ADMINISTRATIVE  
HEARINGS

3 **7001.0650 INTERIM STATUS.**

4 [For text of subps 1 to 4, see M.R.]

5 Subp. 5. **Changes during interim status.** Except as provided in item F, an owner or  
6 operator who has interim status may conduct the activities prescribed in items A to F.

7 [For text of items A to E, see M.R.]

8 F. Except as specifically allowed under this item, changes listed under items A to E  
9 may not be made if they amount to reconstruction of the hazardous waste management  
10 facility. Reconstruction occurs when the capital investment in the changes to the facility  
11 exceeds 50 percent of the capital cost of a comparable entirely new hazardous waste  
12 management facility. If all other requirements are met, the following changes may be  
13 made even if they amount to reconstruction:

14 [For text of subitems (1) to (4), see M.R.]

15 (5) changes necessary to comply with an interim status corrective action order  
16 issued by EPA under RCRA section 3008(h) or other federal authority, by an authorized  
17 state under comparable state authority, or by a court in judicial proceeding brought by  
18 EPA or an authorized state, provided that the changes are limited to the treatment,  
19 storage, or disposal of solid waste from releases that originate within the boundary of  
20 the facility;

21 (6) changes to treat or store, in tanks or containers, hazardous wastes subject to  
22 land disposal restrictions imposed by parts 7045.1300 to 7045.1380, provided that the  
23 changes are made solely for the purpose of complying with parts 7045.1300 to 7045.1380  
24 or RCRA section 3004; and

25 (7) changes necessary to comply with standards under part 7011.7410, National  
26 Emission Standards for Hazardous Air Pollutants from Hazardous Waste Combustors.

1 [For text of subps 6 and 7, see M.R.]

2 **7001.0730 MODIFICATION OF PERMITS; REVOCATION AND REISSUANCE OF**  
3 **PERMITS.**

4 [For text of subps 1 to 5, see M.R.]

5 Subp. 6. **Combustion facility changes.** Combustion facility owners or operators must  
6 comply with the notification of intent requirements of part 7011.7410 before requesting a  
7 permit modification in order to make technology changes needed to meet standards in  
8 part 7011.7410.

9 **7002.0075 NOTIFICATION OF ERROR.**

10 An owner or operator who thinks that the assessed annual emission fee is in error  
11 shall provide a written explanation of the person's position to the commissioner within  
12 60 days of receipt of the invoice or no later than June 30 of the year in which the fee was  
13 assessed, whichever is later. An owner or operator who thinks that an error exists in  
14 emissions inventory data shall submit an explanation in accordance with part 7019.3000,  
15 subpart 2. The assessed fee shall be paid as required in part 7002.0065. The  
16 commissioner shall, within 60 days of the timely receipt of the person's written  
17 explanation, either provide a written explanation of why the fee was not in error and  
18 shall not be refunded, or, if the commissioner finds that the assessed fee was in error,  
19 the overpayment shall be refunded to the person or credited to the person's account.

20 **7005.0100 DEFINITIONS.**

21 [For text of subps 1 to 42c, see M.R.]

22 Subp. 45. **Volatile organic compound (VOC).** "Volatile organic compound (VOC)"  
23 means any organic compound which participates in atmospheric photochemical  
24 reactions. This includes any organic compound other than the following compounds:

25 [For text of items A to RR, see M.R.]

26 SS. methyl acetate;

1 TT. any other compound listed in table 1, as amended, of the United States  
2 Environmental Protection Agency's Recommended Policy on Control of Volatile  
3 Organic Compounds, Federal Register, volume 42, page 35314, July 8, 1977; or

4 UU. any other compound determined by the United States Environmental  
5 Protection Agency to be negligibly photochemically reactive, upon publication of the  
6 determination in the Federal Register.

7 **7007.0200 SOURCES REQUIRED OR ALLOWED TO OBTAIN A PART 70 PERMIT.**

8 [For text of subpart 1, see M.R.]

9 Subp. 2. **Major sources.** Any "major source," which means any stationary source that  
10 is described in item A, B, or C, must obtain a permit under this part.

11 [For text of item A, see M.R.]

12 B. A major stationary source of air pollutants, as defined in section 302 of the act  
13 (General Provisions; Definitions), that directly emits or has the potential to emit, 100  
14 tons per year or more of any air pollutant (including any major source of fugitive  
15 emissions of any such pollutant, as determined by rule by the administrator). The  
16 fugitive emissions of a stationary source shall not be considered in determining whether  
17 it is a major stationary source for the purposes of section 302(j) of the act, unless the  
18 stationary source belongs to one of the following categories of stationary sources:

19 [For text of subitems (1) to (26), see M.R.]

20 (27) all other stationary source categories regulated by a standard promulgated  
21 under section 111 or 112 of the act.

22 [For text of item C, see M.R.]

23 [For text of subps 3 to 6, see M.R.]

24 **7007.0300 SOURCES NOT REQUIRED TO OBTAIN A PERMIT.**

25 Subpart 1. **No permit required.** The following stationary sources are not required to  
26 obtain a permit under parts 7007.0100 to 7007.1850:

7007.0300

1 [For text of items A to E, see M.R.]

2 F. notwithstanding parts 7007.0200 and 7007.0250, any stationary source that  
3 would be required to obtain a permit solely because it is subject to one or more new  
4 source performance standards under Code of Federal Regulations, title 40, part 60, and  
5 that is subject only to the notification and record-keeping provisions of the applicable  
6 standards.

7 **7007.0950 EPA REVIEW AND OBJECTION.**

8 **Subpart 1. Review by EPA.**

9 A. The agency shall provide to the administrator a copy of the following  
10 documents, unless the administrator agrees to accept a summary of the documents:

11 (1) for part 70 permits, each application for a permit or permit amendment, each  
12 proposed permit or permit amendment, and each final permit or permit amendment;  
13 and

14 (2) for state permits, each application for a permit, each draft permit, each final  
15 permit, each application for a major permit amendment described in part 7007.1500,  
16 subpart 1, item C or D, and the draft and final versions of each such major permit  
17 amendment.

18 B. In the case of a part 70 permit, either:

19 (1) the draft permit or permit amendment must be provided to the  
20 administrator at the beginning of the public comment period, and the proposed permit  
21 or permit amendment must be provided to the administrator after the conclusion of  
22 public comment; or

23 (2) a permit or permit amendment that is identified as both a draft and a  
24 proposed permit or permit amendment may be provided to the administrator at the  
25 beginning of the public comment period, subject to the limitations of subpart 2. This

1 document shall be clearly identified as a draft/proposed permit or permit amendment.  
2 The public notice for the draft/proposed permit or permit amendment shall state that  
3 the agency is seeking concurrent review of the permit or permit amendment, and that  
4 the 30-day public review period and the 45-day EPA review period will begin at the  
5 same time.

6 C. In the case of a state permit, the draft permit or permit amendment may be  
7 provided to the administrator at the same time the draft permit or permit amendment is  
8 offered for public comment.

9 Subp. 2. **EPA objection.**

10 A. In the case of a part 70 permit, and except as provided in item B, the agency  
11 shall not issue a permit or permit amendment if the administrator objects to its issuance  
12 in writing within 45 days of receipt of the proposed permit or permit amendment and  
13 any necessary supporting information.

14 B. In the case of a part 70 permit, when the administrator is provided with a  
15 draft/proposed permit or permit amendment at the beginning of the public comment  
16 period, the agency may issue the permit 45 days after the administrator's receipt of the  
17 draft/proposed permit or permit amendment and any necessary supporting  
18 information except as provided in subitem (1), (2), or (3).

19 (1) If the agency makes changes to the draft/proposed permit or permit  
20 amendment other than modifications that would meet the requirements for an  
21 administrative amendment under part 7007.1400, subpart 1, the agency shall provide a  
22 revised proposed permit or permit amendment to the administrator. The agency shall  
23 not issue the permit or permit amendment if the administrator objects to its issuance in  
24 writing within 45 days of receipt of the revised proposed permit or permit amendment  
25 and any necessary supporting information.

26 (2) If, within 45 days of receipt of the draft/proposed permit or permit

1 amendment the administrator notifies the agency in writing that the administrator seeks  
2 additional time for review, the agency shall not issue the permit or permit amendment if  
3 the administrator objects to its issuance in writing within 45 days of the conclusion of  
4 the public comment period.

5 (3) If the agency receives from the public any adverse comments on any  
6 applicable requirement of the permit during the 30-day comment period, the agency  
7 shall provide the comments to the administrator. The agency shall not issue the permit  
8 or permit amendment if the administrator objects to its issuance in writing within 45  
9 days of receipt of the comments and, if applicable, the revised proposed permit or  
10 permit amendment and any necessary supporting information.

11 C. In the case of a state permit, the agency shall not issue a permit, or an  
12 amendment for which EPA review is provided under subpart 1, if the administrator  
13 objects to its issuance in writing within 30 days of receipt of the draft permit or  
14 amendment and any necessary supporting information.

15 [For text of subps 3 and 4, see M.R.]

16 **7007.1110 REGISTRATION PERMIT GENERAL REQUIREMENTS.**

17 [For text of subpart 1, see M.R.]

18 **Subp. 2. Stationary sources that may not obtain a registration permit.**

19 [For text of items A and B, see M.R.]

20 C. A stationary source may not obtain a registration permit if it is subject to a new  
21 source performance standard except when the stationary source is subject only to the  
22 notification and record-keeping requirements of that standard, or when the standard is  
23 one of the following:

24 [For text of subitems (1) to (11), see M.R.]

25 [For text of subps 3 to 15, see M.R.]

1 Subp. 15a. **Relocation of stationary source issued a registration permit.** This subpart  
2 applies only to a stationary source that has been issued a registration permit under parts  
3 7007.1110 to 7007.1130, and that:

4 A. is relocating within or to an area that is classified as attainment with respect to  
5 the National Ambient Air Quality Standards;

6 B. does not trigger the need for air dispersion modeling for the relocated source;  
7 and

8 C. will qualify for the same type of registration permit at the new location. Prior to  
9 a change in the location of a stationary source that meets the criteria in this subpart, the  
10 owner or operator must provide advance written notice to the commissioner, providing  
11 the exact location where the source will operate. If the commissioner determines that the  
12 new owner or operator meets the requirements of parts 7007.1110 to 7007.1130 for  
13 registration permit issuance, then the commissioner shall issue the registration permit  
14 for the new location. Issuance of the registration permit for the new location voids and  
15 supersedes the registration permit for the previous location.

16 [For text of subps 16 to 22, see M.R.]

17 **7007.1130 REGISTRATION PERMIT OPTION D.**

18 [For text of subparts 1 to 3a, see M.R.]

19 Subp. 4. **Calculation of actual emissions.** The owner or operator of a stationary  
20 source may use a calculation worksheet provided by the commissioner for calculating  
21 actual emissions under this part, or may use the calculation methods under items A to  
22 E. The owner or operator must calculate actual emissions for each emissions unit, except  
23 that similar emissions units may be aggregated for emission calculation purposes. The  
24 owner or operator of a stationary source shall use the calculation method in item B  
25 instead of the calculation method in item A if the data described in item B are available  
26 for the stationary source. The alternative methods described in items C, D, and E may be

1 used by the owner or operator without advance notification to the commissioner. The  
2 commissioner shall reject data submitted using the methods described in items B to E if  
3 the conditions set forth for the method are not fully met. To prevent double counting of  
4 emissions, the owner or operator must select one calculation method under this subpart  
5 for each emissions unit at the stationary source. Fugitive dust emissions must be  
6 included in the calculations under this subpart only if the stationary source is in a  
7 category listed in part 7007.0200, subpart 2, item B, subitems (1) to (27).

8 [For text of items A and B, see M.R.]

9 C. Emission factors from performance tests may be used for the calculation of  
10 actual emissions, provided that the performance tests met all the requirements of parts  
11 7017.2001 to 7017.2060, and all other applicable state rules and federal regulations  
12 governing performance tests. The owner or operator of a stationary source that uses an  
13 emission factor developed from a performance test shall use the calculation method  
14 under item A.

15 [For text of items D and E, see M.R.]

16 [For text of subps 5 and 6, see M.R.]

17 **7007.1300 INSIGNIFICANT ACTIVITIES LIST.**

18 [For text of subps 1 and 2, see M.R.]

19 Subp. 3. **Insignificant activities required to be listed.** The activities described in this  
20 subpart must be listed in a permit application, and calculation of emissions from these  
21 activities shall be provided if required by the agency, under part 7007.0500, subpart 2,  
22 item C, subitem (2). If emissions units listed in this subpart are subject to additional  
23 requirements under section 114(a)(3) of the act (Monitoring Requirements) or section  
24 112 of the act (Hazardous Air Pollutants), or if part of a title I modification, or if  
25 accounted for, make a stationary source subject to a part 70 permit, emissions from the  
26 emissions units must be calculated in the permit application.

1 [For text of items A to C, see M.R.]

2 D. Processing operations: open tumblers with a batch capacity of 1,000 pounds or  
3 less.

4 [For text of items E to I, see M.R.]

5 J. Fugitive dust emissions from unpaved entrance roads and parking lots, except  
6 that a stationary source applying for an Option D registration permit under part  
7 7007.1130 must include fugitive dust emissions in calculations when required under  
8 part 7007.1130, subpart 4.

9 [For text of item K, see M.R.]

10 [For text of subps 4 and 5, see M.R.]

11 **7008.4000 CONDITIONALLY INSIGNIFICANT ACTIVITIES.**

12 If operated in compliance with this part and parts 7008.4100 and 7008.4110, the  
13 activities and operation of the emissions units listed in parts 7008.4100 and 7008.4110 are  
14 insignificant activities for purposes of parts 7007.0100 to 7007.1850. Listing in part  
15 7008.4100 or 7008.4110 has no effect on any other law, including laws enforced by the  
16 agency other than parts 7007.0100 to 7007.1850, to which the activity may be subject.

17 The activities described in parts 7008.4100 and 7008.4110 must be listed in a permit  
18 application, and calculation of emissions from these activities shall be provided if  
19 required by the agency, under part 7007.0500, subpart 2, item C, subitem (2). If  
20 emissions units listed in part 7008.4100 or 7008.4110 are subject to additional  
21 requirements under section 114(a)(3) of the act (Monitoring Requirements) or section  
22 112 of the act (Hazardous Air Pollutants), or if part of a title I modification, or, if  
23 accounted for, make a stationary source subject to a part 70 permit, emissions from the  
24 emissions units must be calculated in the permit application.

25 **7008.4110 CONDITIONALLY INSIGNIFICANT PM and PM10 EMITTING**  
26 **OPERATIONS.**

7008.4110

1 Subpart 1. **Applicability.** This part applies to any stationary source claiming  
2 particulate matter (PM) or particulate matter of less than ten microns (PM10) venting  
3 equipment as a conditionally insignificant activity.

4 Subp. 2. **Requirements.** Emissions from equipment venting PM or PM10 inside a  
5 building, for example: buffing, polishing, carving, cutting, drilling, machining, routing,  
6 sanding, sawing, surface grinding, or turning equipment, must be:

7 A. filtered through an air cleaning system; and

8 B. vented inside of the building 100 percent of the time.

9 **7011.0913 HOT MIX ASPHALT PLANT MATERIALS, FUELS, AND ADDITIVES**  
10 **OPERATING REQUIREMENTS.**

11 [For text of subpart 1, see M.R.]

15 propane; gasoline, kerosene, diesel fuel, jet fuel, and fuel oils (No. 1, No. 2, No. 3, No. 4,  
16 No. 5, No. 6); on-specification used oil as defined in part 7045.0020, subpart 60a,  
17 provided that total halogens shall not exceed 1,000 parts per million; and virgin oil that  
18 is discarded before use and that otherwise meets the requirements of this item for  
19 on-specification used oil.

20 [For text of item C, see M.R.]

21 [For text of subps 3 to 5, see M.R.]

22 **7011.1260 CONTINUOUS MONITORING.**

23 [For text of subps 1 to 4a, see M.R.]

25 of a waste combustor with continuous monitors shall comply with the requirements of  
26 parts 7017.1002 to 7017.1220, except as provided in items A to I.

7011.1260

1 [For text of items A to C, see M.R.]

2 D. When continuous emissions data for sulfur dioxide removal efficiency, sulfur  
3 dioxide or nitrogen oxide emission rates, or carbon monoxide are not obtained because  
4 of monitor breakdowns, repairs, calibration checks, and zero and span adjustments,  
5 emission data calculations to determine compliance shall be made using the following  
6 methods:

7 (1) for sulfur dioxide removal efficiency or sulfur dioxide or nitrogen oxide  
8 emission concentrations, Code of Federal Regulations, title 40, part 60, Appendix A,  
9 Method 19, as amended, to provide valid emission data in order to meet the  
10 requirements of item B. Other monitoring systems or other data collection methods may  
11 be used as approved by the commissioner; and

12 (2) for carbon monoxide, Code of Federal Regulations, title 40, part 60,  
13 Appendix A, Method 10, as amended, to provide valid emission data in order to meet  
14 the requirements of item B. Other monitoring systems or other data collection methods  
15 may be used as approved by the commissioner.

16 [For text of items E to I, see M.R.]

17 [For text of subps 6 and 7, see M.R.]

18 **7011.1265 REQUIRED PERFORMANCE TESTS, METHODS, AND PROCEDURES.**

19 [For text of subps 1 to 10, see M.R.]

20 Subp. 11. **Exceedances of emission limits.** If accurate and valid data results of a  
21 performance test demonstrate an exceedance of a standard of performance as described  
22 in part 7011.1225 or in the waste combustor's air emission facility permit after normal  
23 start-up, the waste combustor owner or operator shall undertake the actions in items A  
24 to D.

25 A. The owner or operator shall immediately report the exceedance to the  
26 commissioner and shall comply with the applicable reporting provisions of part  
27 7007.0800, subpart 6.

1 B. The owner or operator shall undertake appropriate steps to return the waste  
2 combustor to compliance, and shall demonstrate compliance within 60 days of the initial  
3 report of the exceedance.

4 C. If the commissioner determines that compliance has not been achieved within  
5 60 days of the initial report of exceedance, the waste combustor shall be shut down.

6 D. If shutdown was required under item C, the waste combustor may be restarted  
7 under the conditions specified by the commissioner. The owner or operator must notify  
8 the commissioner in writing of the date on which the owner or operator plans to  
9 start-up and to begin compliance testing. Notification shall be at least ten days in  
10 advance of the compliance test date.
