HEALTH CARE

Section 1. Minnesota Statutes 2022, section 252.27, subdivision 2a, is amended to read:

Subd. 2a. Contribution amount. (a) The natural or adoptive parents of a minor child, not including a child determined eligible for medical assistance without consideration of parental income under the Tax Equity and Fiscal Responsibility Act (TEFRA) option or a child accessing home and community-based waiver services, must contribute to the cost of services used by making monthly payments on a sliding scale based on income, unless the child is married or has been married, parental rights have been terminated, or the child’s adoption is subsidized according to chapter 259A or through title IV-E of the Social Security Act. The parental contribution is a partial or full payment for medical services provided for diagnostic, therapeutic, curing, treating, mitigating, rehabilitation, maintenance, and personal care services as defined in United States Code, title 26, section 213, needed by the child with a chronic illness or disability.

(b) For households with adjusted gross income equal to or greater than 275 percent of federal poverty guidelines, the parental contribution shall be computed by applying the following schedule of rates to the adjusted gross income of the natural or adoptive parents:

1. if the adjusted gross income is equal to or greater than 275 percent of federal poverty guidelines and less than or equal to 545 percent of federal poverty guidelines, the parental contribution shall be determined using a sliding fee scale established by the commissioner of human services which begins at 1.65 percent of adjusted gross income at 275 percent of federal poverty guidelines and increases to 4.5 percent of adjusted gross income for those with adjusted gross income up to 545 percent of federal poverty guidelines;

2. if the adjusted gross income is equal to or greater than 545 percent of federal poverty guidelines and less than or equal to 675 percent of federal poverty guidelines, the parental contribution shall be 4.5 percent of adjusted gross income;

3. if the adjusted gross income is equal to or greater than 675 percent of federal poverty guidelines and less than or equal to 975 percent of federal poverty guidelines, the parental contribution shall be determined using a sliding fee scale established by the commissioner of human services which begins at 4.5 percent of adjusted gross income at 675 percent of federal poverty guidelines and increases to 5.99 percent of adjusted gross income for those with adjusted gross income up to 975 percent of federal poverty guidelines; and

4. if the adjusted gross income is equal to or greater than 975 percent of federal poverty guidelines, the parental contribution shall be 7.49 percent of adjusted gross income.

If the child lives with the parent, the annual adjusted gross income is reduced by $2,400 prior to calculating the parental contribution. If the child resides in an institution specified in section 256B.35, the parent is responsible for the personal needs allowance specified under that section in addition to the parental contribution determined under this section.
The parental contribution is reduced by any amount required to be paid directly to the child pursuant to a court order, but only if actually paid.

(c) The household size to be used in determining the amount of contribution under paragraph (b) includes natural and adoptive parents and their dependents, including the child receiving services. Adjustments in the contribution amount due to annual changes in the federal poverty guidelines shall be implemented on the first day of July following publication of the changes.

(d) For purposes of paragraph (b), "income" means the adjusted gross income of the natural or adoptive parents determined according to the previous year's federal tax form, except, effective retroactive to July 1, 2003, taxable capital gains to the extent the funds have been used to purchase a home shall not be counted as income.

(e) The contribution shall be explained in writing to the parents at the time eligibility for services is being determined. The contribution shall be made on a monthly basis effective with the first month in which the child receives services. Annually upon redetermination or at termination of eligibility, if the contribution exceeded the cost of services provided, the local agency or the state shall reimburse that excess amount to the parents, either by direct reimbursement if the parent is no longer required to pay a contribution, or by a reduction in or waiver of parental fees until the excess amount is exhausted. All reimbursements must include a notice that the amount reimbursed may be taxable income if the parent paid for the parent's fees through an employer's health care flexible spending account under the Internal Revenue Code, section 125, and that the parent is responsible for paying the taxes owed on the amount reimbursed.

(f) The monthly contribution amount must be reviewed at least every 12 months; when there is a change in household size; and when there is a loss of or gain in income from one month to another in excess of ten percent. The local agency shall mail a written notice 30 days in advance of the effective date of a change in the contribution amount. A decrease in the contribution amount is effective in the month that the parent verifies a reduction in income or change in household size.

(g) Parents of a minor child who do not live with each other shall each pay the contribution required under paragraph (a). An amount equal to the annual court-ordered child support payment actually paid on behalf of the child receiving services shall be deducted from the adjusted gross income of the parent making the payment prior to calculating the parental contribution under paragraph (b).

(h) The contribution under paragraph (b) shall be increased by an additional five percent if the local agency determines that insurance coverage is available but not obtained for the child. For purposes of this section, "available" means the insurance is a benefit of employment for a family member at an annual cost of no more than five percent of the family's annual income. For purposes of this section, "insurance" means health and accident insurance coverage, enrollment in a nonprofit health service plan, health maintenance organization, self-insured plan, or preferred provider organization;
Parents who have more than one child receiving services shall not be required to pay more than the amount for the child with the highest expenditures. There shall be no resource contribution from the parents. The parent shall not be required to pay a contribution in excess of the cost of the services provided to the child, not counting payments made to school districts for education-related services. Notice of an increase in fee payment must be given at least 30 days before the increased fee is due:

(i) the contribution under paragraph (b) shall be reduced by $300 per fiscal year if, in the 12 months prior to July 1:

(1) the parent applied for insurance for the child;
(2) the insurer denied insurance;
(3) the parent submitted a complaint or appeal, in writing to the insurer, submitted a complaint or appeal, in writing, to the commissioner of health or the commissioner of commerce, or litigated the complaint or appeal; and
(4) as a result of the dispute, the insurer reversed its decision and granted insurance.

For purposes of this section, "insurance" has the meaning given in paragraph (h).

A parent who has requested a reduction in the contribution amount under this paragraph shall submit proof in the form and manner prescribed by the commissioner or county agency, including, but not limited to, the insurer's denial of insurance, the written letter or complaint of the parents, court documents, and the written response of the insurer approving insurance.

The determinations of the commissioner or county agency under this paragraph are not rules subject to chapter 14.

Sec. 2.

Minnesota Statutes 2022, section 256B.04, is amended by adding a subdivision to read:

Subd. 26. Notice of employed persons with disabilities program. At the time of initial enrollment and at least annually thereafter, the commissioner shall provide information on the medical assistance program for employed persons with disabilities under section 256B.057, subdivision 9, to all medical assistance enrollees who indicate they have a disability.

Sec. 3.

Minnesota Statutes 2022, section 256B.056, subdivision 3, is amended to read:

Subd. 3. Asset limitations for certain individuals. (a) To be eligible for medical assistance, a person must not individually own more than $3,000 in assets, or if a member

household must not own more than $6,000 in assets, plus $200 for each additional legal
dependent. In addition to these maximum amounts, an eligible individual or family may
accrue interest on these amounts, but they must be reduced to the maximum at the time of
an eligibility redetermination. The accumulation of the clothing and personal needs allowance
according to section 256B.35 must also be reduced to the maximum at the time of the
eligibility redetermination. The value of assets that are not considered in determining
eligibility for medical assistance is the value of those assets excluded under the Supplemental
Security Income program for aged, blind, and disabled persons, with the following
exceptions:

1. household goods and personal effects are not considered;
2. capital and operating assets of a trade or business that the local agency determines
are necessary to the person's ability to earn an income are not considered;
3. motor vehicles are excluded to the same extent excluded by the Supplemental Security
Income program;
4. assets designated as burial expenses are excluded to the same extent excluded by the
Supplemental Security Income program. Burial expenses funded by annuity contracts or
life insurance policies must irrevocably designate the individual's estate as contingent

subdivision 9, are not considered for 12 months, beginning with the first month of ineligibility
as an employed person with a disability, to the extent that the person's total assets remain
within the allowed limits of section 256B.057, subdivision 9, paragraph (d);

24-consecutive-month period. A designated employment incentives asset account contains
qualified assets owned by the person and the personal needs allowance in the last month of enrollment
in medical assistance under section 256B.057, subdivision 9. Qualified assets include
retirement and pension accounts, medical expense accounts, and up to $17,000 of the person's
other nonexcluded liquid assets. An employment incentives asset account is no longer
designated when a person loses medical assistance eligibility for a calendar month or more
before turning age 65. A person who loses medical assistance eligibility before age 65 can
establish a new designated employment incentives asset account by establishing a new
24-consecutive-month period of enrollment under section 256B.057, subdivision 9. The
income of a person enrolled in medical assistance under section 256B.057, subdivision 9,
during each of the 24 consecutive months before the person's 65th birthday
must be disregarded when determining eligibility for medical assistance under section
of a household with two family members, husband and wife, or parent and child, the
household must not own more than $6,000 in assets, plus $200 for each additional legal

an eligibility redetermination. The accumulation of the clothing and personal needs allowance
according to section 256B.35 must also be reduced to the maximum at the time of the
eligibility redetermination. The value of assets that are not considered in determining
eligibility for medical assistance is the value of those assets excluded under the Supplemental
Security Income program for aged, blind, and disabled persons, with the following
exceptions:

1. household goods and personal effects are not considered;
2. capital and operating assets of a trade or business that the local agency determines
are necessary to the person's ability to earn an income are not considered;
3. motor vehicles are excluded to the same extent excluded by the Supplemental Security
Income program;
4. assets designated as burial expenses are excluded to the same extent excluded by the
Supplemental Security Income program. Burial expenses funded by annuity contracts or
life insurance policies must irrevocably designate the individual's estate as contingent
beneficiary to the extent proceeds are not used for payment of selected burial expenses;
5. for a person who no longer qualifies as an employed person with a disability due to
loss of earnings, assets allowed while eligible for medical assistance under section 256B.057,
subdivision 9, are not considered for 12 months, beginning with the first month of ineligibility
as an employed person with a disability, to the extent that the person's total assets remain
within the allowed limits of section 256B.057, subdivision 9, paragraph (d);
6. a designated employment incentives asset account is disregarded when determining
eligibility for medical assistance for a person age 65 years or older under section 256B.055,
subdivision 7. An employment incentives asset account must only be designated by a person
who has been enrolled in medical assistance under section 256B.057, subdivision 9, for a
24-consecutive-month period. A designated employment incentives asset account contains
qualified assets owned by the person and the personal needs allowance in the last month of enrollment
in medical assistance under section 256B.057, subdivision 9. Qualified assets include
retirement and pension accounts, medical expense accounts, and up to $17,000 of the person's
other nonexcluded liquid assets. An employment incentives asset account is no longer
designated when a person loses medical assistance eligibility for a calendar month or more
before turning age 65. A person who loses medical assistance eligibility before age 65 can
establish a new designated employment incentives asset account by establishing a new
24-consecutive-month period of enrollment under section 256B.057, subdivision 9. The
income of a person enrolled in medical assistance under section 256B.057, subdivision 9,
during each of the 24 consecutive months before the person's 65th birthday
must be disregarded when determining eligibility for medical assistance under section

SUBD. 17. Transportation costs. (a) "Nonemergency medical transportation service" means motor vehicle transportation provided by a public or private person that serves emergency medical care or transportation costs incurred by eligible persons in obtaining emergency or nonemergency medical care when paid directly to an ambulance company.

(b) Medical assistance covers medical transportation costs incurred solely for obtaining medical transportation services. The commissioner shall determine whether good cause exists based on the weight of the supporting evidence submitted by the enrollee to demonstrate good cause. Except when an installment agreement is accepted by the commissioner, all persons disenrolled for nonpayment of a premium must pay any past due premiums as well as current premiums due prior to being reenrolled. Nonpayment shall include payment with a returned, refused, or dishonored instrument. The commissioner may require a guaranteed form of payment as the only means to replace a returned, refused, or dishonored instrument.

(h) Premium payment is due upon notification from the commissioner of the premium amount required. Premiums may be paid in installments at the discretion of the commissioner.

(i) Nonpayment of the premium shall result in denial or termination of medical assistance unless the person demonstrates good cause for nonpayment. "Good cause" means an excuse for the enrollee's failure to pay the required premium when due because the circumstances were beyond the enrollee's control or not reasonably foreseeable. The commissioner shall determine whether good cause exists based on the weight of the supporting evidence submitted by the enrollee to demonstrate good cause. Except when an installment agreement is accepted by the commissioner, all persons disenrolled for nonpayment of a premium must pay any past due premiums as well as current premiums due prior to being reenrolled. Nonpayment shall include payment with a returned, refused, or dishonored instrument. The commissioner may require a guaranteed form of payment as the only means to replace a returned, refused, or dishonored instrument.

(j) The commissioner is authorized to determine that a premium amount was calculated or billed in error, make corrections to financial records and billing systems, and refund premiums collected in error.

(k) For enrollees whose income does not exceed 200 percent of the federal poverty guidelines who are: (1) eligible under this subdivision and who are also enrolled in Medicare; and (2) not eligible for medical assistance reimbursement of Medicare premiums under subdivisions 3, 3a, 3b, or 4, the commissioner shall reimburse the enrollee for Medicare part A and Medicare part B premiums under section 256B.0625, subdivision 15, paragraph a and part A and part B coinsurance and deductibles. Reimbursement of the Medicare coinsurance and deductibles, when added to the amount paid by Medicare, must not exceed the total rate the provider would have received for the same service or services if the person was receiving benefits as a qualified Medicare beneficiary.

(l) The commissioner must permit any individual who was disenrolled for nonpayment of premiums previously required under this subdivision to reapply for medical assistance under this subdivision and be reenrolled if eligible without paying past due premiums.

EFFECTIVE DATE. This section is effective January 1, 2024, or upon federal approval, whichever occurs later. The commissioner of human services shall notify the reviser of statutes when federal approval is obtained.

Sec. 5. Minnesota Statutes 2022, section 256B.0625, subdivision 17, is amended to read:

Subd. 17. Transportation costs. (a) "Nonemergency medical transportation service" means motor vehicle transportation provided by a public or private person that serves emergency medical care or transportation costs incurred by eligible persons in obtaining emergency or nonemergency medical care when paid directly to an ambulance company.
nonemergency medical transportation company, or other recognized providers of transportation services. Medical transportation must be provided by:

(1) nonemergency medical transportation providers who meet the requirements of this subdivision;

(2) ambulances, as defined in section 144E.001, subdivision 2;

(3) taxicabs that meet the requirements of this subdivision;

(4) public transit, as defined in section 174.22, subdivision 7;

(5) not-for-hire vehicles, including volunteer drivers, as defined in section 65B.472, subdivision 1, paragraph (h).

(c) Medical assistance covers nonemergency medical transportation provided by nonemergency medical transportation providers enrolled in the Minnesota health care programs. All nonemergency medical transportation providers must comply with the operating standards for special transportation service as defined in sections 174.29 to 174.30 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the commissioner and reported on the claim as the individual who provided the service. All nonemergency medical transportation providers shall bill for nonemergency medical transportation services in accordance with Minnesota health care programs criteria. Publicly operated transit systems, volunteers, and not-for-hire vehicles are exempt from the requirements outlined in this paragraph.

(d) An organization may be terminated, denied, or suspended from enrollment if:

(1) the provider has not initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

(2) the provider has initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

(i) the commissioner has sent the provider a notice that the individual has been disqualified under section 245C.14; and

(ii) the individual has not received a disqualification set-aside specific to the special transportation services provider under sections 245C.22 and 245C.23.

(e) The administrative agency of nonemergency medical transportation must:

(1) adhere to the policies defined by the commissioner;

(2) pay nonemergency medical transportation providers for services provided to Minnesota health care programs beneficiaries to obtain covered medical services;

(3) provide data monthly to the commissioner on appeals, complaints, no-shows, canceled trips, and number of trips by mode; and
(d) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single
administrative structure assessment tool that meets the technical requirements established
by the commissioner, reconciles trip information with claims being submitted by providers,
and ensures prompt payment for nonemergency medical transportation services.

(f) Until the commissioner implements the single administrative structure and delivery
system under subdivision 18e; clients shall obtain their level-of-service certificate from the
commissioner or an entity approved by the commissioner that does not dispatch rides for
clients using modes of transportation under paragraph (l), clauses (4), (5), (6), and (7).

(g) The commissioner may use an order by the recipient's attending physician, advanced
practice registered nurse, physician assistant, or a medical or mental health professional to
certify that the recipient requires nonemergency medical transportation services.
Nonemergency medical transportation providers shall perform driver-assisted services for
eligible individuals, when appropriate. Driver-assisted service includes passenger pickup
at and return to the individual's residence or place of business, assistance with admittance
of the individual to the medical facility, and assistance in passenger securement or in securing
of wheelchairs, child seats, or stretchers in the vehicle.

Nonemergency medical transportation providers must take clients to the health care
provider using the most direct route, and must not exceed 30 miles for a trip to a primary
care provider or 60 miles for a trip to a specialty care provider, unless the client receives
authorization from the local agency.

Nonemergency medical transportation providers may not bill for separate base rates for
the continuation of a trip beyond the original destination. Nonemergency medical
transportation providers must maintain trip logs, which include pickup and drop-off times;
signed by the medical provider or client, whichever is deemed most appropriate; attesting
to mileage traveled to obtain covered medical services. Clients requesting client mileage
reimbursement must sign the trip log attesting mileage traveled to obtain covered medical
services.

(h) The administrative agency shall use the level of service process established by the
commissioner to determine the client's most appropriate mode of transportation. If public
transit or a certified transportation provider is not available to provide the appropriate service
mode for the client, the client may receive a one-time service upgrade.

(i) The covered modes of transportation are:

(1) client reimbursement, which includes client mileage reimbursement provided to
clients who have their own transportation, or to family or an acquaintance who provides
transportation to the client;

(2) volunteer transport, which includes transportation by volunteers using their own
vehicle;
unassisted transport, which includes transportation provided to a client by a taxicab or public transit. If a taxicab or public transit is not available, the client can receive transportation from another nonemergency medical transportation provider.

(4) assisted transport, which includes transport provided to clients who require assistance by a nonemergency medical transportation provider;

(5) lift-equipped/ramp transport, which includes transport provided to a client who is dependent on a device and requires a nonemergency medical transportation provider with a vehicle containing a lift or ramp;

(6) protected transport, which includes transport provided to a client who has received a prescreening that has deemed other forms of transportation inappropriate and who requires a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety locks, a video recorder, and a transparent thermoplastic partition between the passenger and the vehicle driver; and (ii) who is certified as a protected transport provider; and

(7) stretcher transport, which includes transport for a client in a prone or supine position and requires a nonemergency medical transportation provider with a vehicle that can transport a client in a prone or supine position.

(j) The local agency shall be the single administrative agency and shall administer and reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the commissioner has developed, made available, and funded the web-based single administrative structure, assessment tool; and level of need assessment under subdivision 18e. The local agency's financial obligation is limited to funds provided by the state or federal government.

(k) The commissioner shall:

(1) verify that the mode and use of nonemergency medical transportation is appropriate;

(2) verify that the client is going to an approved medical appointment; and

(3) investigate all complaints and appeals.

(l) The administrative agency shall pay for the services provided in this subdivision and seek reimbursement from the commissioner, if appropriate. As vendors of medical care, local agencies are subject to the provisions in section 256B.041, the sanctions and monetary recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

(m) Payments for nonemergency medical transportation must be paid based on the client's assessed mode under paragraph (h), not the type of vehicle used to provide the service. The medical assistance reimbursement rates for nonemergency medical transportation services that are payable by or on behalf of the commissioner for nonemergency medical transportation services are:

(1) $0.22 per mile for client reimbursement;
(2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer transport;
(3) equivalent to the standard fare for unassisted transport when provided by public transit, and $14.93 for the base rate and $1.53 per mile when provided by a nonemergency medical transportation provider;
(4) $15.28 for the base rate and $1.53 per mile for assisted transport;
