Rapid whole genome sequencing includes patient-only whole genome sequencing and duo and trio whole genome sequencing of the patient and the patient's biological parent or parents.

Subd. 2. Required coverage. A health plan that provides coverage to Minnesota residents must cover rWGS testing if the enrollee:

(3) is receiving inpatient hospital services in an intensive care unit or a neonatal or high acuity pediatric care unit.

Subd. 3. Coverage criteria. Coverage may be based on the following medical necessity criteria:

(1) the enrollee has symptoms that suggest a broad differential diagnosis that would require an evaluation by multiple genetic tests if rWGS testing is not performed;
(2) timely identification of a molecular diagnosis is necessary in order to guide clinical decision making, and the rWGS testing may aid in guiding the treatment or management of the enrollee's condition; and
(3) the enrollee's complex or acute illness of unknown etiology includes at least one of the following conditions:

(i) congenital anomalies involving at least two organ systems, or complex or multiple congenital anomalies in one organ system;

(xi) abnormal physiologic function studies that are suggestive of an underlying genetic etiology; or

(xii) family genetic history related to the patient's condition.

Subd. 4. Cost sharing. Coverage provided in this section is subject to the enrollee's health plan cost-sharing requirements, including any deductibles, co-payments, or coinsurance requirements that apply to diagnostic testing services.

Subd. 5. Payment for services provided. If the enrollee's health plan uses a capitated or bundled payment arrangement to reimburse a provider for services provided in an inpatient setting, reimbursement for services covered under this section must be paid separately and in addition to any reimbursement otherwise payable to the provider under the capitated or bundled payment arrangement, unless the health carrier and the provider have negotiated an increased capitated or bundled payment rate that includes the services covered under this section.

Subd. 6. Genetic data. 60.26 cost of providing coverage under this section is appropriated to the commissioner of
60.27 commerce. Health carriers must report to the commissioner quantified costs attributable to
60.28 the additional benefit under this section in a format developed by the commissioner. The

61.7 carrier must not deny or limit coverage of a health care service which the enrollee has already

an enrollee as part of the policy, subscriber contract, or certificate of coverage. Effective
January 1, 2026, the commissioner must provide a clear and concise description of this
process to fee-for-service recipients receiving services under chapters 256B and 256L.
In addition to the enrollee, the utilization review organization must allow any provider or provider's
designee, or responsible patient representative, including a family member, to fulfill the
obligations under the health benefit plan.

Subd. 3a. Standard review determination. (a) Notwithstanding subdivision 3, a
standard review determination on all requests for utilization review must be communicated
to the provider and enrollee in accordance with this subdivision within five business days
after receiving the request if the request is received electronically, or within six business
days if received through nonelectronic means, provided that all information reasonably
necessary to make a determination on the request has been made available to the utilization
review organization. Effective January 1, 2022. A standard review determination on all
requests for utilization review must be communicated to the provider and enrollee in accordance with this subdivision within five business days after receiving the request, regardless of how the request was received, provided that all information reasonably necessary to make a determination on the request has been made available to the utilization review organization.

(b) When a determination is made to authorize, notification must be provided promptly by telephone to the provider. The utilization review organization shall send written notification to the provider or shall maintain an audit trail of the determination and telephone notification. For purposes of this subdivision, "audit trail" includes documentation of the telephone notification, including the date; the name of the person spoken to; the enrollee; the service; procedure; or admission authorized; and the date of the service, procedure, or admission. If the utilization review organization indicates authorization by use of a number, the number must be called the "authorization number." For purposes of this subdivision, notification may also be made by facsimile to a verified number or by electronic mail to a secure electronic mailbox. These electronic forms of notification satisfy the "audit trail" requirement of this paragraph.

For purposes of this subdivision, notification may be made by facsimile to a verified number or by electronic mail to a secure electronic mailbox. Written notification must be sent to the enrollee and may be sent by United States mail, facsimile to a verified number, or by electronic mail to a secure mailbox. The written notification must include all reasons relied on by the utilization review organization for the determination and the process for initiating an appeal of the determination. Upon request, the utilization review organization shall provide the provider or enrollee with the criteria used to determine the necessity, appropriateness, and efficacy of the health care service and identify the database, professional treatment parameter, or other basis for the criteria. Reasons for an adverse determination may include, among other things, the lack of adequate information to authorize after a reasonable attempt has been made to contact the provider or enrollee.

(b) A health plan must not subject orthotic and prosthetic benefits to separate financial requirements that apply only with respect to those benefits. A health plan may impose co-payment and coinsurance amounts on those benefits, except that any financial requirements that apply to those benefits must not be more restrictive than the financial requirements that apply to the health plan's medical and surgical benefits, including those for internal restorative devices.

(c) A health plan may limit the benefits for, or alter the financial requirements for, out-of-network coverage of prosthetic and orthotic devices, except that the restrictions and requirements that apply to those benefits must not be more restrictive than the financial requirements that apply to the out-of-network coverage for the health plan's medical and surgical benefits.

(d) A health plan must cover orthoses and prostheses when furnished under an order by a prescribing physician or licensed health care prescriber who has authority in Minnesota to prescribe orthoses and prostheses, and that coverage for orthotic and prosthetic devices, supplies, accessories, and services must include those devices or device systems, supplies, accessories, and services that are customized to the covered individual's needs.

(e) A health plan must cover orthoses and prostheses determined by the enrollee's provider to be the most appropriate model that meets the medical needs of the enrollee for purposes of performing physical activities, as applicable, including but not limited to running, biking, and swimming, and maximizing the enrollee's limb function.

(f) A health plan must cover orthoses and prostheses for showering or bathing.
Subd. 3. Prior authorization. A health plan may require prior authorization for orthotic
and prosthetic devices, supplies, and services in the same manner and to the same extent as
prior authorization is required for any other covered benefit.

Subd. 4. Reimbursement. (a) The commissioner of commerce must reimburse health
plans for coverage under this section. This subsection does not apply to coverage provided
by health plans to public health care program enrollees under chapters 256B and 256L.

Reimbursement is available only for coverage that would not have been provided by the
health plan without the requirements of this section. Treatments and services covered by
the health plan as of January 1, 2024, are ineligible for payment under this subdivision by
the commissioner of commerce.

(b) Health plan companies must report to the commissioner of commerce quantified
costs attributable to the additional benefit under this section in a format developed by the
commissioner. A health plan's coverage as of January 1, 2024, must be used by the health
plan company as the basis for determining whether coverage would not have been provided
by the health plan for purposes of this subdivision.

(c) The commissioner of commerce must evaluate submissions and make payments to
health plans as provided in Code of Federal Regulations, title 45, section 155.170.

Subd. 5. Appropriation. Each fiscal year, an amount necessary to make payments to
health plans to defray the cost of providing coverage under this section is appropriated to
the commissioner of commerce.

EFFECTIVE DATE. This section is effective January 1, 2025, and applies to all health
plans offered, issued, or renewed on or after that date.

Sec. 24. [62Q.6651] MEDICAL NECESSITY AND NONDISCRIMINATION
STANDARDS FOR COVERAGE OF PROSTHETICS OR ORTHOTICS,

(a) When performing a utilization review for a request for coverage of prosthetic or
orthotic benefits, a health plan company shall apply the most recent version of evidence-based
treatment and fit criteria as recognized by relevant clinical specialists.

(b) A health plan company shall render utilization review determinations in a
nondiscriminatory manner and shall not deny coverage for habilitative or rehabilitative
benefits, including prosthetics or orthotics, solely on the basis of an enrollee's actual or
perceived disability.

(c) A health plan company shall not deny a prosthetic or orthotic benefit for an individual
with limb loss or absence that would otherwise be covered for a nondisabled person seeking
medical or surgical intervention to restore or maintain the ability to perform the same
physical activity.
(d) A health plan offered, issued, or renewed in Minnesota that offers coverage for prosthetics and custom orthotic devices shall include language describing an enrollee's rights pursuant to paragraphs (b) and (c) in its evidence of coverage and any benefit denial letters.

(e) A health plan that provides coverage for prosthetic or custom orthotic devices shall ensure access to medically necessary clinical care and to prosthetic and custom orthotic devices and technology from not less than two distinct prosthetic and custom orthotic providers in the plan's provider network located in Minnesota. In the event that medically necessary covered orthotics and prosthetics are not available from an in-network provider, the health plan company shall provide processes to refer a member to an out-of-network provider and shall fully reimburse the out-of-network provider at a mutually agreed upon rate less member cost sharing determined on an in-network basis.

(f) If coverage for prosthetic or custom orthotic devices is provided, payment shall be made for the replacement of a prosthetic or custom orthotic device or for the replacement of any part of the devices, without regard to continuous use or useful lifetime restrictions, if an ordering health care provider determines that the provision of a replacement device, or a replacement part of a device, is necessary because:

1. a change in the physiological condition of the patient;
2. an irreparable change in the condition of the device or in a part of the device; or
3. the condition of the device, or the part of the device, requires repairs and the cost of the repairs would be more than 60 percent of the cost of a replacement device or of the part being replaced.

(g) Confirmation from a prescribing health care provider may be required if the prosthetic or custom orthotic device or part being replaced is less than three years old.

EFFECTIVE DATE. This section is effective January 1, 2025, and applies to all health plans offered, issued, or renewed on or after that date.

Subdivision 1. Required coverage. A health plan must provide coverage for intermittent urinary catheters and insertion supplies if intermittent catheterization is recommended by the enrollee's health care provider. At least 180 intermittent catheters per month with insertion supplies must be covered unless a lesser amount is prescribed by the enrollee's health care provider. A health plan providing coverage under the medical assistance program shall fully reimburse the out-of-network provider at a mutually agreed upon rate less member cost sharing determined on an in-network basis.

Subd. 2. Cost-sharing requirements. A health plan is prohibited from imposing a deductible, co-payment, coinsurance, or other restriction on intermittent catheters and insertion supplies that the health plan does not apply to durable medical equipment in general.

owns, controls, holds with the power to vote, or holds proxies representing 40 percent or
more of the voting securities of any other person, or if any person, directly or indirectly,

consultation, diagnosis, and treatment, through the joint use of shared office space, facilities,
equipment, or personnel;
(2) for which substantially all services of the health care providers who are group
members are provided through the group and are billed in the name of the group practice

in accordance with methods previously determined by members of the group.
An entity that otherwise meets the definition of health care provider group practice in this paragraph shall be considered a health care provider group practice even if its shareholders, partners, members, or owners include a professional corporation, limited liability company, or other entity in which any beneficial owner is a health care provider and that is formed to render professional services.

(h) "Hospital" means a health care facility licensed as a hospital under sections 144.50 to 144.56.

(i) "Medical foundation" means a nonprofit legal entity through which health care providers perform research or provide medical services.

8. an addition, removal, withdrawal, substitution, or other modification of the members of a health care entity formed under chapter 317A that results in a change of 40 percent or more of the membership of the health care entity; or
9. any other transfer of control of a health care entity to, or acquisition of control of a health care entity by, another entity.

(k) A transaction as defined in paragraph (j) does not include:

1. an action or series of actions that meets one or more of the criteria set forth in paragraph (j); clauses (1) to (9), if, immediately prior to all such actions, the health care
entity directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, all other parties to the action or series of actions;

Sec. 52. REQUIREMENTS FOR NONPROFIT HEALTH COVERAGE ENTITY CONVERSION TRANSACTIONS.

Subdivision 1. Notice. (a) Before entering into a conversion transaction, a nonprofit health coverage entity must notify the attorney general according to section 317A.811. In addition to the elements listed in section 317A.811, subdivision 1, the notice required by this subdivision must also include: (1) an itemization of the nonprofit health coverage entity's public benefit assets and an independent third-party valuation of the nonprofit health coverage entity's public benefit assets; (2) a proposed plan to distribute the value of those public benefit assets to a conversion benefit entity that meets the requirements of section 145D.33; and (3) other information contained in forms provided by the attorney general.

(b) When the nonprofit health coverage entity provides the attorney general with the notice and other information required under paragraph (a), the nonprofit health coverage entity must also provide a copy of this notice and other information to the applicable commissioner.

Subd. 2. Nonprofit health coverage entity requirements. Before entering into a conversion transaction, a nonprofit health coverage entity must ensure that:

1. the proposed conversion transaction complies with chapters 317A and 501B and other applicable laws;
2. the proposed conversion transaction does not involve or constitute a breach of charitable trust;
3. the nonprofit health coverage entity shall receive full and fair value for its public benefit assets;
4. the value of the public benefit assets to be transferred has not been manipulated in a manner that causes or caused the value of the assets to decrease;
5. the proceeds of the proposed conversion transaction shall be used in a manner consistent with the public benefit for which the assets are held by the nonprofit health coverage entity;
6. the proposed conversion transaction shall not result in a breach of fiduciary duty; and
7. the conversion benefit entity that receives the value of the nonprofit health coverage entity's public benefit assets meets the requirements in section 145D.33.

Subd. 3. Listening sessions and public comment. The attorney general or the commissioner may hold public listening sessions or forums and may solicit public comments regarding the proposed conversion transaction, including on the formation of a conversion benefit entity under section 145D.33.
Subd. 4. Waiting period. (a) Subject to paragraphs (b) and (c), a nonprofit health
coverage entity must not enter into a conversion transaction until 90 days after the nonprofit
health coverage entity has given written notice as required in subdivision 1.

(b) The attorney general may waive all or part of the waiting period or may extend the
waiting period for an additional 90 days by notifying the nonprofit health coverage entity
of the extension in writing.

(c) The time periods specified in this subdivision shall be suspended while an
investigation into the conversion transaction is pending or while a request from the attorney
general for additional information is outstanding.

Subd. 5. Transfer of value of assets required. As part of a conversion transaction for
which notice is provided under subdivision 1, the nonprofit health coverage entity must
transfer the entirety of the full and fair value of its public benefit assets to one or more
conversion benefit entities that meet the requirements in section 145D.33.

Subd. 6. Funds restricted for a particular purpose. Nothing in this section relieves a
nonprofit health coverage entity from complying with requirements for funds that are
restricted for a particular purpose. Funds restricted for a particular purpose must continue
to be used in accordance with the purpose for which they were restricted under sections
317A.671 and 501B.31. A nonprofit health coverage entity may not convert assets that
would conflict with their restricted purpose.

Sec. 53. [145D.33] CONVERSION BENEFIT ENTITY REQUIREMENTS.

Subdivision 1. Requirements. In order to receive the value of a nonprofit health coverage
entity's public benefit assets as part of a conversion transaction, a conversion benefit entity
must:

(1) be: (i) an existing or new domestic, nonprofit corporation operating under chapter
317A; a nonprofit limited liability company operating under chapter 322C, or a wholly
owned subsidiary thereof; and (ii) exempt under United States Code, title 26, section
501(c)(3);

(2) have in place procedures and policies to prohibit conflicts of interest, including but
not limited to conflicts of interest relating to any grant-making activities that may benefit:

(i) the officers, directors, or key employees of the conversion benefit entity;

(ii) any entity to which the nonprofit health coverage entity transfers public benefit assets
in connection with a conversion transaction; or

(iii) any officers, directors, or key employees of an entity to which the nonprofit health
coverage entity transfers public benefit assets in connection with a conversion transaction;

(3) operate to benefit the health of the people in this state;
have in place procedures and policies that prohibit:

(i) an officer, director, or key employee of the nonprofit health coverage entity from serving as an officer, director, or key employee of the conversion benefit entity for the five-year period following the conversion transaction;

(ii) an officer, director, or key employee of the nonprofit health coverage entity or of the conversion benefit entity from directly or indirectly benefiting from the conversion transaction; and

(iii) elected or appointed public officials from serving as an officer, director, or key employee of the conversion benefit entity;

(5) not make grants or payments or otherwise provide financial benefit to an entity to which a nonprofit health coverage entity transfers public benefit assets as part of a conversion transaction or to a related organization of the entity to which the nonprofit health coverage entity transfers public benefit assets as part of a conversion transaction; and

(6) not have as an officer director, or key employee any individual who has been an officer, director, or key employee of an entity that receives public benefit assets as part of a conversion transaction.

Subd. 2. Review and approval. The commissioner must review and approve a conversion benefit entity before the conversion benefit entity receives the value of public benefit assets from a nonprofit health coverage entity. In order to be approved under this subdivision, the conversion benefit entity's governance must be broadly based in the community served by the nonprofit health coverage entity and must be independent of the entity to which the nonprofit health coverage entity transfers public benefit assets as part of the conversion transaction. As part of the review of the conversion benefit entity's governance, the commissioner may hold a public hearing. The public hearing, if held by the commissioner, may be held concurrently with the hearing authorized under section 62D.31. If the commissioner finds it necessary, a portion of the value of the public benefit assets must be used to develop a community-based plan for use by the conversion benefit entity.

Subd. 3. Community advisory committee. The commissioner must establish a community advisory committee for a conversion benefit entity receiving the value of public benefit assets. The members of the community advisory committee must be selected to represent the diversity of the community previously served by the nonprofit health coverage entity. The community advisory committee must:

(1) provide a slate of three nominees for each vacancy on the governing board of the conversion benefit entity from which the remaining board members must select new members to the board;

(2) provide the conversion benefit entity's governing board with guidance on the health needs of the community previously served by the nonprofit health coverage entity; and
99.11 (3) promote dialogue and information sharing between the conversion benefit entity and the community previously served by the nonprofit health coverage entity;
99.12 Sec. 54.  [145D.34] ENFORCEMENT AND REMEDIES.
99.13 Subdivision 1. Investigation. The attorney general has the powers in section 8.31:
99.14 Nothing in this subdivision limits the powers, remedies, or responsibilities of the attorney general under this chapter; chapter 8, 369, 317A, or 501B; or any other chapter. For purposes of this section, an approval by the commissioner for regulatory purposes does not impair or inform the attorney general’s authority:
99.15 Subd. 2. Enforcement and penalties. (a) The attorney general may bring an action in district court to enjoin or unwind a conversion transaction or seek other equitable relief necessary to protect the public interest if:
99.16 (1) a nonprofit health coverage entity or conversion transaction violates sections 145D.30 to 145D.33; or
99.17 (2) the conversion transaction is contrary to the public interest:
99.18 In seeking injunctive relief, the attorney general must not be required to establish irreparable harm but must instead establish that a violation of sections 145D.30 to 145D.33 occurred or that the requested order promotes the public interest.
99.19 (b) Factors informing whether a conversion transaction is contrary to the public interest include but are not limited to whether:
99.20 (1) the conversion transaction shall result in increased health care costs for patients; and
99.21 (2) the conversion transaction shall adversely impact provider cost trends and containment of total health care spending;
99.22 (c) The attorney general may enforce sections 145D.30 to 145D.33 under section 8.31:
99.23 (d) Failure of the entities involved in a conversion transaction to provide timely information as required by the attorney general or the commissioner shall be an independent and sufficient ground for a court to enjoin or unwind the transaction or provide other equitable relief; provided the attorney general notifies the entities of the inadequacy of the information provided and provides the entities with a reasonable opportunity to remedy the inadequacy;
99.24 (e) An officer, director, or other executive found to have violated sections 145D.30 to 145D.33 shall be subject to a civil penalty of up to $100,000 for each violation. A corporation or other entity which is a party to or materially participated in a conversion transaction found to have violated sections 145D.30 to 145D.33 shall be subject to a civil penalty of up to $1,000,000. A court may also award reasonable attorney fees and costs of investigation and litigation.
99.25 Subd. 3. Commissioner of health; data and research. The commissioner of health must provide the attorney general, upon request, with data and research on broader market
trends, impacts on prices and outcomes, public health and population health considerations, and health care access, for the attorney general to use when evaluating whether a conversion transaction is contrary to public interest. The commissioner may share with the attorney general, according to section 13.05, subdivision 9, any not public data, as defined in section 13.02, subdivision 8a, held by the commissioner to aid in the investigation and review of the conversion transaction, and the attorney general must maintain this data with the same classification according to section 13.03, subdivision 4, paragraph (c).

Subd. 4. Failure to take action. Failure by the attorney general to take action with respect to a conversion transaction under this section does not constitute approval of the conversion transaction or waiver, nor shall failure prevent the attorney general from taking action in the same, similar, or subsequent circumstances.

Sec. 55. [145D.35] DATA PRACTICES.

Section 13.65 applies to data provided by a nonprofit health coverage entity or the commissioner to the attorney general under sections 145D.30 to 145D.33. Section 13.39 applies to data provided by a nonprofit health coverage entity to the commissioner under sections 145D.30 to 145D.33. The attorney general or the commissioner may make any data classified as confidential or protected nonpublic under this section accessible to any civil or criminal law enforcement agency if the attorney general or commissioner determines that the access aids the law enforcement process.

Sec. 56. [145D.36] COMMISSIONER OF HEALTH; REPORTS AND ANALYSIS.

Notwithstanding any law to the contrary, the commissioner of health may use data or information submitted under sections 60A.135 to 60A.137, 60A.17, 60D.18, 60D.20, 62D.221, and 145D.32 to conduct analyses of the aggregate impact of transactions within nonprofit health coverage entities and organizations which include nonprofit health coverage entities or their affiliates on access to or the cost of health care services, health care market consolidation, and health care quality. The commissioner of health must issue periodic public reports on the number and types of conversion transactions subject to sections 145D.30 to 145D.35 and on the aggregate impact of conversion transactions on health care costs, quality, and competition in Minnesota.

Sec. 57. [145D.37] RELATION TO OTHER LAW.

(a) Sections 145D.30 to 145D.36 are in addition to and do not affect or limit any power, remedy, or responsibility of a health maintenance organization, a service plan corporation, a conversion benefit entity, the attorney general, the commissioner of health, or the commissioner of commerce under this chapter; chapter 8, 62C, 62D, 309, 317A, or 501B; or other law.

(b) Nothing in sections 145D.03 to 145D.36 authorizes a nonprofit health coverage entity to enter into a conversion transaction not otherwise permitted under chapter 317A or 501B or other law.

Subdivision 1. Definitions. All terms used in this section have the meanings given them in section 62Q.665, subdivision 1.

Subd. 2. Coverage requirements. (a) Medical assistance covers orthotic and prosthetic devices, supplies, and services:

1) furnished under an order by a prescribing physician or licensed health care prescriber who has authority in Minnesota to prescribe orthoses and prostheses. Coverage for orthotic and prosthetic devices, supplies, accessories, and services under this clause includes those devices or device systems, supplies, accessories, and services that are customized to the enrollee's needs;

2) determined by the enrollee's provider to be the most appropriate model that meets the medical needs of the enrollee for purposes of performing physical activities, as applicable, including but not limited to running, biking, and swimming, and maximizing the enrollee's limb function; or

3) for showering or bathing.

(b) The coverage set forth in paragraph (a) includes the repair and replacement of those orthotic and prosthetic devices, supplies, and services described therein.

(c) Coverage of a prosthetic or orthotic benefit must not be denied for an individual with limb loss or absence that would otherwise be covered for a nondisabled person seeking medical or surgical intervention to restore or maintain the ability to perform the same physical activity.
(d) If coverage for prosthetic or custom orthotic devices is provided, payment must be made for the replacement of a prosthetic or custom orthotic device or for the replacement of any part of the devices, without regard to useful lifetime restrictions, if an ordering health care provider determines that the provision of a replacement device, or a replacement part of a device, is necessary because:

1. of a change in the physiological condition of the enrollee;
2. of an irreparable change in the condition of the device or in a part of the device; or
3. the condition of the device, or the part of the device, requires repairs and the cost of the repairs would be more than 60 percent of the cost of a replacement device or of the part being replaced.

Subd. 3. Restrictions on coverage. (a) Prior authorization may be required for orthotic and prosthetic devices, supplies, and services.

(b) A utilization review for a request for coverage of prosthetic or orthotic benefits must apply the most recent version of evidence-based treatment and fit criteria as recognized by relevant clinical specialists;

(c) Utilization review determinations must be rendered in a nondiscriminatory manner and shall not deny coverage for habilitative or rehabilitative benefits, including prosthetics or orthotics, solely on the basis of an enrollee’s actual or perceived disability.

(d) Evidence of coverage and any benefit denial letters must include language describing an enrollee’s rights pursuant to paragraphs (b) and (c);

(e) Confirmation from a prescribing health care provider may be required if the prosthetic or custom orthotic device or part being replaced is less than three years old.

Subd. 4. Managed care plan access to care. (a) Managed care plans and county-based purchasing plans subject to this section must ensure access to medically necessary clinical care and to prosthetic and custom orthotic devices and technology from at least two distinct prosthetic and custom orthotic providers in the plan’s provider network located in Minnesota.

(b) In the event that medically necessary covered orthotics and prosthetics are not available from an in-network provider, the plan must provide processes to refer an enrollee to an out-of-network provider and must fully reimburse the out-of-network provider at a mutually agreed upon rate less enrollee cost sharing determined on an in-network basis.
