendment to any part 70 permit.

(1) The agency must give notice:

(a) by electronically posting the notice for the duration of the comment period on the agency's Web site for public notices;

(c) to persons on a mailing list developed by the agency, including those who request in writing to be on the list; and

(d) by other means if necessary to ensure adequate notice to the affected public.

(2) The notice must include, at a minimum:

(a) the name and location of the facility to be permitted;

(b) the name and address of the permittee;

(c) the name and address of the agency;

(d) the activity or activities involved in the permit action;

(e) the emissions change involved in any permit amendment;

(f) a copy of the draft permit;

(h) the name, address, and telephone number of a person; e-mail address of a person; or Web site address from which interested persons may obtain additional information, including copies of the permit draft, the application, all relevant supporting materials, and all other materials available to the agency that are relevant to the permit decision;

(i) a brief description of the comment procedures required by this part; and

(j) the time and place of any meeting or hearing that may be held, including a statement of procedures to request a meeting or hearing under subpart 3, unless a meeting or hearing has already been scheduled.

(3) The agency must provide at least 30 days for public comment and must give notice of any public informational meeting or contested case hearing at least 30 days in advance of the meeting or hearing. Part 7001.0110 applies to public comments received under this part.

(4) The agency must keep a record of the commenters and also of the issues raised during the public participation process, so that the administrator can determine whether a citizen petition may be granted. The records must be available to the public.

B. Before issuing or reissuing a state permit, the agency must comply with the procedures in item A, subitems (1) to (3). This item also applies to any major amendment to a state permit described in part 7007.1500, subpart 1, items C and D, if authorized or required by the administrator.

C. If the agency determines that a proposed major amendment to a state permit not described in item B involves issues that generate or are likely to generate significant material adverse comment from the public, based on previous adverse public comment on the proposed amendment or related issues, the agency must comply with the procedures of item A, subitems (1) to (3), before issuing the amendment.

D. (1) If the agency determines that a proposed minor or moderate amendment to a permit involves issues that generate or are likely to generate significant material adverse comment from the public, based on previous adverse public comment on the proposed amendment or related issues, the agency must comply with the procedures of item A, subitems (1) to (3), before issuing the amendment.

(2) A proposed minor permit amendment may be made subject to the public notice and comment procedures only if the agency notifies the permittee of the agency's determination within 15 working days of receiving the minor amendment application. If the permittee properly proceeded with a modification under part 7007.1450, subpart 7, before receiving the agency's determination, the permittee is not subject to enforcement action for proceeding, but must cease construction and operation of the modification within a reasonable period. The agency must consult with the permittee on when it is reasonable to cease construction and operation. A proposed moderate permit amendment may be made subject to the public notice and comment procedures any time before the agency issues a letter of approval authorizing construction under part 7007.1450, subpart 7.

E. The agency must upon request provide a list that summarizes current activities involving permit applications, minor, moderate, and major amendment applications, and requests for administrative amendments. The agency may use an electronic bulletin board in lieu of a written list.
