form, a copy of the resident's or resident's representative's written request, and all supporting
documentation used to complete the assessment being reconsidered. If the facility
fails to provide the required information, the reconsideration will be completed with the
information submitted and the facility cannot make further reconsideration requests on this
classification.

(3) Upon written request and within three business days, the nursing facility must give
the resident or the resident's representative a copy of the assessment being reconsidered and
all supporting documentation used to complete the assessment. Notwithstanding any law

(d) Reconsideration by the commissioner must be made by individuals not involved in reviewing the assessment, audit, or reconsideration that established the disputed classification.

The reconsideration must be based upon the assessment that determined the classification and upon the information provided to the commissioner of health under paragraphs (a) to (c). If necessary for evaluating the reconsideration request, the commissioner may conduct on-site reviews. Within 15 business days of receiving the request for reconsideration, the commissioner shall affirm or modify the original resident classification. The commissioner must transmit the reconsideration classification notice by electronic means to the nursing facility. The nursing facility is responsible for the distribution of the notice to the resident or the resident's representative. The notice must be distributed by the nursing facility within three business days after receipt. A decision by the commissioner under this subdivision is the final administrative decision of the agency for the party requesting reconsideration.

The independent informal dispute resolution process must be completed within 60 calendar days of the facility's request.

(d) (1) Five working days in advance of the scheduled proceeding, the commissioner and the facility must submit written statements and arguments, documentary evidence, depositions, and oral statements and arguments at the arbitration proceeding. Oral statements and arguments may be made by telephone any other materials supporting their position to the administrative law judge.

(h) (b) Within ten working days of the close of the arbitration proceeding, the administrative law judge shall issue findings and recommendations regarding each of the deficiencies in dispute. The findings shall be one or more of the following:

1. Supported in full. The citation is supported in full, with no deletion of findings and no change in the scope or severity assigned to the deficiency citation.

the citation or the negative resident outcome was unavoidable. The findings of the arbitrator
are not binding on the commissioner.

(i) The findings and recommendations of the administrative law judge are not binding
on the commissioner.

(j) Within ten calendar days of receiving the administrative law judge's findings and
recommendations, the commissioner shall issue a recommendation to the Center for Medicare

the administrative law judge's sole finding is that the deficient practice was cited under the
wrong requirements of participation shall not be counted in the numerator or denominator
in the calculation of the proportion of costs.

EFFECTIVE DATE. This section is effective October 1, 2024, or upon federal approval,
whichever is later, and applies to appeals of deficiencies which are issued after October 1,
2024, or on or after the date upon which federal approval is obtained, whichever is later.
