

INDEX USER'S GUIDE

The index to Minnesota Rules 2008 Supplement Number 2 includes references to rules adopted from August 27, 2007, to November 17, 2008. References are to rule part numbers.

For newly adopted rule parts, the index coverage is complete. For amended parts, a reference is included only if the existing references in the main volume index are inadequate to cover the amendments. Therefore, it is suggested that the user always begin an index search with the volume 11 index of Minnesota Rules 2007.

See the User's Guide on pages 235 to 237 of volume 11 of Minnesota Rules 2007 for more information about the use of this index.
