45.24 result of increased use by off-road vehicles
45.25 and are attributable to a border-to-border
45.26 touring route established by the commissioner.
45.27 This paragraph applies to roads that are
45.28 operated by a public road authority as defined
45.29 in Minnesota Statutes, section 160.02,

45.34 the needs result from additional traffic
45.35 generated by the border-to-border touring
45.36 route; and increased use attributable to a
46.1 border-to-border touring route has caused at
46.2 least a 50 percent increase in maintenance
46.3 costs for roads under the claimant's
46.4 jurisdiction, based on a ten-year maintenance
46.5 average. The commissioner may accept an
46.6 alternative to the ten-year maintenance average
46.7 if a jurisdiction does not have sufficient
46.8 maintenance records. The commissioner has
46.9 discretion to accept an alternative based on a
46.10 good-faith effort by the jurisdiction. Any
46.11 alternative should include baseline
46.12 maintenance costs for at least two years before
46.13 the year the route begins operating. The
46.14 ten-year maintenance average or any
46.15 alternative must be calculated from the years
46.16 immediately preceding the year the route
46.17 begins operating. Before reimbursing a claim
46.18 under this paragraph, the commissioner must
46.19 consider whether the claim is consistent with
46.20 claims made by other entities that administer
46.21 roads on the touring route, in terms of the
46.22 amount requested for reimbursement and the
46.23 frequency of claims made.
