

8230.2020 ELECTION JUDGE DUTIES.

The vote totals for central count optical scan voting systems may be certified by either the election judges who served in the precinct or a set of election judges specifically appointed to serve at the central counting center. When the polling place closes, the election judges designated by the official conducting the election shall complete the steps in parts 8230.2030 to 8230.4150. If the vote totals are to be certified by the central counting center election judges, all processing of the ballots and certification of the returns at the central counting center must be done by the central counting center judges.
