Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Expedited Emergency Rules

Provisions exist for the Commissioners of some state agencies to adopt expedited emergency rules when conditions exist that do not allow the Commissioner to comply with the requirements for emergency rules. The Commissioner must submit the rule to the attorney general for review and must publish a notice of adoption that includes a copy of the rule and the emergency conditions. Expedited emergency rules are effective upon publication in the State Register, and may be effective up to seven days before publication under certain emergency conditions.

Expedited emergency rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited emergency rules detail the agency's rulemaking authority.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." **Adopted Rules** - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Minnesota Department of Natural Resources (DNR) Adopted Expedited Emergency Game and Fish Rules: 2013 Deer Season Regulations, Quotas, and Special Hunts

NOTICE IS HEREBY GIVEN that the above entitled rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13 (b). The statutory authority for the contents of the rule is *Minnesota Statutes*, sections 97A.311, 97A.401, 97A.411, 97A.465, 97A.535, 97B.111, 97B.301, 97B.305, and 97B.311.

The conditions that do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459, are that population data needed to establish quotas and classify deer areas are not available until June. Disabled and special hunt areas open or closed to hunting are not established until harvest and population data are evaluated in May and June. Other changes in are being made to simplify regulations, address localized depredation issues, improve deer harvest and manage diseases.

Dated: 28 June 2013

Tom Landwehr, Commissioner
Department of Natural Resources

Minnesota Department of Agriculture (MDA) Pesticide and Fertilizer Management Division Notice of Public Comment Period on Draft Revisions to the Nitrogen Fertilizer Management Plan

NOTICE IS HERBY GIVEN that The Minnesota Department of Agriculture (MDA) is seeking comment on draft revisions to Minnesota's Nitrogen Fertilizer Management Plan (NFMP). The NFMP is the state's blueprint for prevention or minimization of the impacts of nitrogen fertilizer on groundwater. In 2010, MDA began the revision process to reflect current activities, interagency water protection programs and implementation work, and to better align it with current water resource conditions and programs. MDA convened the NFMP Advisory Committee and hosted eighteen meetings between 2011 and 2012. The revisions were based primarily on input from the Committee with consideration for past NFMP implementation experience, input from related programs, increased knowledge about occurrences of elevated nitrate in groundwater, and advances in agricultural technology and management practices. The long review process is a reflection of the wide array of complicating factors related to nitrogen fertilizer management, its subsequent impacts on groundwater resources, and the development of reasonable response strategies.

To assist the public in understanding these issues and the NFMP, MDA will be hosting a series of public meetings across the state during the month of September. Locations and times of the meetings, the revised plan, and other supporting information will be posted at the website address below.

<http://www.mda.state.mn.us/en/chemicals/fertilizers/nutrient-mgmt/nitrogenplan.aspx>

For any questions regarding the content of the plan, please contact Bruce Montgomery, Fertilizer Nonpoint Section Manager at (651) 201-6178 or: bruce.montgomery@state.mn.us.

Please submit written comments on the proposed revisions by November 1, 2013 through mail or email to Annie Felix-Gerth, Pesticide and Fertilizer Management Division, Minnesota Department of Agriculture, 625 Robert Street North, St. Paul, MN, 55155-2538, annie.felix-gerth@state.mn.us. All comments should, but are not required to, include a contact name, phone number and/or e-mail address to provide for follow up discussion on specific comments.

Minnesota State Lottery Request for Proposals for Sponsorship Agreements

Description of Opportunity

The Minnesota State Lottery develops sponsorship agreements throughout the year with organizations, events, and sports teams to create excitement for lottery players, to interest new players and increase the visibility of lottery games. The Lottery encourages and continually seeks new sponsorship agreements to help achieve current Lottery marketing goals.

Proposal Content

A sponsorship proposal presented to the Lottery should meet the following three criteria:

1. Maximize Lottery Visibility – the event, sports or tie-in proposal should draw a large number of desired participants (typically 50,000 or more) whose demographics match the Lottery player profile. The Lottery is interested in effectively delivering its message of fun and entertainment to Minnesota adults whose demographics skew primarily towards those aged 25-64, with a household income of \$35,000-\$75,000, and having an educational background of some college or higher. The Lottery does not market to those under the age of 18, and family events with high levels of children present are generally not accepted. Attendance, on-site signage visibility and paid media exposure will be critical components that will be evaluated.

2. Enhance Lottery Image- – the event, sports or tie-in proposal should inherently project the attitude that the Lottery is a fun and socially acceptable part of the community. The Lottery's presence should fit well within the lineup of other sponsors. The

State Contracts

Lottery is interested in creating opportunities whereby the sponsorship can translate into sales revenue, either via on-site sales from a Lottery booth, from sales-generating promotions with Lottery retailers or from joint programs with the sponsor's media partners.

3. Provide Promotional Extensions – the event, sports or tie-in proposal should offer exciting, value-added ways to interact with our players and have opportunities to motivate attendees, listeners and viewers to participate in and purchase Lottery games. The proposal must include proper staffing availability or other considerations to help the Lottery implement any appropriate promotional extension ideas.

Proposals should address all pertinent elements of the sponsorship and how the Lottery criteria as stated above and on the Evaluation Form are to be met. To view or print copies of the Request for Proposal go to <http://www.mnlottery.com/vendorops.html>
