

1 Pollution Control Agency

2

3 Adopted Rules Relating to Hazardous Waste

4

5 Rules as Adopted

6 7001.0650 INTERIM STATUS.

7 Subpart 1. and 2. [Unchanged.]

8 Subp. 3. Notification of failure to qualify for interim
9 status. If the director determines that an owner or operator of
10 an existing hazardous waste facility does not qualify for
11 interim status under subpart 1, the director shall notify the
12 owner or operator in writing of the failure to qualify for
13 interim status and the reason for the failure. The notification
14 must also include a statement that the owner or operator is
15 subject to agency remedies for violation of agency rules,
16 including the requirement of part 7001.0520 to obtain a permit.
17 The owner or operator has 30 days from receipt to respond to the
18 notification and to explain or cure the alleged deficiency in
19 the Part A application. If after such notification and
20 opportunity for response, the director determines that the
21 application is deficient, appropriate enforcement action may be
22 taken.

23 Subp. 4. to 7. [Unchanged.]

24 7045.0135 LISTS OF HAZARDOUS WASTES.

25 Subpart 1. to 3. [Unchanged.]

26 Subp. 4. Discarded commercial chemical products,
27 off-specification species, containers, and spill residues. The
28 following materials or items are hazardous wastes if and when
29 they are discarded or intended to be discarded:

30 A. to D. [Unchanged.]

31 E. the commercial chemical products or manufacturing
32 chemical intermediates, or off-specification commercial chemical
33 products or manufacturing chemical intermediates referred to in
34 items A to D and listed in the following table, are identified
35 as acute hazardous wastes (H) and are subject to the small

1 quantity exclusion defined in part 7045.0219, subpart 1, items B
 2 and C. The primary hazardous properties of these materials have
 3 been indicated by the letters T (toxicity), and R (reactivity).
 4 Absence of a letter indicates that the compound is listed only
 5 for acute toxicity. These wastes and their corresponding
 6 hazardous waste numbers are listed as follows:

7 Hazardous Wastes from Commercial Chemical Products

8 Hazardous		Hazard
9 Waste No.	Substance	Code
10		
11 P023	Acetaldehyde, chloro-	
12 to		[Unchanged.]
13 P066	Acetimidic acid, N-[(methylcarbamoyl)oxy]	
14	thio-, methyl ester	
15 P001	3-(alpha-Acetylbenzyl)-4-hydroxycoumarin	
16	and salts when present at concentrations	
17	greater than 0.3 percent	
18 P002	1-Acetyl-2-thiourea	
19 to		[Unchanged.]
20 P120	Vanadium(V) oxide	
21 P001	Warfarin when present at concentrations	
22	greater than 0.3 percent	
23 P121	Zinc cyanide	
24 P122	Zinc phosphide when present at	
25	concentrations greater than 10 percent	(R,T)
26		

27 F. The commercial chemical products or manufacturing
 28 chemical intermediates, or off-specification commercial chemical
 29 products referred to in items A, B, and D, and listed in the
 30 following table are identified as toxic wastes (T) unless
 31 otherwise designated and are subject to the small quantity
 32 exclusion defined in part 7045.0219, subpart 1, item A. The
 33 primary hazardous properties of these materials have been
 34 indicated by the letters T (toxicity), R (reactivity), I
 35 (ignitability), and C (corrosivity). Absence of a letter
 36 indicates that the compound is listed only for toxicity. These
 37 wastes and their corresponding hazardous waste numbers are
 38 listed as follows:

39 Hazardous Wastes from Commercial Chemical Products

40 Hazardous		Hazard
41 Waste No.	Substance	Code
42		
43 U001	Acetaldehyde	(I)
44 to		[Unchanged.]
45 U003	Acetonitrile	(I,T)
46 U248	3-(alpha-Acetylbenzyl)-4-hydroxycoumarin	
47	and salts when present at concentrations of	
48	0.3 percent or less *	
49 U004	Acetophenone	
50 to		[Unchanged.]
51 U043	Vinyl chloride	
52 U248	Warfarin when present at concentrations	

- 1 of 0.3 percent or less
- 2 U239 Xylene (I)
- 3 U200 Yohimban-16-carboxylic acid, 11,
- 4 17-di-methoxy-18-[(3,4,5-trimethoxy-
- 5 benzoyl)oxy]-, methyl ester,
- 6 U249 Zinc phosphide when present at
- 7 concentrations of 10 percent or less
- 8
- 9 Subp. 5. [Unchanged.]

10 7045.0214 EVALUATION OF WASTES.

11 Subpart 1. and 2. [Unchanged.]

12 Subp. 3. Wastes generated by treatment, storage, or
13 disposal. Wastes generated by treatment, storage, or disposal
14 of hazardous waste are as follows:

15 A. Except as provided in item B, any waste generated
16 from the treatment, storage, or disposal of hazardous waste,
17 including any sludge, spill residue, ash, emission control dust
18 or leachate, but not including precipitation run-off, is a
19 hazardous waste if it meets the criteria of subpart 2 or if it
20 is derived from a waste that is listed in part 7045.0135.

21 B. Waste pickle liquor sludge generated by lime
22 stabilization of spent pickle liquor from the iron and steel
23 industry, standard industrial classification codes 331 and 332,
24 is not a hazardous waste unless it exhibits one or more
25 characteristics of hazardous waste under part 7045.0131.
