1545.2050

[REVISOR ] CEL/JA AR0492

1 Department of Agriculture

2 Food Inspection Division

3

4 Adopted Rules Governing Dyeing of Fish and Fish Products

5

6 Rule as Adopted

7 1545.2050 FISH UNFIT FOR HUMAN FOOD.

8 Fish unfit for human food, whether parasitic or not, which  
9 are offered for sale for animal food must be denatured or  
10 identified so as to prohibit their use for human food.

11 Denaturing must be accomplished either by cutting the fish in  
12 two immediately behind the abdominal cavity or by dyeing the  
13 fish with methyl violet. The strength of the dye solution used  
14 may not be less than one part of dye to 5,000 parts of water.

15

16 REPEALER. Minnesota Rules, part 1545.2070 is repealed.
