ADMINISTRATION OF SPECIFIED THERAPIES TO STATE HOSPITAL PATIENTS

9515.0200 PURPOSE AND APPLICABILITY.

Parts 9515.0200 to 9515.0700 establish standards that must be met in determining whether to use electroconvulsive therapy with a patient residing in a state facility and in obtaining consent to proceed with the treatment if its use is indicated.

Parts 9515.0200 to 9515.0700 also define psychosurgery and clarify that it is rarely used, is considered a treatment of last resort, and is not performed at state facilities. If psychosurgery is indicated for a patient residing in a state facility, part 9515.0450 establishes standards that facility staff must follow in referring the patient to a medical facility where the procedure can be performed.

Psychosurgery shall be considered a procedure of last resort. A referral may be made only when all other somatic treatments have failed with a patient whose obsessive compulsive disorder, seizure disorder, or pain syndrome is chronic and intractable and who is severely disabled and at extreme risk for debilitating self-injury or death. 9515.0500 CONDITIONS GOVERNING USE OF ELECTROCONVULSIVE THERAPY.

Electroconvulsive therapy shall not be administered to adult patients residing in a state facility unless the medical director of the facility, after consultation with the patient's treating physician, has determined according to part 9515.0600 that electroconvulsive therapy is medically indicated; and unless one of the authorizations or consents described in item A or B applies. In the case of patients under age 18, including emancipated minors, electroconvulsive therapy shall not be administered without the judicial authorization required in part 9515.0700, subpart 1.

- (2) a court-appointed guardian or conservator authorized by a court to consent to the treatment on the patient's behalf has given informed consent to a request from the state facility under this part; or

9515.2600 RESPONSIBLE RELATIVE'S ABILITY TO PAY.

Subpart 1. **In general.** When the client is determined not to be able to pay the full cost of care, the department shall determine the ability of each responsible relative of the client to pay the amount permitted by statute.

Subp. 2. **Interview.** The responsible relative shall be contacted to obtain and verify financial information.

Subp. 3. **Insurance benefits.** The responsible relative shall inform the department about dependent benefits from hospital and medical insurance carried by the relative.

Dependent benefits to a client shall be considered the same as the client's insurance.

Any difference between benefits to a client and others covered by the responsible relative's policy shall be verified.

The responsible relative shall complete and sign the forms necessary to verify eligibility for benefits and assign benefits to pay the cost of care of the client.

The amount of the premium paid by the responsible relative may be deducted from the responsible relative's total obligation to pay.

Subp. 4. **Liability of responsible relatives.** When the sum of the benefits described in subpart 3 and the client's other resources pay less than the full cost of care, the ability of each responsible relative to pay shall be determined in the statutory order of liability for cost of care. When two responsible relatives have the same order of liability for cost of care, a determination shall be made for each one except that a joint determination shall be made for parents who reside in the same household.

Subp. 5. **Limitations on relative's ability to pay.** The ability of a responsible relative to pay shall be determined from the annual gross earnings of the responsible relative subject to the following limitations:

A. A responsible relative who verifies annual gross earnings of less than \$11,000 shall be determined not able to pay the cost of care.

B. No responsible relative who is a resident of Minnesota shall be ordered to pay more than ten percent of the cost of care for each client except that the responsible relative who has failed to provide the information, documents, and proofs which are necessary to determine ability to pay as required by part 9515.1500, items F and G may be ordered to pay the full cost of care until such time as they are provided.

C. The department may require full payment of the full cost of care for a client whose parents or parent, spouse, guardian, or conservator do not reside in Minnesota and are financially able to pay as determined by the department.

D. Only the annual gross earnings of the spouse of a client shall be used to determine the spouse's ability to pay.

E. When a responsible relative is married to a person who is not a responsible relative, only the annual gross earnings of the responsible relative shall be used to determine the responsible relative's ability to pay.

F. The department may accept from the responsible relatives voluntary payments in excess of ten percent.

G. The liability of parents for cost of care provided to minor children shall be determined according to Minnesota Statutes, section 252.27, subdivision 2, and rules adopted under that section.

Subp. 6. **Determination of relative's ability to pay.** A responsible relative who provides the department the information, documents, and proofs necessary to determine ability to pay as provided in part 9515.1500, items F and G shall have his or her ability to pay determined from the table in subpart 8. For purposes of this table, household size consists of the responsible relative and the responsible relative's dependents living in the responsible relative's household, other than the client.

A responsible relative who chooses not to provide the department the information, documents, and proofs necessary to determine ability to pay as provided in part 9515.1500, items F and G may be determined liable for the full cost of care.

Subp. 7. **Purpose of table.** The table in subpart 8 shall be used to determine a relative's ability to pay, as described in subpart 6. When there is a change in the cost of care, the department shall revise subpart 8. Adjustments shall be made according to the following formula: at each level of annual gross earnings, daily payments equal to ten percent of the cost of care for the previous year shall be adjusted to equal either the daily payment at the next lower level of earnings plus 25 percent, or ten percent of the cost of care for the current year, whichever is less; successive levels of earnings shall be added to subpart 8 if needed to incorporate daily payments up to ten percent of the cost of care for the current year; the daily payment of a responsible relative whose earnings are above these levels shall be at ten percent of the current cost of care.

Subp. 8. **Daily payment based on ability to pay according to household size and annual gross earnings of responsible relatives.**

Subp. 2. **Written rules for behavior and consequences of violations.** The license holder must specify rules of behavior for persons in treatment that are consistent with maintaining program safety and supportive of the person's rights to treatment. The rules must be in writing and must include a range of consequences that may be imposed for violation of the rules. 9515.3090 BEHAVIOR MANAGEMENT AND PROGRAM SAFETY.

Subpart 1. **Behavior management.** Disciplinary restrictions, emergency seclusion, and protective isolation may be imposed in accordance with this part when necessary to ensure a safe, secure, and orderly environment for the treatment program. For purposes of this part, disciplinary restrictions, emergency seclusion, and protective isolation have the meanings in subparts 2 to 4.

Subp. 2. **Disciplinary restrictions.** "Disciplinary restrictions" means withholding or limiting privileges otherwise available to a person in treatment as a consequence of the person's violating rules of behavior. Examples of disciplinary restrictions would include withholding or limiting such privileges as work, leisure, vocational and recreational activities, or access to parts of the facility. Disciplinary restrictions must:

A. be in proportion to the rule's importance to the order, safety, and security of the treatment program and to the severity of the violation;

B. be reasonably related to the nature of the behavior; and

C. take into consideration the person's past behavior while in the program.

Subp. 3. **Emergency seclusion.** "Emergency seclusion" means an emergency intervention that physically separates the person in treatment from others, including placing the person in a room from which the person is not able or permitted to exit. Emergency seclusion does not include locking a person in the person's sleeping room during normal sleeping hours or limiting a person's access to parts of the facility to which the person would otherwise have access. Emergency seclusion must be:

A. imposed only when necessary to protect the person being secluded or another person or individual from imminent danger of serious physical harm or to prevent serious property damage;

B. authorized by the nurse on duty who must immediately contact a physician for an order; and

C. continued only as long as the person's behavior indicates imminent danger continues.

Staff must monitor the person in emergency seclusion no less than every 15 minutes. A physician must review the situation at least every 24 hours.

Subp. 4. **Protective isolation.** "Protective isolation" means placing a person in treatment in a room from which the person is not able or permitted to exit as a way of defusing or containing dangerous behavior that is uncontrollable by any other means.

The license holder must have written policies on protective isolation that cover the points in items A to C.

A. Protective isolation must not be used for the convenience of staff or as a substitute for programming.

B. Treatment must be available during protective isolation to the extent that the person's behavior and condition make treatment possible; treatment shall include components designed to eliminate or reduce the specified behavior or behaviors that caused the need for protective isolation.

C. Protective isolation must not go beyond 48 continuous hours unless the treatment team recommends continuation to the medical director in a statement that:

(1) explains why continued protective isolation is necessary;

(2) contains an objective description of the behavior which poses the danger;

(3) describes the frequency with which the behavior has occurred in the past;

(4) analyzes the causes or precipitating condition for the behavior including, where appropriate, an analysis of the needs of the person which may cause the behavior;

(5) discusses why protective isolation is necessary, including a statement of the facts and data from which it is concluded that less restrictive programming will not be sufficient to prevent harm;

(6) describes the treatment plan, if any, which will be offered during the period of protective isolation;

(7) sets forth a plan for reviewing the protective isolation, including the frequency of reviews and the criteria for determining that the risk of harm is no longer sufficient to justify isolation; and

(8) is placed in the medical records of the person in protective isolation.

Continuing protective isolation is contingent on the medical director's written approval of the recommendation. If the plan for continuing protective isolation is approved, staff must follow the plan required in subitem (7).

Subp. 5. Request for review of protective isolation. The license holder must provide to a person in treatment who is placed in protective isolation a procedure which can be used immediately to request a review if the person believes the placement was unwarranted. Protective isolation may be imposed pending the outcome of the review. The review request procedure must include the elements in items A to D.

A. The review must be conducted by a panel of at least three persons, who were not participants in the decision to impose the isolation, and whose professional experience and training qualify them to assess the situation.

B. The review must be conducted and the outcome determined within seven days of being requested, excluding Saturdays, Sundays, and legal holidays, unless the review panel states in writing why a determination cannot be made within seven days and specifies when a determination will be made.

C. The person requesting the review must have the opportunity to present to the review panel evidence and argument to explain why protective isolation is unwarranted. The review panel may reasonably limit the form by which the evidence and argument are presented if necessary to ensure the physical safety of the review participants.

D. A person may request that the chief officer of the facility review a determination of the review panel. The chief officer's decision is final.
