1.15 **1505.3070 LOADING AREAS.**

1.16 Subpart 1. **Containment for liquid bulk pesticide loading sites.** An area used for
1.17 the loading of liquid bulk pesticide into fixed storage containers, mobile containers, or
1.18 pesticide application equipment at a bulk pesticide storage facility must be provided
1.19 with a means of containment that is elevated above the surrounding area, constructed
1.20 of reinforced concrete or other commissioner-approved material, and designed and
1.21 constructed for the intended purpose. The means of containment must not contain a drain
1.22 and must comply with either item A or B.

1.23 [For text of item A, see M.R.]

1.24 B. A sloped surface that contains a sediment trap must comply with subitems
1.25 (1) to (3).

2.1 (1) The perimeter of the area must be curbed three inches in height to
2.2 prevent runoff and must form a liquid-tight containment area.

2.3 (2) The area must be sloped to a sediment trap used only for the temporary
2.4 collection of spilled or released pesticides. The sediment trap may not be greater than
2.5 two feet deep.

2.6 (3) The area must contain a minimum of 1,000 U.S. gallons.
