1. -25 . [Unchanged.]
26. "State gross median income" is $\$ 25,394$ annually for
a family of four as developed by the Bureau of the Census and
released by the Social Security Administration (Information

income" adjusted for households of different sizes in accordance
with 45 FR 56710 (Code of Federal Regulations, title 45 , section

eight, $\$ 35,044$; nine, $\$ 35,806$; ten, $\$ 36,567$; more than ten, 144
percent of $\$ 25,394$ plus three percent of $\$ 25,394$ for each
household member in excess of ten.

7 MCAR S 1.654 Application and cost-sharing for applicant(s).
A. [Unchanged.]
B. Cost-sharing.
1. -3 . [Unchanged.]
4. The amount of cost-sharing required of an applicant is
determined in the following manner:
Step No. 1: The includable assets are totalled. If
applicable, the household member deduction is subtracted from
this total.
Step No. 2: The amount derived in Step No. 1 is then added
to the adjusted gross income.
Step No. 3: The total of the allowable deductions is
subtracted from the amount derived in Step No. 2. This figure indicates the $S C H$ adjusted income.

Step No. 4: The percentage that the applicant must share in the cost of treatment is based on the applicant's SCH adjusted income level and on the number of members in the household. This percentage is calculated according to the following schedule.

## SCH Cost-sharing Schedule

The applicant's share is one percent of cost for each $\$ 1,000$ or fraction of $\$ 1,000$ of income above 60 percent of the state gross median income for a household of the same size as the applicant's. The applicant's percent share is found on the schedule by looking under the number which is the number of members of applicant's household to find the income level which includes the applicant's annual household income. The applicant's percent share is shown to the far left of that income level. To extend the schedule to households of more than ten members add $\$ 457$ for each household member in excess of ten to the income levels for a household of ten members.
