

INDEX USER'S GUIDE

The index to Minnesota Rules 1998 Supplement Number 2 includes references to rules adopted from September 8, 1997, to January 4, 1999. References are to rule part numbers.

For newly adopted rule parts the index coverage is complete. For amended parts a reference is included only if the existing references in the main volume index are inadequate to cover the amendments. Therefore, it is suggested that the user always begin an index search with the volume 13 index of Minnesota Rules 1997.

See the User's Guide on pages 263 and 264 of volume 13 of Minnesota Rules 1997 for more information about the use of this index.
