

1 **Environmental Quality Board**

2 **Adopted Permanent Rules Relating to Animal Feedlots**

3 **4410.4300 MANDATORY EAW CATEGORIES.**

4 [For text of subps 1 to 28, see M.R.]

5 Subp. 29. **Animal feedlots.** The PCA is the RGU for the types of projects listed in
6 items A and B unless the county will issue the feedlot permit, in which case the county
7 is the RGU. However, the county is not the RGU prior to January 1, 2001.

8 A. For the construction of an animal feedlot facility with a capacity of 1,000 animal
9 units or more or the expansion of an existing facility by 1,000 animal units or more if the
10 facility is not in an area listed in item B.

11 B. For the construction of an animal feedlot facility of more than 500 animal units
12 or expansion of a an existing animal feedlot which facility by more than 500 animal
13 units if the facility is located wholly or partially in any of the following sensitive
14 locations: shoreland; a delineated flood plain, except that in the flood plain of the Red
15 River of the North the sensitive area includes only land within 1,000 feet of the ordinary
16 high water mark; a state or federally designated wild and scenic river district; the
17 Minnesota River Project Riverbend area; the Mississippi headwaters area; or an area
18 within a wellhead protection drinking water supply management area designated
19 delineated under chapter 4720, where the aquifer is identified in the wellhead protection
20 plan as vulnerable to contamination; or within 1,000 feet of a known sinkhole, cave,
21 resurgent spring, disappearing spring, Karst window, blind valley, or dry valley.

22 The provisions of part 4410.1000, subpart 4, regarding connected actions do not apply
23 to animal feedlots. The provisions of part 4410.1000, subpart 4, regarding phased actions
24 apply to feedlots.

25 With the agreement of the proposers, the RGU may prepare a single EAW to
26 collectively review individual sites of a multisite feedlot proposal.

4410.4300

Approved by Revisor

4410.4600 EXEMPTIONS.

[For text of subps 1 to 18, see M.R.]

Subp. 19. **Animal feedlots.** The ~~following~~ activities in items A to C are exempt.

A. The construction of an animal feedlot facility of less than 300 animal units or the expansion of an existing facility by less than 100 animal units, no part of either of which is located within a shoreland area; delineated flood plain; state or federally designated wild and scenic rivers district; the Minnesota River Project Riverbend area; the Mississippi headwaters area; an area within a wellhead protection drinking water supply management area designated under chapter 4720; where the aquifer is identified in the wellhead protection plan as vulnerable to contamination; or 1,000 feet of a known sinkhole; and, cave, resurgent spring, disappearing spring, Karst window, blind valley, or dry valley.

B. The construction or expansion of an animal feedlot facility with a resulting capacity of less than 50 animal units regardless of location.

C. The modification without expansion of capacity of any feedlot of no more than 300 animal units if the modification is necessary to secure a Minnesota feedlot permit.
