

9810.2100 APPROVED PRODUCT CATEGORIES AND CANNABINOIDS.

Subpart 1. **Cannabis flower and cannabis products.** The following product categories, including products manufactured by changing the physical shape or texture of these products, are approved for sale in Minnesota to both adult-use customers and medical registry participants.

A. The following product categories are approved dried cannabis flower products:

- (1) dried raw cannabis flower;
- (2) fresh cannabis flower; and
- (3) shake.

B. The following product categories are approved ingestible cannabis products:

- (1) edible products;
- (2) beverage products; and
- (3) cannabis-derived tinctures.

C. The following product categories are approved cannabis concentrates:

- (1) hash (hashish);
- (2) hash oils;
- (3) cured or live resin;
- (4) cured or live rosin;
- (5) kief;
- (6) full extract cannabis oil; and
- (7) distillate.

D. Cannabis combination products contain both dried cannabis flower products and cannabis concentrate products. The following product categories are approved cannabis combination products:

- (1) infused pre-rolls; and
- (2) infused dried raw cannabis flower.

E. Transdermal or topical cannabis products intended only for application to external parts of the body.

Subp. 2. **Lower-potency hemp edible products.** Lower-potency hemp edibles are defined in Minnesota Statutes, section 342.01, subdivision 50. The following product categories are approved lower-potency hemp edible products:

A. edible products;

B. beverage products; and

C. hemp-derived tinctures.

Subp. 3. **Hemp-derived consumer products.** The following are approved hemp-derived consumer products:

A. dried raw hemp flower; and

B. hemp-derived oils intended to be consumed by combustion or vaporization of the product and inhalation of smoke, aerosol, or vapor from the product.

Subp. 4. **Cannabinoids.**

A. The following cannabinoids are approved for use in lower-potency hemp edibles: hemp-derived delta-9 tetrahydrocannabinol.

B. The following cannabinoids are designated as nonintoxicating:

(1) cannabichromene (CBC);

(2) cannabidiol (CBD);

(3) cannabigerol (CBG); and

(4) cannabinol (CBN).
