(c) Programs with approved innovative initiatives that target services to high-risk populations, including homeless families and families living in homeless shelters and transitional housing, are exempt from the procedures in paragraph (b). This exemption does not apply to entire programs. The exemption applies only to approved innovative initiatives that target services to high-risk populations, including homeless families and families living in homeless shelters, transitional housing, and permanent supportive housing.

Subd. 3. Screening program. (a) A screening program must include at least the following components: developmental assessments, including virtual developmental screening for families who make the request based on their immunocompromised health status or other health conditions, hearing and vision screening or referral, immunization review and referral, the child’s height and weight, the date of the child’s most recent comprehensive vision examination, if any, identification of risk factors that may influence learning, an interview with the parent about the child, and referral for assessment, diagnosis, and treatment when potential needs are identified. The district and the person performing or supervising the screening must provide a parent or guardian with clear written notice that the parent or guardian may decline to answer questions or provide information about family circumstances that a child need not submit to the district screening program if the child’s health records indicate to the school that the child has received comparable developmental screening from the written notice, the district and the person performing or supervising the screening must convey the information in another manner. The notice must also inform the parent or guardian that the notice must state “Early childhood developmental screening helps a school district identify children who may benefit from district and community resources available to help in their development. Early childhood developmental screening includes a vision screening that helps detect potential eye problems but is not a substitute for a comprehensive eye exam.” The notice must clearly state that declining to answer questions or provide information does not prevent the child from being enrolled in kindergarten or first grade if all other screening components are met. If a parent or guardian is not able to read and comprehend the written notice, the district and the person performing or supervising the screening must convey the information in another manner. The notice must also inform the parent or guardian that a child need not submit to the district screening program if the child’s health records indicate to the school that the child has received comparable developmental screening performed within the preceding 365 days by a public or private health care organization or individual health care provider. The notice must be given to a parent or guardian at the time the district initially provides information to the parent or guardian about screening and must be given again at the screening location.

(b) All screening components shall be consistent with the standards of the state commissioner of health for early developmental screening programs. A developmental screening program must not provide laboratory tests or a physical examination to any child.
The district must request from the public or private health care organization or the individual health care provider the results of any laboratory test or physical examination within the 12 months preceding a child's scheduled screening. For the purposes of this section, "comprehensive vision examination" means a vision examination performed by an optometrist or ophthalmologist.

(c) If a child is without health coverage, the school district must refer the child to an appropriate health care provider.

(d) A board may offer additional components such as nutritional, physical and dental assessments, review of family circumstances that might affect development, blood pressure, laboratory tests, and health history.

(e) If a statement signed by the child's parent or guardian is submitted to the administrator or other person having general control and supervision of the school that the child has not been screened because of conscientiously held beliefs of the parent or guardian, the screening is not required.

Sec. 3. Minnesota Statutes 2022, section 121A.19, is amended to read:

121A.19 DEVELOPMENTAL SCREENING AID.

The amount of state aid for each child or student screened shall be: (1) $259 for a child screened at age three; (2) $525 for a child screened at age four; (3) $525 for a child screened at age five or six prior to kindergarten; and (4) $525 for a student screened within 30 days after first enrolling in a public school kindergarten if the student has not previously been screened according to the requirements of section 121A.17. If this amount of aid is insufficient, the district may permanently transfer from the general fund an amount that, when added to the aid, is sufficient. Developmental screening aid shall not be paid for any student who is screened more than 30 days after the first day of attendance at a public school kindergarten, except if a student transfers to another public school kindergarten within 30 days after first enrolling in a Minnesota public school kindergarten program. In this case, if the student has not been screened, the district to which the student transfers may receive developmental screening aid for screening that student when the screening is performed within 30 days of the transfer date.
