- J. telecommunications relay service capability or access necessary to comply with state and federal regulations.

Subp. 2. **Separate flat rate service offering.** At a minimum, each LSP shall offer the services identified in subpart 1 as a separate tariff or price list offering on a flat rate basis. An LSP may also offer basic local service on a measured rate basis or in combination with other services. An LSP may impose separate charges for the services set forth in subpart 1 only to the extent permitted by applicable laws, rules, and commission orders.

Subp. 3. **Service area obligations: all LSPs.** An LSP shall provide its local services on a nondiscriminatory basis, consistent with its certificate under part 7812.0300 or 7812.0350, to all customers who request service and whose premises fall within the carrier's service area boundaries or, for an interim period, to all requesting customers whose premises fall within the operational areas of the local service provider's service area under part 7812.0300, subpart 4, or 7812.0350, subpart 4. The obligation to provide resale services does not extend beyond the service capability of the underlying carrier whose service is being resold. The obligation to provide facilities-based services does not require an LSP that is not an eligible telecommunications carrier (ETC) to build out its facilities to customers not abutting its facilities or to serve a customer if the local service provider cannot reasonably obtain access to the point of demarcation on the customer's premises.

Subp. 4. **Service area obligations: ETCs.** An LSP designated an ETC by the commission must provide local service, including, if necessary, facilities-based service, to all requesting customers within the carrier's service area on a nondiscriminatory basis, regardless of a customer's proximity to the carrier's facilities. An LSP may assess special construction charges approved by the commission if existing facilities are not available to serve the customer.

Subp. 5. **CLEC service areas.** Competitive local exchange carriers (CLECs) may designate service areas different from the service areas of local exchange carriers (LECs).

Subp. 6. **Limitation on exit.** An LSP shall not withdraw from a service area unless another LSP certified for that area will be able to provide basic local service to the exiting local service provider's customers immediately upon the date the exiting provider discontinues service. An LSP shall not withdraw from its service area until at least 60 days after it has given written notice to the commission, department, Office of Attorney General-Residential Utilities Division (OAG-RUD), and its customers. The notice must identify the other LSPs available to its customers.

Subp. 7. **Service disconnection.** An LSP may disconnect a customer's basic local service as allowed under parts 7810.1800 to 7810.2000, except that it shall not disconnect basic local service for nonpayment of toll or information service charges or any service other than basic local service.
