

9220.0660 USE OF FINANCIAL ASSURANCE MECHANISMS FOR MULTIPLE WASTE TIRE FACILITIES.

An owner or operator may use a financial assurance mechanism specified in parts 9220.0610 to 9220.0640 to meet the requirements of part 9220.0560 for more than one waste tire facility. Evidence of financial assurance submitted to the commissioner must include a list showing, for each facility, the name, address, and the amount of funds for closure assured by the mechanism. The amount of funds available through the mechanism must be no less than the sum of funds that would be available if a separate mechanism had been established and maintained for each facility. When directing disbursement of funds for closure at any of the facilities covered by the mechanism, the commissioner shall direct that only the amount of funds designated for that facility be disbursed unless otherwise agreed to by the owner or operator.
