3 Adopted Permanent Rules Relating to Air Quality Permit Fees

4

5 Rules as Adopted

6 7002.0100 AIR QUALITY PERMIT FEE SCHEDULE.

7 Subpart 1. [Unchanged.]

8 Subp. 2. **Application fee.** A person making application for
9 an air emission facility permit or an indirect source permit
10 shall submit with the application an application fee of \$80.

11 Subp. 3. **Basic processing fees.** The permittee shall pay
12 the following basic processing fees for the applicable permit
13 activity:

14 A. \$1,440 for the construction of an indirect source;

15 B. \$1,440 for the construction or reconstruction of a
16 major emission facility;

17 C. \$480 for the construction or reconstruction of an
18 emission facility other than a major emission facility;

19 D. \$480 for the modification of a major emission
20 facility or installation of air pollution control equipment at a
21 major emission facility;

22 E. \$160 for the modification of an emission facility
23 other than a major emission facility or installation of air
24 pollution control equipment at an emission facility other than a
25 major emission facility;

26 F. \$720 for the reissuance of a major emission
27 facility permit; and

28 G. \$240 for the reissuance of an emission facility
29 permit other than a major emission facility.

30 For purposes of this subpart, activities as described in
31 items D and E that occur during the last year of the term of a
32 permit will be addressed along with the reissuance of the permit
33 for a new term. The agency shall waive the fee for items D and
34 E and only assess a reissuance fee and applicable additional
35 processing fees.

1 Subp. 4. Additional processing fees. In addition to the
2 basic processing fees required in subpart 3, the permittee shall
3 pay the following additional processing fees, if applicable:

4 A. \$800 for a major stationary source, as defined in
5 Code of Federal Regulations, title 40, section 51.18(j)(1)(iv),
6 as amended through June 25, 1982, located in a nonattainment
7 area;

8 B. \$240 for an emission facility that is subject to
9 the federal prevention of significant deterioration requirements
10 as established in Code of Federal Regulations, title 40, section
11 51.24;

12 C. \$80 for an emission facility that is subject to
13 the federal new source performance standards established in Code
14 of Federal Regulations, title 40, part 60;

15 D. \$240 for an emission facility that must apply best
16 available control technology as required under Code of Federal
17 Regulations, title 40, section 51.24;

18 E. \$400 for evaluation of air emissions containing
19 pollutants for which no ambient air quality standard has been
20 established under part 7005.0080 (state ambient air quality
21 standards) and which have the potential to be injurious to human
22 health;

23 F. \$240 for dispersion modeling review; and

24 G. \$240 for each performance test review.

25 Subp. 5. Annual fees. All persons required to obtain an
26 air emission facility permit shall pay the following applicable
27 annual fee:

28 A. \$1,040 for a major emission facility; or

29 B. \$240 for an emission facility other than a major
30 emission facility.

31 The agency shall not charge an annual fee for an emission
32 facility with potential emissions of a single pollutant of more
33 than 25 tons per year but less than 50 tons per year unless the
34 facility also discharges lead to the ambient air.

35 Subp. 6. [Unchanged.]
