27 the residence or place of employment is within the seven county
28 metropolitan area. The seven county metropolitan area includes
29 Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington
30 counties. If both the employee's residence and place of
31 employment are outside the seven county metropolitan area, the
32 allowable distance is 50 miles. If the employee requires
33 specialty services that are not available within the stated
34 mileage restriction, the managed care plan may refer the
35 employee to a provider outside of the stated mileage
36 restriction. If the employee is medically unable to travel to a

1 participating provider within the stated mileage restriction,
2 the managed care plan shall refer the employee to an available
3 nonparticipating provider to receive necessary treatment for the
4 injury.

5 G. The managed care plan must designate the
6 procedures for approval of services from a health care provider
7 outside the managed care plan according to part 5218.0500.

9 peer review and utilization review as specified in part
10 5218.0750.

11 I. The managed care plan must include a procedure for
12 internal dispute resolution according to part 5218.0700 and
13 Minnesota Statutes, section 176.1351, subdivision 2, clause (4),
14 including a method to resolve complaints by injured employees,
15 medical providers, and insurers.

16 J. The managed care plan must describe how employers
17 and insurers will be provided with information that will inform
18 employees of all choices of medical service providers within the
19 plan and how employees can gain access to those providers. The
20 plan must submit a proposed notice to employees, which may be
21 customized according to the needs of the employer, but which
22 must include the information in part 5218.0250.

23 K. The managed care plan must describe how aggressive
24 medical case management will be provided according to part
25 5218.0760 for injured employees, and a program for early return
26 to work and cooperative efforts by the employees, the employer,
27 and the managed care plan to promote workplace health and safety
28 consultative and other services.

32 (1) treatment parameters adopted by the
33 commissioner;

34 (2) maximum medical improvement;

35 (3) permanent partial disability rating;

36 (4) return to work and disability management;

1 (5) health care provider obligations in the
2 workers' compensation system; and

3 (6) other topics the managed care plan deems
4 necessary to obtain cost effective medical treatment and
5 appropriate return to work for an injured employee.

16 have not already been prescribed by the commissioner and that
17 are reasonably likely to be used in the treatment of workers'
18 compensation injuries. The managed care plan shall make the
19 standards available for review by the commissioner upon
20 request. All managed care plan health care providers and those
21 providing services under part 5218.0500 shall be governed by
22 these treatment standards and by the standards adopted by the
23 commissioner under Minnesota Statutes, section 176.83,
24 subdivision 5. A managed care plan may not prescribe treatment
25 standards that disallow, in all cases, treatment that is
26 permitted by the commissioner's standards. However, this item
27 does not require ongoing treatment in individual cases if the
28 treatment is not medically necessary, even though the maximum
29 amount of treatment permitted under any standard has not been
30 given.

31 N. The managed care plan must provide other
32 information as the commissioner considers necessary to determine
33 compliance with this chapter.

34 Subp. 2. **Notification; approval or denial.** Within 30 days
35 of receipt of an application the commissioner must notify an
36 applicant for certification of any additional information

1 required or modification that must be made. The commissioner

8 denial of certification by the commissioner may request in
9 writing, within 30 days of the date the denial is served and
10 filed, the initiation of a contested case proceeding under
11 Minnesota Statutes, chapter 14. Following receipt of the
12 administrative law judge's findings and recommendations, the
13 commissioner shall issue a final decision in accordance with
14 Minnesota Statutes, section 14.62. An appeal from the
15 commissioner's final decision and order may be taken to the
16 workers' compensation court of appeals pursuant to Minnesota
17 Statutes, sections 176.421 and 176.442.

33 choice within a reasonable time designated by the employer and
34 insurer to select the managed care plan that will manage the
35 employee's care. The employee must select a managed care plan

1 from those that have a contract with the insurer liable for the

17 Subp. 5. Coverage.

18 A. An employee who gives notice to an employer of a
 19 compensable personal injury under Minnesota Statutes, chapter
 20 176, on or after the effective date of the managed care plan
 21 contract with the insurer liable for the injury under Minnesota
 22 Statutes, chapter 176, shall receive medical services in the
 23 manner prescribed by the terms and conditions of the managed
 24 care plan contract. An employee may not be required to receive
 25 medical services under the managed care plan until the notice
 26 required by part 5218.0250 is given to the employee.

 28 ~~5218.0900 do not apply to an employee with a compensable injury~~

 30 ~~notice of the injury before the effective date of the managed~~
 31 ~~care plan contract, the employee may continue to treat with a~~
 32 ~~nonparticipating provider who has been treating the injury until~~
 33 ~~the employee requests a change of doctor. At that time, further~~
 34 ~~services shall be provided by the managed care plan according to~~
 35 ~~part 5218.0100, subpart 1, item F, subitems (2) and (3).~~

3 may elect to require an employee who has notified the employer
4 of a claimed workers' compensation injury to receive treatment
5 from a certified managed care plan before the employer accepts
6 or denies liability for the injury. In such cases, the employer
7 is liable for the cost of any treatment related to the claimed
8 personal injury that is given by a participating health care
9 provider before notice is given to the employee of a denial of
10 liability, even if the employer is later determined to be not
11 liable for the claimed injury. If liability is denied, the
12 employer cannot pursue reimbursement from the employee. This
13 item does not limit the employer's right to pursue any other
14 applicable subrogation or reimbursement rights it may have
15 against another entity.

16 D. The employee may receive treatment from any health
17 care provider chosen by the employee after a notice of denial of
18 liability has been given to the employee, or if the employer,
19 after notice of a claimed injury, does not require the employee
20 to receive treatment from a managed care plan prior to accepting
21 liability for a claimed injury. If the employer later accepts
22 liability or is determined by the commissioner, a compensation
23 judge, or an appellate court to be liable for the claimed
24 injury, the employer is responsible for the cost of all
25 reasonable and necessary medical treatment received by the
26 employee from the health care provider. If the employer admits
27 liability for the claimed injury within 14 days after receiving
28 notice of the injury, the employer may require that further
29 medical treatment be received through the managed care plan
30 unless the employee had a documented history of treatment with
31 the health care provider as described in part 5218.0500, before
32 the injury. If liability is admitted or determined later than
33 14 days after notice of the injury and the employee has been
34 receiving treatment from a nonparticipating provider under this
35 item, the employee is not required to receive further treatment
36 under the managed care plan, if the health care provider agrees

1 to comply with part 5218.0500, subpart 2.

2 Subp. 6. Termination of coverage. To ensure continuity of
 3 care, the managed care plan contract shall specify the manner in
 4 which an injured employee with a compensable injury will receive
 5 medical services when a managed care plan contract or a contract
 6 with a health care provider terminates. When a contract with a
 7 health care provider terminates, or when managed care plan
 8 coverage for an injured employee is being transferred from one
 9 managed care plan to another, the employee may continue to treat
 10 with the health care provider under the terminated contract
 11 until the employee requests a change of doctor. At that time
 12 further services shall be provided under the managed care plan
 13 in accordance with the procedures in part 5218.0100, subpart 1,
 14 item D, subitem (3), units (b) and (c). Services by providers
 15 who are not participating providers must be performed according
 16 to part 5218.0500.

17 5218.0250 NOTICE TO EMPLOYEE BY EMPLOYER.

 19 care plan is not required to receive services under a managed
 20 care plan until the employer gives the employee notice of items
 21 A to E. For employees enrolled after the effective date of this
 22 chapter, this individual notice must be given at the time of
 23 enrollment and. The notice must also be offered again to an
 24 employee when the employer receives notice of the an injury. In
 25 addition, the employer must post a notice of items A to E at a
 26 prominent location on the employer's premises. The posted
 27 notice shall remain posted as long as the employees are covered
 28 by the managed care plan. The posted and individual notices
 29 must include the information in items A to E:

30 A. that the employer has enrolled with the specified
 31 managed care plan to provide all necessary medical treatment for
 32 workers' compensation injuries ~~after-a-specified-date~~. An
 33 employee with an injury prior to enrollment ~~is-covered-only-if~~
 34 may continue to receive treatment from a nonparticipating
 35 provider until the employee changes doctors. The ~~specified-date~~

1 notice to employees must specify the effective date of the
 2 managed care plan, which must be later than the date the notice
 3 is posted;

13 the injury. Employees with a history of treatment that does not
14 meet this standard may request approval from the managed care

22 treatment. The managed care plan or insurer must treat the
23 medical records as private data. If the employee requests a

7 resolution, and billing and reporting procedures; and

8 B. agree to refer the covered employee to the managed
9 care plan for specialized services, including without limitation
10 physical therapy and diagnostic testing, except for minor
11 diagnostic testing that may be done in the nonparticipating
12 provider's office. The nonparticipating provider referring the
13 employee may continue to act as the primary treating provider.

14 Subp. 3. **Disputes.** Any dispute under subpart 1 or 2
15 relating to the employee's selection of a health care provider
16 who is not a managed care plan participating health care

18 dispute relating to a health care provider's compliance with the
19 managed care plan standards and procedures or treatment
20 standards adopted by the commissioner shall be resolved
21 according to part 5218.0700. A health care provider who has
22 been informed that an injured employee is covered by a managed
23 care plan and who does not comply with the requirements in

25 accordance with the procedures in part 5218.0700 and sanctions
26 under Minnesota Statutes, section 176.103.

28 Billings for medical services under a managed care plan
29 shall be submitted in the form and format as prescribed in part
30 5221.0700, subpart 2. The payment by the insurer or the managed
31 care plan to participating and nonparticipating health care
32 providers for medical services shall be according to the
33 timeframes and procedures in part 5221.0600, subpart 3, and
34 Minnesota Statutes, section 176.135, subdivision 6, and shall be
35 the amount allowed under part 5221.0500 and Minnesota Statutes,

1 section 176.136, subdivisions 1a and 1b. A managed care plan
2 may not require a health care provider to accept a lesser
3 payment or pay a fee as a condition of receiving referrals from
4 or becoming a participating provider in the plan.

6 Disputes that arise ~~between-the-employee-and-the~~ on an
7 issue related to managed care plan-related-to-the-delivery-of

12 within 30 days of receipt of a written request. If the dispute
13 cannot be resolved, the parties may proceed under Minnesota
14 Statutes, sections 176.106 and 176.305 or 176.2615.

15 5218.0750 UTILIZATION REVIEW AND PEER REVIEW.

16 Subpart 1. Peer review. The managed care plan must
17 implement a system for peer review to improve patient care and
18 cost effectiveness of treatment. Peer review must include at
19 least one health care provider of the same discipline being
20 reviewed. The peer review must be designed to evaluate the
21 quality of care given by a health care provider to a patient or
22 patients. The plan must describe in its application for
23 certification how the providers will be selected for review, the
24 nature of the review, and how the results will be used.

25 Subp. 2. Utilization review. The managed care
26 organization must implement a program for utilization review.
27 The program must include the collection, review, and analysis of
28 group data to improve overall quality of care and efficient use
29 of resources. In its application for certification, the managed
30 care plan must specify the data that will be collected, how the

6 communication between the employee, employer, insurer, health
7 care provider, managed care plan, and any assigned qualified
8 rehabilitation consultant to achieve these goals. The managed

12 Subp. 2. **Qualifications of medical case manager.** Case
13 management for an employee covered by a managed care plan must
14 be provided by a licensed or registered health care

18 Subpart 1. **Audits.** The commissioner shall monitor and
19 conduct periodic audits and special examinations of the managed
20 care plan as necessary to ensure compliance with the managed
21 care plan certification and performance requirements.

22 Subp. 2. **Records.**

23 A. All records of the managed care plan and its
24 participating health care providers relevant to determining
25 compliance with parts 5218.0010 to 5218.0900 and Minnesota
26 Statutes, section 176.1351, shall be disclosed within a
27 reasonable time after request by the commissioner. Records must
28 be legible and cannot be kept in a coded or semicoded manner
29 unless a legend is provided for the codes.

30 B. The release of records filed with the commissioner
31 is subject to Minnesota Statutes, sections 13.37, 145.61 to
32 145.67, 176.231, subdivisions 8 and 9, 176.234, and 176.138. If
33 a managed care plan believes that portions of its application
34 are nonpublic trade secret data under Minnesota Statutes,
35 section 13.37, subdivisions 2 and 3, the plan's application must

1 clearly identify the portions of the application it identifies
2 as trade secret in a separate appendix or appendices.

3 The plan must also submit with the application an analysis
4 of how each section of the appendix it has characterized as
5 trade secret satisfies each of the three parts of the statutory
6 definition of trade secret under Minnesota Statutes, section
7 13.37, subdivision 2. Absent a clear indication to the
8 contrary, a written opinion submitted by an attorney identifying
9 and analyzing portions of the application as meeting the
10 statutory requirements for a trade secret under Minnesota
11 Statutes, section 13.37, subdivision 2, shall be considered
12 prima facie showing of a trade secret.

14 Subpart 1. **Complaints; investigation.** Complaints
15 pertaining to violations of parts 5218.0010 to 5218.0900 or
16 Minnesota Statutes, section 176.1351, by the managed care plan
17 shall be directed in writing to the commissioner. On receipt of
18 a written complaint, or after monitoring the managed care plan
19 operations, the department shall investigate the alleged
20 violation. The investigation may include, but shall not be
21 limited to, request for and review of pertinent managed care
22 plan records. If the investigation reveals reasonable cause to
23 believe that there has been a violation warranting suspension or
24 revocation of certification, the commissioner shall initiate a
25 contested case proceeding under Minnesota Statutes, chapter 14.

26 Subp. 2. **Criteria.** Under Minnesota Statutes, section
27 176.1351, subdivision 5, the certification of a managed care

12 Statutes, section 256B.0644; or

13 F. the managed care plan is formed, owned, or
14 operated by an insurer.

15 Subp. 3. Effects. No employee is covered by a contract
16 between a managed care plan and insurer if the managed care
17 plan's certification is revoked. The managed care plan may
18 reapply for certification as specified in the order of
19 revocation. Upon suspension of certification, the managed care
20 plan may continue to provide services under contracts in effect
21 if the commissioner determines injured employees will continue
22 to receive necessary medical services under Minnesota Statutes,
23 section 176.135.
