3 Adopted Permanent Rules Relating to Payment of Recurring Costs
4 of Emergency 911 Telephone Systems

5

6 Rules as Adopted

7 1215.1400 FUNDING ELIGIBILITY; PAYMENT OF RECURRING COSTS.

8 [For text of subpart 1, see M.R.]

9 Subp. 2. Costs to be paid by state. The following
10 recurring costs shall be paid by the state:

11 A. The recurring costs associated with trunks and
12 dial access trunk equipment necessary to provide the minimum
13 grade of service as defined in part 1215.0800, subpart 1.
14 Additionally, in those exchange areas where the minimum grade of
15 service can be achieved with only one trunk due to extremely low
16 population density, a second trunk, or a backup means of
17 completing the 911 call if the first trunk is busy or
18 inoperative, is eligible for state payment.

19 B. The recurring equipment and trunking costs
20 associated with providing selective routing service to connected
21 PSAPs from all telephone exchange central offices that are
22 already connected to those PSAPs, or for all telephone exchange
23 central offices that, without selective routing, would generate
24 at least five redirected 911 calls per day.

25 [For text of subps 3 to 5, see M.R.]
