

1 Board of Teaching

2 Adopted Permanent Rules Relating to Teachers of Science

3 Endorsement Licensure By Examination

4 8710.4770 TEACHERS OF SCIENCE ENDORSEMENT LICENSURE BY
5 EXAMINATION.

6 Subpart 1. Scope of practice. A teacher of science is
7 authorized to provide instruction in chemistry, earth and space
8 science, life science, or physics to students in grades 9
9 through 12. The science discipline that the teacher is
10 qualified to teach must be identified on the teacher's license.

11 Subp. 2. Qualifications for licensure by examination. A
12 candidate for science endorsement licensure by examination to
13 teach chemistry, earth and space science, life science, or
14 physics to students in grades 9 through 12 shall:

15 A. hold a Minnesota full professional license valid
16 for classroom teaching as described in part 8710.4750 for
17 chemistry, earth and space science, life science, or physics for
18 students in grades 9 through 12 or 7 through 12;

19 B. have completed three years of science teaching in
20 grades 7 through 12 or 9 through 12; and

21 C. provide evidence of passing the required PRAXIS II
22 science content exam for the desired science discipline of
23 licensure in chemistry, earth and space science, life science,
24 or physics.

25 Subp. 3. Professional license. A professional license
26 shall be issued and renewed according to the rule of the Board
27 of Teaching governing licensure.
