21 year and an estimated expenditure based on the actual number of  
22 units purchased times the predicted competitive bid prices; or

23 B. the item is a new item that was not available  
24 during the previous fiscal year but is estimated to be  
25 cost-effective if purchased by competitive bidding. Competitive  
26 bidding for a new item is considered cost-effective if the

28 to anchor the partial prosthesis. In this event, prior  
29 authorization for replacement of the partial prosthesis will not  
30 be approved if the anchoring teeth are not expected to support  
31 the prosthesis for at least one year and if the X-rays of the

1 recipient's eligibility if the total payment for each of two  
2 consecutive months of home health services does not exceed  
3 \$1,200. The limitation of \$1,200 shall be adjusted annually on  
4 July 1 to reflect the annual percentage increase reported in the

7 of Labor Statistics, United States Department of Labor. The

9 available from the Minitex interlibrary loan system. It is  
10 subject to frequent change.

11. C. If the total payment for each of two consecutive  
12 months of home health services exceeds \$1200, a screening team

17 plan of care.

22 total payment for a month of home health services is less than  
23 the total monthly statewide average rate of the case mix  
24 classification most appropriate to the recipient if the  
25 recipient were placed in a residential facility for the

3 less than the projected monthly cost of services provided by the  
4 least expensive hospital in the recipient's local trade area  
5 that is staffed and equipped to provide the recipient's  
6 necessary care. The recipient's physician in consultation with  
7 the staff of the hospital shall determine whether the hospital  
8 is staffed and equipped to provide the recipient's necessary  
9 care. The hospital's projected monthly cost must be computed by  
10 multiplying the projected monthly charges that the hospital  
11 would bill to medical assistance for services to the recipient  
12 by the hospital's cost-to-charge ratio as determined by a  
13 medical assistance settlement made under title XIX of the Social  
14 Security Act.

15 Subp. 4. Review of screening team determinations of  
16 eligibility. The commissioner shall appoint a grievance  
17 committee comprised of persons familiar with the receipt or

22 the determination of the screening team under subpart 3.

26 financial interest, with the provider of home health services or  
27 for a provider of a personal care service listed in part  
28 9505.0335, subparts 8 and 9, unless:

22 hospital services to a recipient shall be made according to  
23 parts 9500.1090 to 9500.1155. Inpatient hospital services that  
24 are medically necessary for treatment of the recipient's  
25 condition are not eligible for a separate payment but are  
26 included within the payment rate established under parts  
27 9500.1090 to 9500.1155. An example of a medically necessary  
28 service is a private room that the recipient's physician  
29 certifies as medically necessary.

36 For the purposes of this subpart, "urgent care" means acute,

1 episodic care similar to services provided in a  
2 physician-directed clinic.

5 assistance program if they are not medically necessary under  
6 parts 9505.0500 to 9505.0540; if they are for alcohol  
7 detoxification that is not medically necessary to treat an  
8 emergency; if they are denied a required prior authorization; or  
9 if they are surgical procedures requiring a second surgical

10 that is rented or purchased by the medical assistance program  
11 under a warranty is not eligible for medical assistance payment  
12 if the repair is covered by the warranty.

13 C. In the case of rental equipment, the sum of rental  
14 payments during the projected period of the recipient's use must  
15 not exceed the purchase price allowed by medical  
16 assistance unless the sum of the projected rental payments in  
17 excess of the purchase price receives prior authorization. All  
18 rental payments must apply to purchase of the equipment.

19 Subp. 2. Payment limitation on durable medical equipment  
20 in hospitals and long-term care facilities. Durable medical  
21 equipment is subject to the payment limitations in items A and C.

22 A. A provider who furnishes durable medical equipment  
23 for a recipient who is a resident of a hospital or long-term

35 part have the meanings given to them.

2 provider including quantity and other special discounts except  
3 time and cash discounts.

4           B. "Compounded prescription" means a prescription  
5 prepared under part 6800.3100.

6           C. "Dispensing fee" means the amount allowed under  
7 the medical assistance program as payment for the pharmacy  
8 service in dispensing the prescribed drug.

9           D. "Maintenance drug" means a prescribed drug that is  
10 used by a particular recipient for a period greater than two  
11 consecutive months.

12           E. "Pharmacist" means a person licensed under  
13 Minnesota Statutes, chapter 151, to provide services within the  
14 scope of pharmacy practice.

17 151.

18           G. "Pharmacy service" means the dispensing of drugs  
19 under Minnesota Statutes, chapter 151 or by a physician under  
20 subpart 2, item B.

21           H. "Prescribed drug" means a drug as defined in  
22 Minnesota Statutes, section 151.01, subdivision 5, and ordered  
23 by a practitioner.

24           I. "Practitioner" means a physician, osteopath,  
25 dentist, or podiatrist licensed under Minnesota Statutes or the

29 in part 9505.0175, subpart 49, whether the drug is purchased by  
30 prescription or over-the-counter, in bulk, or unit-dose  
31 packaging. However, if a provider's pharmacy is not accessible  
32 to, or frequented by, the general public, or if the  
33 over-the-counter drug is not on display for sale to the general  
34 public, then the usual and customary charge for the  
35 over-the-counter drug shall be the actual acquisition cost of  
36 the product plus a 50 percent markup based on the actual

1 acquisition cost. In this event, this calculated amount must be  
2 used in billing the department for an over-the-counter drug.

3 Amounts paid in full or in part by third-party payers shall  
4 be included in the calculation of the usual and customary charge  
5 only if a third-party payer constitutes 51 percent or more of  
6 the pharmacy's business based on the number of prescriptions  
7 filled by the pharmacy on a quarterly basis.

8 Subp. 2. **Eligible providers.** The following providers are

17 payment shall personally dispense the prescribed drug according  
18 to Minnesota Statutes, section 151.37, and shall adhere to the  
19 labeling requirements of the Minnesota Board of Pharmacy.

20 Subp. 3. **Payment limitations.** Payments for pharmacy  
21 services under the medical assistance program are limited as  
22 follows.

23 A. The prescribed drug must be a drug or compounded  
24 prescription that is approved by the commissioner for inclusion  
25 in the department's drug formulary. The drug formulary  
26 committee established under Minnesota Statutes, section 256B.02,  
27 subdivision 8, shall recommend to the commissioner the inclusion  
28 of a drug or compounded prescription in the drug formulary. The  
29 commissioner may add or delete a drug or compounded prescription  
30 from the drug formulary. A provider, recipient, or seller of  
31 prescription drugs or compounded prescriptions may apply to the  
32 department on the form specified in the drug formulary to add or  
33 delete a drug from the drug formulary.

34 B. A prescribed drug must be dispensed in the  
35 quantity specified on the prescription unless the pharmacy is  
36 using unit dose dispensing or the specified quantity is not

1 available in the pharmacy when the prescription is dispensed.  
2 Only one dispensing fee is allowed for dispensing the quantity  
3 specified on the prescription.

4 C. The dispensed quantity of a prescribed drug must  
5 not exceed a three-month supply unless prior authorization is  
6 obtained by the pharmacist or dispensing physician.

7 D. An initial or refill prescription for a  
8 maintenance drug shall be dispensed in not less than a 30-day  
9 supply unless the pharmacy is using unit dose dispensing. No  
10 additional dispensing fee shall be paid until that quantity is  
11 used by the recipient.

12 E. Except as in item F, the dispensing fee billed by  
13 or paid to a particular pharmacy or dispensing physician for a  
14 maintenance drug for a recipient is limited to one fee per  
15 30-day supply.

16 F. More than one dispensing fee per calendar month  
17 for a maintenance drug for a recipient is allowed if the record  
18 kept by the pharmacist or dispensing physician documents that  
19 there is a significant chance of overdosage by the recipient if  
20 a larger quantity of drug is dispensed, and if the pharmacist or  
21 dispensing physician writes a statement of this reason on the  
22 prescription.

23 G. A refill of a prescription must be authorized by  
24 the practitioner. Refilled prescriptions must be documented in  
25 the prescription file, initialed by the pharmacist who refills  
26 the prescription, and approved by the practitioner as consistent  
27 with accepted pharmacy practice under Minnesota Statutes,  
28 chapters 151 and 152.

29 H. A generically equivalent drug as defined in  
30 Minnesota Statutes, section 151.21, subdivision 2, must be  
31 dispensed in place of the prescribed drug if:

32 (1) the generically equivalent drug is approved  
33 by the United States Food and Drug Administration and is also  
34 determined as therapeutically equivalent by the United States  
35 Food and Drug Administration; and

36 (2) in the professional judgment of the

1 pharmacist, the substituted drug is therapeutically equivalent  
2 to the prescribed drug; and

3 (3) the charge for the substituted generically  
4 equivalent drug does not exceed the charge for the drug  
5 originally prescribed.

6 However, a substitution must not be made if the  
7 practitioner has written in his or her own handwriting "Dispense  
8 as Written" or "DAW" on the prescription, as provided in the  
9 Minnesota Drug Selection Act, Minnesota Statutes, section  
10 151.21. The pharmacy must notify the recipient and the  
11 department when a generically equivalent drug is dispensed. The  
12 notice to the recipient may be given orally or by appropriate  
13 labeling on the prescription's container. The notice to the  
14 department must be by appropriate billing codes.

15 H I. Unless otherwise established by the legislature,  
16 the amount of the dispensing fee shall be set by the  
17 commissioner. The fee shall be the lower of the average  
18 dispensing fee set by third party payers in the state or the  
19 average fee determined by a cost of operation survey of pharmacy  
20 providers reduced by the yearly consumer price index (urban) for  
21 the Minneapolis-St. Paul area to the base year set by the  
22 legislature for other provider fees.

23 H J. The cost of delivering a drug is not a covered  
24 service.

25 Subp. 4. **Payment limitations; unit dose dispensing.** Drugs  
26 dispensed under unit dose dispensing in accordance with part  
27 6800.3750 shall be subject to the medical assistance payment  
28 limitations in items A to C.

29 A. Dispensing fees for drugs dispensed in unit dose  
30 packaging as specified in part 6800.3750 shall not be billed or  
31 paid more often than once per calendar month or when a minimum  
32 of 30 dosage units have been dispensed, whichever results in the  
33 lesser number of dispensing fees, regardless of the type of unit  
34 dose system used by the pharmacy or the number of times during  
35 the month that the pharmacist dispenses the drug. If the  
36 recipient's drug supply is dispensed in small increments during

1 the calendar month, the pharmacy must keep a written record of  
2 each dispensing act that shows the date, National Drug Code, and  
3 the quantity of the drug dispensed.

4           B. Only one dispensing fee per calendar month shall  
5 be billed or paid for each maintenance drug regardless of the  
6 type of unit dose system used by the pharmacy or the number of  
7 times during the month that the pharmacist dispenses the drug.  
8 If the recipient's drug supply is dispensed in small increments  
9 during the month, the pharmacy must keep a written record of  
10 each dispensing act that shows the date, National Drug Code, and  
11 the quantity of drug dispensed.

12           C. The date of dispensing must be reported as the  
13 date of service on the claim to the department except when the  
14 recipient's drug supply is dispensed in small increments during  
15 the month. For this exception, the last dispensing date of the  
16 calendar month must be reported on the claim to the department  
17 as the date of service. In the case of an exception, the  
18 quantity of drug dispensed must be reported as the cumulative  
19 total dispensed during the month or a minimum amount as required  
20 in item A, whichever results in the lesser number of dispensing  
21 fees.

22           Subp. 5. Return of drugs. Drugs dispensed in unit dose  
23 packaging under part 6800.3750, subpart 2, shall be returned to  
24 a pharmacy as specified in items A to C when the recipient no  
25 longer uses the drug.

26           A. A provider of pharmacy services using a unit dose  
27 system must comply with part 6800.2700.

28           B. A long-term care facility must return unused drugs  
29 dispensed in unit dose packaging to the provider that dispensed  
30 the drugs.

31           C. The provider that receives the returned drugs must  
32 repay medical assistance the amount billed to the department as  
33 the cost of the drug.

34           Subp. 6. Billing procedure. Providers of pharmacy  
35 services shall bill the department their usual and customary  
36 charge for the dispensed drug. All pharmacy claims submitted to

1 the department must identify the National Drug Code printed on  
2 the container from which the prescription is actually filled.  
3 If a National Drug Code is not printed on the manufacturer's  
4 container from which the prescription is filled, the claim must  
5 name the code required by the department under the drug  
6 formulary, or identify either the generic or brand name of the  
7 drug. Except as provided in subpart 4, item C, the date  
8 reported as the date dispensed must be the date on which the  
9 quantity reported on the billing claim was dispensed.

10 Subp. 7. **Maximum payment for prescribed drugs.** The  
11 maximum payment for a prescribed drug or compounded prescription  
12 under the medical assistance program must be the lowest of the  
13 following rates:

14 A. The maximum allowable cost for a drug established  
15 by the department or the Health Care Financing Administration of  
16 the United States Department of Health and Human Services plus a  
17 dispensing fee.

18 B. The actual acquisition cost for a drug plus a  
19 dispensing fee.

20 C. The pharmacy's usual and customary charge.

17 42, section 405.1123 or a physician visit in an intermediate  
18 care facility required by Code of Federal Regulations, title 42,

24 authorized and is professionally responsible for the physician  
25 services performed by the physician's employee and has reviewed  
26 and signed the record of the service no more than five days  
27 after the service was performed.

28 Subp. 4. **Payment limitation on medically directed weight**

3 evaluation of the effect of antipsychotic or antidepressant  
4 drugs.

5 Subp. 6. Payment limitation on podiatry service furnished  
6 by a physician. The limitations and exclusions applicable to  
7 podiatry services under part 9505.0350, subparts 2 and 3, apply

10 facilities. Payment for a physician visit to a long-term care  
11 facility is limited to one-per-month once every 30 days per

30 department. This subpart shall not apply to a provider's visit  
31 to provide an emergency service on the same day within the same  
32 long-term care facility if the emergency service could not have

34 the provider visits other recipients in the same facility on the
